User Guidance

Precautions

1. Please read the user manual carefully before use, this product must be used as required otherwise it may lead to fire, explosion or other dangers.
2. This product is 10W fast charge , the power adapter must compatible with QC2.0 or QC3.0 quick charge, otherwise the output power would be 5W automatically.
3. Ensure there is nothing on the charger's surface before use.

Instructions

1. Fix the Wireless car charger holder on a car.

2. Place a phone into the wireless car charger, it will be clamped tightly due to the phone's gravity and it will start charging. The phone shows the Charging statues

3. Easy and convenient. The three clamps of the wireless car charger can close and open automatically when a phone put in and taken out

4. There is a universal turning ball at the back of the charger, it can provide user any view-direction requirements.

5. Safe and reliable. It will automatically cut off when the phone is fully charged or the temperature is higher than 60 degrees. This function is to prevent overcharging and protect the battery.
