## **AUTHORIZATION LETTER**

**FCC ID: A3LETYO324**

To whom it may concern:

Pursuant to KDB 784748 D01, Samsung Electronics Co., Ltd. hereby declares to justify as follows:

The label or statement shall be etched, engraved, stamped, indelibly printed, or permanently affixed to a permanently attached part of the equipment, and be visible at the time of purchase on the exterior of the equipment enclosure.

As an option to placing the FCC label on the exterior of the device, the FCC label may be placed in a user accessible area if the following conditions are met:

- a. The device is handheld (notebook computers are considered as handheld);  
[Samsung] This device is handheld used.
- b. The FCC identifier is visible at the time of purchase. Marketing the device without the battery installed when the label is in the battery compartment is acceptable. The FCC ID on the box, or additional documentation directing the user where to find the FCC label, also satisfies this requirement;  
[Samsung] Product label with FCC ID is affixed on the battery compartment and battery will not be installed when placing to the market. FCC ID will be visible at the time of installing the battery by the user.
- c. The user accessible area must not require any special tools for access, and the FCC label must not be placed on a removable part;  
[Samsung] No special tool is needed for accessing the battery compartment and the label location is not removable.
- d. The FCC ID, Model Number, or FCC logo must be on the label and must meet all general labelling requirements or policies that apply for Certification, Verification or DoC.  
[Samsung] Confirmed.

This justification is valid until further written notice from the applicant.

Sincerely Yours,

---
