SABRE Personal Safety App Tips

The SABRE Personal Safety app was designed with your safety in mind. Features of the app will only work when Cellular Device is paired with SABRE Smart Pepper Spray. Always make sure the products are paired before use. The GPS coordinates sent to your selected contacts as text messages are sent from your mobile phone's internal GPS chip, location accuracy is based on carrier's network capability. Message and data rates may apply.

To ensure you are getting the most out of this product its best to familiarize yourself with the app before use and to consider the following:

- At least one contact must be added and verified to alert selected contacts in the event of an emergency

- Alert Settings must be turned to on for selected contacts and/or Premium Service (local authorities) for alerts to be sent. In Alert Setting screen, the toggle button will be red and in the right-side position.
- Location services must be active in your phone's settings to send your location, **SABRE must ALWAYS be allowed to use location services to use the geo-tracking feature.**
- Bluetooth must be turned on at all times and shared with the SABRE Personal Safety app
- You must have an internet-enabled mobile phone or device using either the iOS or Android operating system in order to access the Services and data coverage must ALWAYS be turned ON
- The SABRE Personal Safety app must be running in the background at all the time
- Background refresh App must be turned ON
- SABRE Smart Pepper Spray must be paired and in range of your mobile device (up to 30 feet range)
- If you do not receive OTP text verification code, contact carrier to ensure SMS OTP text are not being blocked. If OTP text verification is blocked, you can alternately use the OTP phone call verification.

To Determine Battery Charge:

When the SABRE SmartPepper Spray is paired with your mobile phone, the battery life indicator is displayed within the SABRE Personal Safety app on the Device screen, located in your Profile page. When the battery is fully charged the indicator will show 4 solid green bars. When the battery is low the indicator will show only 1 solid red bar.
