

Network setup

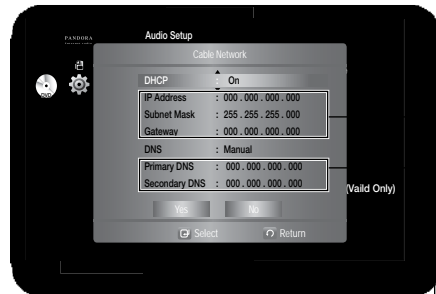

SETTING UP THE NETWORK SETUP OPTIONS

6. Press the ▲▼ buttons to select a desired item, then press the **ENTER** button.
- If DHCP is set to **Off** and, DNS to Manual, enter your IP Address, Subnet Mask, Gateway and Primary DNS settings (Secondary DNS is optional).

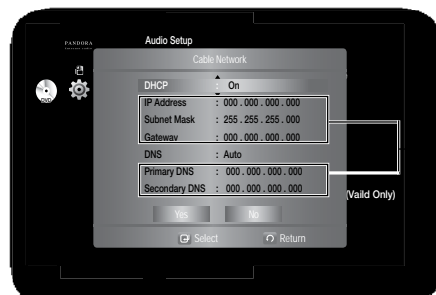

Setup available

- If DHCP is set to **On** and, DNS to Manual, enter your Primary DNS setting (Secondary DNS is optional).

Setup not available

- If DHCP is set to **On** and, DNS to Auto, you don't need further or additional settings.

Setup not available

- When you select an item, use the number and ▲▼◀▶ buttons.
- If the automatic settings don't work, contact your ISP.

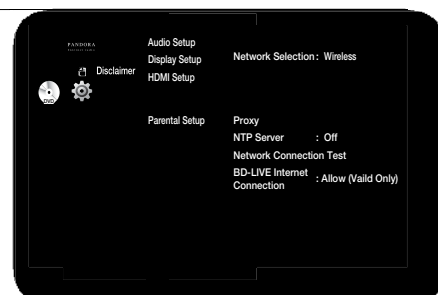

7. When done, use the ▲▼ buttons to select **Save**, then press the **ENTER** button.
8. If you don't want to save your work, use the ▲▼◀▶ buttons to select **Cancel**, then press the **ENTER** button.

- The IP address used in this manual is for illustrative purposes only. You must refer to your network settings for the actual IP address.
- To obtain settings for IP address, Subnet mask, Gateway and Primary DNS, check the network settings in your computer or contact your internet service provider.

Wireless Network

To setup, follow steps 1~3 on page 47.

4. Press the ▲▼ buttons to select **Wireless Network**, then press the **ENTER** or ▶ button.

5. Press the ▲▼ buttons to select **DHCP**, then press the **ENTER** button.

- If DHCP is set to **On**, you can't select IP Address, Subnet Mask or Gateway.
- If DNS is set to **Auto**, you can't select Primary/Secondary DNS.

6. Press the ▲▼ buttons to select a desired item, then press the **ENTER** button.

- Select an Access Point, and then press the **ENTER** button to display available list of APs. (It may take several seconds to search.)

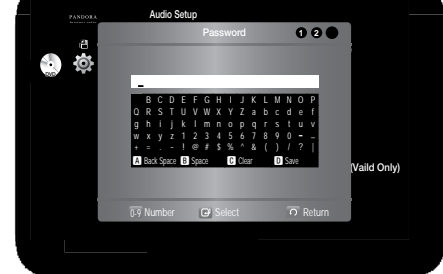

- When you select an AP and press the **ENTER** button, it tries to connect to the designated AP.
- If successful, a notification appears. (If selected AP shows a Lock icon, you may need to provide security authentication.)

- Select your appropriate Security Access Point if it is known. If it is not, select WEP, WPAPSK or WPA2PSK from the list below and enter in the password. Keep trying each Security Access Point and enter the Password until a connection is made.

