Please review/correct the power number (0 Watts) entered on Form 731. The power listed on the grant should be the total transmit power, instead of the level within 50 MHz (or 8 MHz or 1 MHz) in compliance tests.

<answer> The total power is 0.0000035 watts (3.5 uw). However, FCC 731 form does not allow us to list 0.0000035 watts, so only 0 Watt showed in 731 form.

Please also enter comments, which become the grant notes/conditions; or you can leave it to the FCC.

<answer> we would like FCC to create the grant notes/conditions.

Thanks,

UL CCS
