Front View

Rear View

The image shows the back of a white Philips DVD player. On the left, there is a large rectangular ventilation grille with four screws. To its right is a smaller rectangular disc tray with a single screw. Further right, there are two ports labeled 'VCR' and 'PC AUDIO IN'. Below these, there are two more ports labeled 'AC IN' and 'DC OUT'. On the far right, there is a large rectangular label with various safety and technical information, including the Philips logo, model number, and a barcode. The entire unit is set against a dark blue background.
