SAFETY PRECAUTIONS

RCA
RCT6077W2

Equipment tested for compliance as a complete unit

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance (MLB International Inc., P.O. Box 1535, Buffalo, NY 14226, Tel: 516-236-4556) could void the user's authority to operate the equipment.

Caution: Use of controls or adjustments or performance of procedures other than those specified may result in hazardous radiation exposure.

Warning: The AC/DC adaptor is used as disconnect device.
The AC/DC adaptor of apparatus should not be obstructed OR should be easily accessed during intended used. To be completely disconnect the power input, the AC/DC adaptor of apparatus shall be disconnected from the mains.

For Your Safety
The AC power plug is polarized and only fits into AC power outlets one way. If the plug won't go into the outlet completely, turn the plug over and try to insert it the other way. If it still won't fit, contact a qualified electrician to change the outlet, or use a different one. Do not attempt to bypass this safety feature.

Service Information
This product should be serviced only by those specially trained in appropriate servicing techniques. For instructions on how to obtain service, refer to the warranty included in this guide.

IMPORTANT SAFETY INSTRUCTIONS

PLEASE READ AND SAVE THIS FOR FUTURE REFERENCE

Some of the following information may not apply to your particular product; however, as with any electronic product, precautions should be observed during handling and use.
- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- The AC power plug is polarized and only fits into AC power outlets one way. If the plug won't go into the outlet completely, turn the plug over and try to insert it the other way. If it still won't fit, contact a qualified electrician to change the outlet, or use a different one. Do not attempt to bypass this safety feature.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments / accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

ADDITIONAL SAFETY INFORMATION

- The AC/DC adaptor and apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Always leave sufficient space around the product for ventilation. Do not place product in or on a bed, rug, in a bookcase or cabinet that may prevent air flow through vent openings.
- Do not place lighted candles, cigarettes, cigars, etc. on the product.
- Connect power cord only to AC power source as marked on the product.
- Care should be taken so that objects do not fall into the product.
- Do not attempt to disassemble the cabinet. This product does not contain customer serviceable components.
- To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- Do not play your headset at high volume. Hearing experts warn against extended high-volume play.

Switch On/Unlock

Switch on and unlock: When the device is in the OFF mode, press and hold "POWER" key to enter the startup screen, then the screen is in locked mode. And press and pull the icon to the unlocked position(the icon appears), then the screen will unlock.

Power Save Mode/Lock Screen/Switch OFF

Press the "POWER" key shortly after starting up, the unit will enter power save and locked mode.
Switch OFF: When the device is in Home menu, press and hold the "POWER" key for about 2 seconds, and the screen will display the Power off interface, choose the "OK" to confirm, the system will shut down.

Note: When the device has low battery, it will alarm continuously and shut down automatically if the device is not being charged and the device cannot start up. Please check if the battery is low, and try it again after the battery is charged.

Battery Management and Charging

Charge the battery for about 4 hours to make sure the battery is fully charged before the first time of use.

Insert the micro port of the battery adapter into DC slot on the device, and connect the other side with the power socket. The desktop icon of the battery will keep rolling, which shows it is charging, please wait until the battery is fully charged, and do not disconnect the power while charging. Once the battery is fully charged, the fully charged icon ▮ on the desktop will apear. When the battery is exhausted completely, please charge at least one minute before starting up.

AC adaptor

To wall outlet

**Note:** In order to keep the battery working in best condition, please pay attention to the following:
• Please do not charge the battery in high temperatures.
• Do not wait for the batter to be fully depleted before charging again. Keep the battery charged as needed.
• The included AC adaptor is for use with this unit only. Do not use it with other equipment.
