Owner's Manual

Thank you for choosing Alpine for your audio equipment needs. Our goal is to produce the best audio/video/navigation products in the world and hope your expectations are met.

Please take a moment to protect your purchase by registering your product now at the following address:
www.alpine-usa.com/registration. You will be informed of product and software updates (if applicable), special promotions, and news about Alpine.

We look forward to continue serving you in the future.

Sincerely,

The Alpine Team

Important Safety Information

WARNING

Please read this safety information before using your headphones. Failure to heed the following instructions can result in serious injury or death.

Lower the volume of your music player each time before using your headphones. Always use caution when adjusting headphone volume. Listening to headphones at a high volume can lead to hearing damage.

The decibel (dB) is a unit that measures the intensity of sound levels. Exposure to sound levels at or above 85dB may cause hearing loss over time. The risk of hearing loss depends on the sound level and the duration of the exposure to the sound. The higher the sound level, the less time you can be exposed to it. The lower the sound level, the longer you can listen to it. Normal conversation is between 40 dB to 60 dB. A rock concert is measured 110 dB, and can get up to 140 dB.

When wearing headphones, avoid dangerous or irresponsible behavior and actions that may cause an accident involving you or another person (drivers, motorcyclists, cyclists, or pedestrians), or that may cause other injury or damage to property.

Do not use headphones while driving a motor vehicle. Headphone use when driving can inhibit the driver's ability to hear emergency vehicles and other warnings, and may be a violation of local traffic laws. This can result in an accident causing serious injuries or death.

Keep the headphones, accessories and packaging material out of the reach of children to avoid harmful accidents and choking hazards.

Important Safety Information

WARNING

Battery Safety

Your headphones have a non-removable internal lithium-ion battery. Do not remove the battery, as this will void the Limited Warranty for your headphones.

Do not disassemble, modify, bend, crush, puncture, shred or deform the battery in any way. If mistreated, the battery might present a risk of fire, explosion or chemical burns. Exposure to excessive heat could cause the battery to catch fire and explode.

Do not subject the internal headphone battery to temperatures of 140°F/60°C or higher. Do not expose the battery to strong, direct sunlight for an extended period, or operate or keep the headphones or internal battery inside a vehicle during hot weather. Any of the above may make the battery overheat, burst, or catch fire.

Do not short circuit the battery. Avoid contact between the battery and any metallic or conductive objects.

Properly dispose of your headphones and the headphone internal battery. For disposal procedure, please check with your local recycling or hazardous waste authorities.

Compliance Statement

Products with CE marking comply with the R&TTE Directive (1999/5/EC), the EMC Directive (2004/108/EC), and the Low Voltage Directive (2006/95/EC) issued by the Commission of the European Community.

For the device which tests accordance to EN60950-1:2006+A11:2009+A1:2010+A12:2011, it is mandatory to perform audio tests for EN50332.

This device has been tested to comply with the Sound Pressure Level requirement laid down in the applicable EN 50332-1 and/or EN 50332-2 standards.

CAUTION: Permanent hearing loss may occur if earphone or headphones are used at high volume for prolonged periods of time.

Warning statement: To prevent possible hearing damage, do not listen at high volume levels for long periods.

WARNING

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

The WEEE logo (shown at left) on the product or on its box indicates that this product must not be disposed of or dumped with your household waste. You are responsible for disposing all your electronic or electrical waste equipment by bringing them, or making arrangements to bring them to a specified collection point for recycling of such hazardous waste.

Compliance Statement

Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to conserve natural resources. Moreover, proper recycling of electronic and electrical waste equipment at the time of disposal will ensure the safety of human health and the environment. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city hall, household waste disposal service, store where you purchased the equipment, or the manufacturer of the equipment.

RoHS Compliance

This product is in compliance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003, on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) and its amendments.

Declaration of Conformity

Alpine Electronics of America, Inc. 19145 Gramercy Place, Torrance, California 90501, U.S.A., declare under their sole responsibility that the product described in this users guide complies with the essential requirements and other relevant provisions of the R&TTE Directive (1999/5/EC), the EMC Directive (2004/108/EC), and the Low Voltage Directive (2006/95/EC) issued by the Commission of the European Community. A copy of the EU Declaration of Conformity is available online, <http://www.alpine-usa.com>.

Compliance Statement

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

Compliance Statement

- A. Reorient or relocate the receiving antenna.
- B. Increase the separation between the equipment and receiver.
- C. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- D. Consult the dealer or an experienced radio/TV technician for help.

IC

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
