Re: FCC ID: A3KM096
Applicant: Philips Electronics Industries (Taiwan) Ltd.
Correspondence Ref No: 13341
731 Confirmation Number: EA97177
Date of FCC E-Mail: 04/07/2000
Type Product (EUT): 14" LCD Monitor

Dear Diane Poole:

Please be advised, the subject monitor is provided with non-detachable shielded 15-Pin D-Sub connector signal cable with two external bonded ferrite cores and AC Adapter with one bonded ferrite core near its unshielded DC output cable jack. The test report and associated photographs show these two special cables were used during system tests. The other host peripheral devices were connected with typical shielded interface cables without any external ferrite cores.

I trust this answers your inquiry. If not, please advise.

Sincerely yours,

Richard Mullen
