# **Operating prompt:**

#### Bluetooth connection:

Long press on / off button, "pound pound" voice prompts boot, this time directly into Bluetooth mode. Turn on the Bluetooth device and look for the "D03" pairing connection, when you hear a "beeps" sound, the pairing is successful.

#### Record song:

- 1, Open the music player, download favorite music player.
- 2. Android phones can record songs directly on the phone's APP wirelessly.
- Apple mobile phones need to use a recording cable to connect the microphone for song recording. When recording, insert the micro USB port into the corresponding charging port of the product, insert the 3.5mm headphone jack into the earphone jack of the Apple phone (the microphone is automatically disconnected from Bluetooth and enter the recording mode), and open the music player to start recording the song.

#### Duet:

- 1. Two pairs of the same microphone are required for the opening of the duet function and are performed in Bluetooth mode
- Turn on the two microphones, double-click the "On / Off key" of one of the microphones after entering the Bluetooth mode. The microphone will sound a "pounding" tone to indicate that another microphone is being searched. When another microphone is heard, it "beeps" When prompted, the two microphones were paired successfully
- Open the phone Bluetooth, search the main microphone's pairing name and connect, you can open the two microphone duet

#### Eliminate the human voice:

Long press the microphone play / pause button to directly remove the human voice, and then long press the play / pause button to reply voice.

#### Charging operation:

Please use the standard charging cable, insert the USB port into the DC5V charger jack, connect the Micro USB port to the microphone charging port for charging, and the charging indicator light is steady red until the indicator light is fully charged.

## **Specifications:**

Diaphragm Specifications: Φ50mm, 1.5mm thick iron sheet, 55 degrees rubber side

Frequency response: 100Hz-12KHz

Pickup: Capacitive

Echo: PT2399

Battery Specifications: 18650 / 1500mA.h 3C lithium battery (external)

Charging voltage: DC5V/1A(Common with mobile phone adapter)

Full charge time: 3 hours

Machine weight: 387g

Product Size :  $\Phi$ 78mm×(H)270mm

## **Accessories**

Microphone :1pcs USB Cable :1pcs

Recording Cable :1pcs User Manual : 1pcs

## **FCC Statement**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1)this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