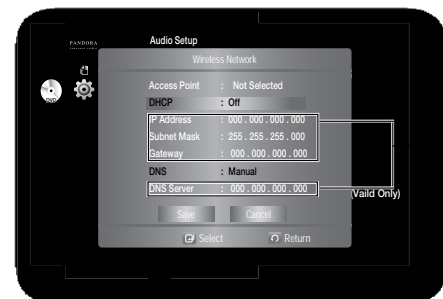

- Enter in the Password then press the **BLUE (D)** button to connect to your access point (Router).

For further details on AP security, refer to the AP's (Router) user manual.

- If DHCP is set to **Off** and, DNS to Manual, enter your IP Address, Subnet Mask, Gateway and DNS Server.

Network setup

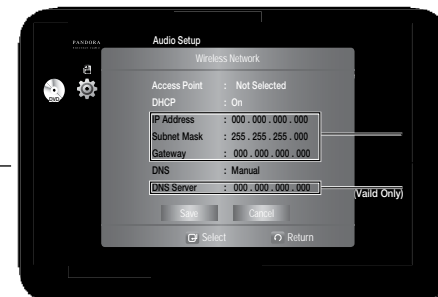

SETTING UP THE NETWORK SETUP OPTIONS

- If DHCP is set to **On** and, DNS to Manual, enter your DNS Server.

Setup available
Setup not available

- If DHCP is set to **On** and, DNS to Auto, you don't need further or additional settings.

Setup available

- When you select an item, use the number and ▲▼◀▶ buttons.
- If the automatic settings don't work, contact your ISP.

7. When done, use the ▲▼ buttons to select **Save**, then press the **ENTER** button.
8. If you don't want to save your work, use the ▲▼◀▶ buttons to select **Cancel**, then press the **ENTER** button.

- The IP address used in this manual is for illustrative purposes only. You must refer to the your network settings for the actual IP address.
- To obtain settings for IP address, Subnet mask, Gateway and DNS Server, check the network settings in your computer or contact your internet service provider.

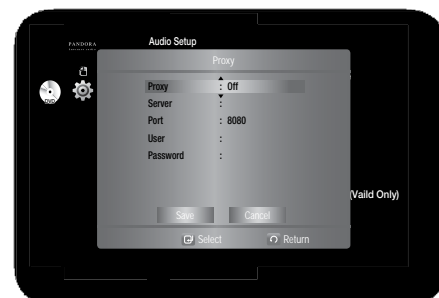

Proxy Setting

A proxy server services requests by forwarding them to other servers.

If you are required to configure the proxy setting, enter the settings specified by the ISP.

To setup, follow steps 1~3 on page 47.

4. Press the ▲▼ buttons to select **Proxy**, then press the **ENTER** or ▶ button.
 - **Server**
 - **Port**
 - **User**
 - **Password**

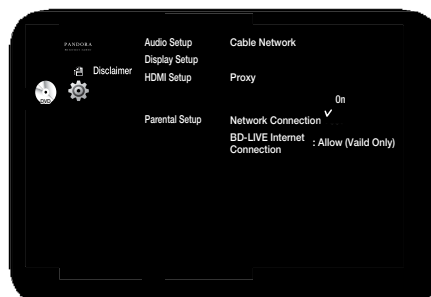

- For more information, contact your ISP (Internet Service Provider).

NTP Server (Used to Retrieve Time Information from NTP Server)

To setup, follow steps 1~3 on page 47.

4. Press the ▲▼ buttons to select **NTP Server**, then press the **ENTER** or ► button.

- **On** : the player automatically connects to the Internet server in order to adjust the time setting.
- **Off** : the player does not connect to the Internet server to adjust the time setting.

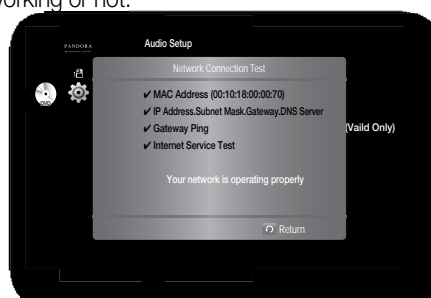

Network Connection Test

Use this menu to check whether your network connection is working or not.

