

Waterproof Speaker

Please read this manual carefully before use the speaker.

Appearance and function description

1. Volume control button①
2. Volume control button②
3. Power ON /OFF
4. Indication LED light

Note: 1. Volume control button ①: long press volume down, short press for previous song.
2. Volume control button ②: long press volume up, short press for next song.
3. Power button: short press for pause, long press for power on / off.

Product features

1. Bluetooth 5.0 chip is adopted, with wide compatibility and clear sound quality.
2. Built in booster power amplifier chip, HD sound quality playback, flexible and simple operation.
3. Built in boost digital power amplifier, high efficiency and energy saving.
4. Pure Bluetooth playback.
5. Barrier free Bluetooth transmission distance $\leq 10\text{m}$.
6. The built-in battery has overcharge and over discharge protection function to ensure the safety of use.
7. The Power bank function can charge the external device.

Technical parameters

Output power: 7W * 2

Horn specification: 52mm

System frequency: 60hz-16khz

Signal to noise ratio: $\geq 60\text{dB}$

Input sensitivity: $600 \pm 100\text{mV}$

Distortion degree: $\leq 0.5\%$ (1W 1kHz)

Product size: L200 * W80 * h50mm

Charging specification: DC5V 1A

Discharge specification: DC5V 2.4a

Bluetooth pairing and play

1. Long press the power button 3 seconds, the working light will be on, and the blue light will flash.
2. Turn on Bluetooth: after power on, it is set to be in Bluetooth to be connected state, and the Bluetooth indicator blue light is in flash state.

10. Double Press the power button to exit the Bluetooth mode.

Charging instructions

1. This product is DC charging, DC5V 1A, charging line general Android line.
2. Charging indicator: the red light flashes during the charging process, and goes out when the charging is saturated.
3. When charging outside, the current is as high as DC5V 2.4a, the red light is on for a long time, and the red light is off when charging is saturated.
4. Built in over charge and over discharge protection, charging voltage DC5V.
2. The new battery or the battery without charging for a long time may not reach the rated capacity, so it needs to be charged and played again

Safety warning

*If the speaker suddenly smokes or other abnormal phenomena occur during charging, please unplug the power plug quickly to avoid accidents, and contact the local dealer or call the after-sales service phone for maintenance.

*If the machine is exposed to rain or damp, please put the equipment in a ventilated place to cool and dry. Do not use high temperature to dry the equipment, otherwise it is easy to burn or damage the components of the equipment.

*Do not place the equipment in a hot high temperature source, such as fire, heater, etc.

*If the machine is not used for a long time, it should be placed in a cool and dry environment. Please unplug the charging power plug and charge every other month to avoid battery damage.

Packing list

Speaker * 1; User manual * 1; DC5V Android charging cable * 1

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
