Office of Engineering and Technology

Inquiry:

Rule Parts Applicable: Part 22/24, Part 15

Description of Device: Phone

Guidance for: Approval of SAR configurations to be tested with HSPA device. See attached conducted power table for HSPA. KDB 941225 will be followed.

Equipment Classes: PCE, DSS, DTS, JBP

Response:

The conducted output power measurements confirm implementation of maximum power reduction (MPR) and SAR exclusion for HSPA in this device and the PBA is approved. The TCB may proceed with Form 731 finalization for the HSPA portion of this device.

Following PBA procedure 3) c) ii), this KDB inquiry number should be entered on the Equipment Specs, Page 1, section of the Form 731. After Form 731 finalization, respond to this KDB with the TCB application confirmation number (TC) and FCC ID for final FCC review. The TCB may not grant the application until after final FCC approval is given.
