Model: MGU21 APN
FCC ID: A269ZUA163
IC: 700B-UA163

Modification statement:

The party responsible for the compliance has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment.

Le responsable de l'homologation de ce produit n'approuve aucune modification apportée à l'appareil par l'utilisateur, quelle qu'en soit la nature. Tout changement ou modification peuvent annuler le droit d'utilisation de l'appareil par l'utilisateur.

FCC Class B digital device notice

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

EU statements

Hereby, Alpine Electronics GmbH declares that the radio equipment type MGU21 APN is in compliance with Directive 2014/53/EU.

The frequency bands in which the radio equipment operates and maximum output power is:

WLAN 802.11 b/g/n/a/ac:

- Frequency Range: 2.400-2483.5 MHz, 5.15-5.25 GHz and 5.725-5875 GHz
- Maximum RF Output Power (W): 20 dBm

Bluetooth EDR

- Frequency Range: 2402-2480 MHz
- Maximum RF Output Power (W): 10 dBm