To setup, follow steps 1~3 on page 47.

4. Press the ▲▼ buttons to select **Network Connection Test**, then press the **ENTER** or ► button.

BD-LIVE Internet Connection

The Blu-ray Home Theater supports BD-LIVE which enables you to enjoy a variety of interactive service contents provided by the disc manufacturer through a network connection. To enjoy this feature, you must first perform the LAN connection (see page 28) or Wireless Lan adapter connection to the USB slot.

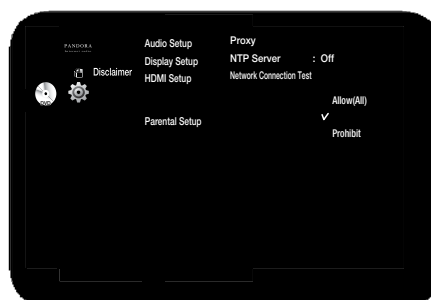

* You must have a minimum 1 GB USB Memory device inserted in one of the USB slots in order to download content from BD-LIVE.

The Internet connection may be restricted while you are using BD-LIVE contents.

To setup, follow steps 1~3 on page 47.

4. Press the ▲▼ buttons to select **BD-LIVE Internet Connection**, then press the **ENTER** or ► button.

- **Allow (All)** : The Internet connection will be allowed for all BD-LIVE contents.
- **Allow (Valid Only)** : The Internet connection will be allowed only for BD-LIVE contents containing a valid certificate.
- **Prohibit** : No Internet connection will be allowed for any BD-LIVE content.

- **What is a valid certificate?** When the Blu-ray Home Theater uses BD-LIVE to send the disc data and request to the server to certify the disc, the server uses the transferred data to check if the disc is valid and sends the certificate back to the player.
- The Internet connection may be restricted while you are using BD-LIVE contents.

BD data management

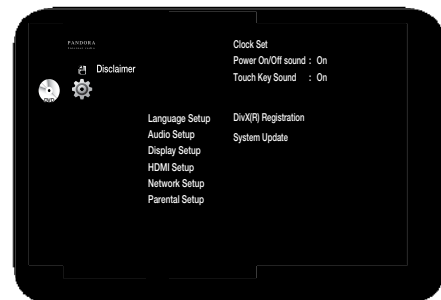

BD Data (stored in external USB flash memory) is Blu-ray Disc content such as trailers and other special features downloaded from the BD-LIVE service or Blu-ray Discs.

* You must have a minimum 1GB USB Memory device inserted in one of the USB slots in order to download content from BD-LIVE.

SYSTEM DEVICE MANAGEMENT

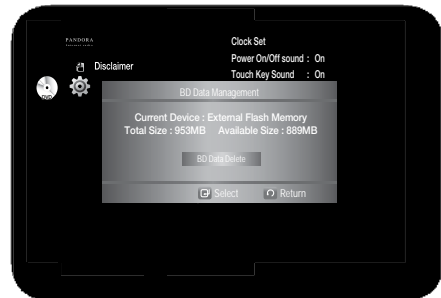

You can manage user data stored in BD data.

1. With the unit in Stop mode, press the **MENU** button.
2. Press the **▲▼** buttons to select **Setup**, then press the **ENTER** or **▶** button.
3. Press the **▲▼** buttons to select **System Setup**, then press the **ENTER** or **▶** button.
4. Press the **▲▼** buttons to select **BD Data Management**, then press the **ENTER** or **▶** button.

- To delete the flash memory -

1. Press the **ENTER** button to select BD Data Delete. The message "All BD data will be deleted. Do you want to continue?" will be displayed.
2. Press the **_ +** button to select Yes, then press the **ENTER** button.

