Subject: Re: Follow-up Questions Regarding FCC ID: A3LGTS8500 2-1-10

Dear PCTEST TCB,

We confirm that GT-S8500 is incapable of being upgraded by the user to enable VoIP operation.

Please find revised EMC report.

We'd appreciate it if you would issue Grant today.

Best Regards,
Ducksu Kim.

Title : Follow-up Questions Regarding FCC ID: A3LGTS8500 2-1-10

Dear Mr. Kim,

Thank you for your email response.

1. Regarding your response to question #1, please confirm that the EUT is incapable of being upgraded by the user to enable VoIP operation (despite the capability listed in the WLAN operational description).
2. Regarding your response to question #3, on p.3 of the revised PCE EMC report, the max power level listed for PCS EDGE in dBm now matches the measured data, however, the value listed in mW is still incorrect (27.95 dBm = 0.624 W). Please revise.

If you have any questions, please do not hesitate to contact us. Thank you.

2/2/2010

Sincerely,
PCTEST TCB

Title : Questions Regarding FCC ID: A3LGTS8500

To: Mr. Geoffrey Ham / Samsung Electronics Co., Ltd.

From: Mr. Gregory Czumak / PCTEST TCB

RE: FCC ID: A3LGTS8500

Applicant: Samsung Electronics Co., Ltd.

Correspondence Reference Number: A3L10067
Confirmation Number: 1Y1001180067-70
Date of Original Email: January 29, 2010

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The WLAN Operational Description lists wideband speech support (p.19/68). If the EUT is capable of supporting VoIP operation, or if it is capable of being upgraded by the user to support VoIP operation, then the DTS should be tested for SAR in held-to-ear configurations. Please address.

=> This model does not support VoIP operation .

2. Please submit a statement verifying that the FCC ID label will be readily visible at the time of purchase.

=> Please find attache label letter.

3. On p.3/69 of the PCE EMC report, the max power level listed for PCS EDGE does not match the data on p.16. Please revise..

=> This mismatch is caused typo. Please find revised EMC report.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