Description of Device(Storage) Information on the Player

- Total Size : Total size of the Device(Storage).
- Available Size : Available size of the Device(Storage).

- Memory size information on the current device(storage) is located to the right of the BD Data Management menu.
- In the external memory mode, disc playback will be stopped if you disconnect the USB device in the middle of the playback.
- We recommend using an USB device that supports USB 2.0 protocols, FAT32 format and 4MB or more read /write speed.
- The Resume Play function may not work after formatting the storage device.

System upgrade

Samsung may offer upgrades to your Blu-ray Home Theater's firmware in the future. To upgrade this firmware you must :

1. Go to samsung.com and refer to the 'SUPPORT' page to download the latest firmware.
You can use a CD-R or a USB flash drive to perform the firmware upgrade. For more information, see "Upgrade Manual" at the website mentioned above.
or
2. Connect the network (see pages 28~29) and follow the steps below.

FIRMWARE UPGRADE

1. With the unit in Stop mode/No Disc mode, press the **MENU** button.
2. Press the **▲▼** buttons to select **Setup**, then press the **ENTER** or **▶** button.
3. Press the **▲▼** buttons to select **System Setup**, then press the **ENTER** or **▶** button.
4. Press the **▲▼** buttons to select **System Update**, then press the **ENTER** or **▶** button.
5. The player will check the cable or network connection status automatically. The connection checking window will be displayed.

■ If the upgrade is possible : You will see information on the current and new versions of firmware in a message box.

■ If the upgrade is not possible : You will see the following description in the message box.

- If the cable is not connected :
"Ethernet cable is not connected. Please, check the Ethernet cable"
- If the network connection has failed :
"This system can not connect to internet for update. Please, check the network setup"
- If no latest version is released (the latest version has been already installed) :
"The latest version of the firmware is already installed. There is no need to update."
- If there is a disc in the player :
"Please maintain "No Disc" state for network update."
This indicates that you must remove all discs from the unit to perform the update.
- If the server service is not available :
" Update Server is under maintenance. Please try again later."

System upgrade

FIRMWARE UPGRADE

6. To perform the system upgrade, press the ◀ ▶ buttons to select **Start** and then press the **ENTER** button.

7. The system update gets started.

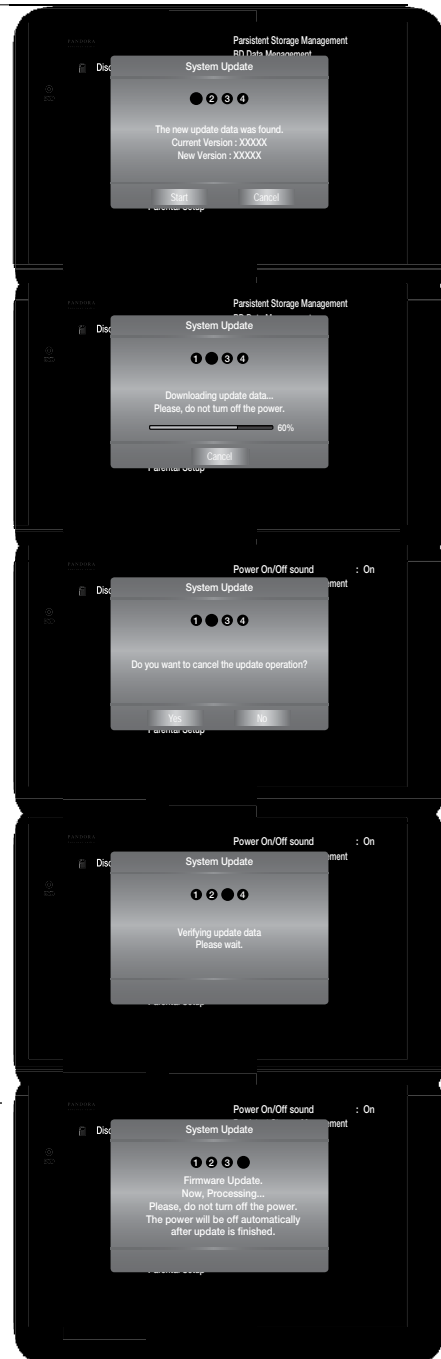

8. If you select **Cancel** during the download process, you are prompted to confirm your selection in a message box. If you want to cancel the download, select **Yes** and press the **ENTER** button.

9. Verification will proceed. When download is done, the firmware update process will begin automatically.

10. When the installation is done, the player will automatically turn off in 5 seconds. All settings will revert to the factory settings. The next time you start the system and you will see the menu language selection window.

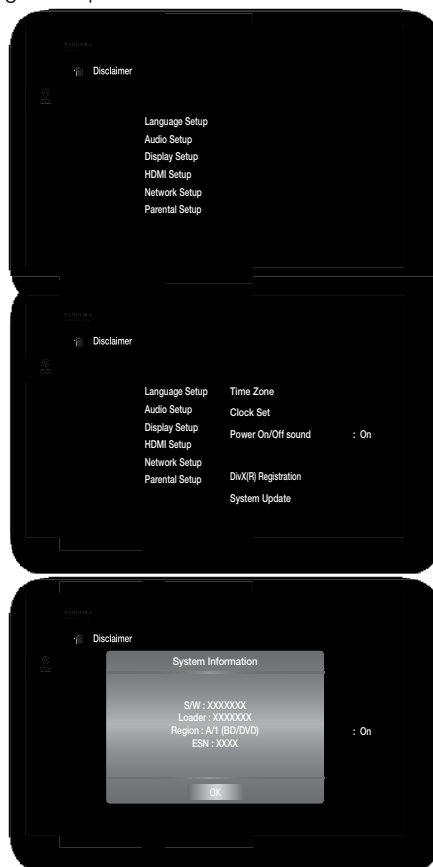

- If you want to cancel the upgrade in the process of downloading the upgrade data, press the **ENTER** button. You will see a confirmation message. Selecting **Yes** will end the upgrade process, and selecting **No** will continue the upgrade process.
- When the system upgrade is done, check the firmware details in the System Upgrade menu.
- Do not turn off the player during the System Upgrade, as it may cause the player to not work properly.
- You may use a USB Flash Drive to do software upgrades using the USB Host jack. Other USB devices (ex. MP3 player) are not guaranteed to work.
- There should be only one firmware upgrade file in USB flash drive for the player to properly perform an upgrade.
- Oversized USB drives may not be able to be inserted when a LAN or HDMI cable is connected.

SYSTEM INFORMATION

When the firmware upgrade is done, check the firmware details by following the steps below.

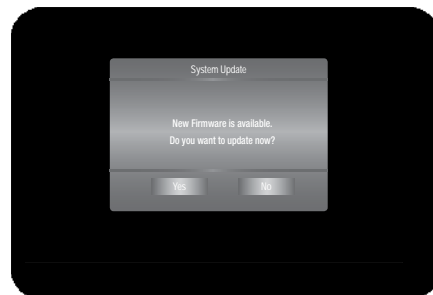

1. With the unit in Stop mode/No Disc mode, press the **MENU** button.
2. Press the **▲▼** buttons to select **Setup**, then press the **ENTER** or **▶** button.
3. Press the **▲▼** buttons to select **System Setup**, then press the **ENTER** or **▶** button.
4. Press the **▲▼** buttons to select **System Information**, then press the **ENTER** or **▶** button.
You can see detailed information about the current firmware.
5. Press the **ENTER** button to select **OK**.
System Setup menu will be displayed.

FIRMWARE UPDATE NOTIFICATION

The popup menu appears when a newer version of the firmware is available from SAMSUNG update server than that of the Blu-ray Home Theater, if the Blu-ray Home Theater is connected to network and powered on.

- **Yes** : Select this to upgrade now.
- **No** : Select this if you plan to upgrade later.

DVIX (R) REGISTRATION

Please use the Registration code to register this Home Theater System with the DivX(R) Video On Demand format. For more information, visit www.divx.com/vod

Watching a movie

USING THE DISPLAY FUNCTION

1. During playback, press the **INFO** button on the remote control.
 - If the Blu-ray Disc has the BONUSVIEW feature, press the **INFO** button in the BONUSVIEW section to display BONUSVIEW-related information.
2. Press the **▲▼** buttons to select the desired item.
3. Press the **◀▶** buttons to make the desired setup change and then press the **ENTER** button.
 - You may use the number buttons of the remote control to directly access a title, chapter or to start the playback from a desired time.
4. To make the screen disappear, press the **INFO** button again.

<INFO menu for the BONUSVIEW section>

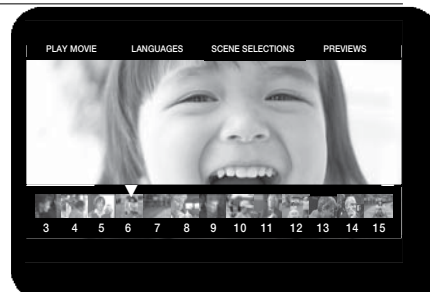

- If you are playing contents from the info menu, some functions may not be enabled depending on the disc.
- Title : To access the desired title when there is more than one in the disc. For example, if there is more than one movie on a Blu-ray Disc/DVD, each movie will be identified as a Title.
- Chapter: Most Blu-ray Disc/DVD discs are recorded in chapters so that you can quickly find a specific chapter.
- Audio : Refers to the film's soundtrack language. A Blu-ray Disc can contain up to 32 audio languages and a DVD up to 8.
- Playing Time : Allows playback of the film from a desired time. You must enter the starting time as a reference. The time search function does not operate on some discs.
- Subtitle : Refers to the subtitle languages available in the disc. You will be able to choose the subtitle languages or, if you prefer, turn them off from the screen. A Blu-ray Disc can contain up to 255 subtitle languages, and a DVD up to 32.
- Angle : When a Blu-ray Disc/DVD contains multiple angles of a particular scene, you can use the ANGLE function.
- BONUSVIEW Video/ BONUSVIEW Audio : You can make BONUSVIEW Video or BONUSVIEW Audio settings if the current title of a Blu-ray Disc appears in the BONUSVIEW section. The BONUSVIEW Video / BONUSVIEW Audio options, however, will be disabled with a Blu-ray Disc that does not support the BONUSVIEW feature.

USING THE DISC MENU & POPUP/TITLE MENU

Using the Disc Menu

1. During playback, press the **DISC MENU** button on the remote control.
2. Press the **▲▼◀▶** buttons to make the desired selection, then press the **▶** or **ENTER** button.
 - The Disc menu setup items may vary from disc to disc.

-  ■ Depending on the disc, the Disc Menu may not be available.

Using the Title Menu

1. During playback, press the **TITLE MENU** button on the remote control.
2. Press the **▲▼◀▶** buttons to make the desired selection, then press the **ENTER** button.
 - The Title menu setup options may vary from disc to disc.

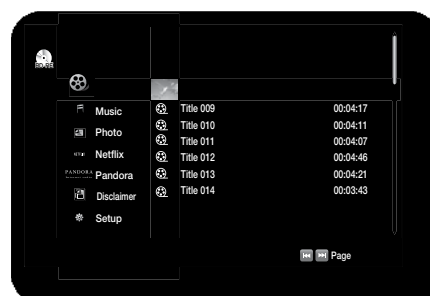

-  ■ Depending on the disc, the Title Menu may not be available.
- Title Menu will only be displayed if there are at least two titles on the disc.

Playing the Title List

1. With the unit in Stop mode/Playback mode, press the **DISC MENU** or **TITLE MENU** button.
2. Press the **▲▼** buttons to select an entry you want to play from Title List, then press the **▶** or **ENTER** button. The selected entry (title) will be played back.

- **Go to Playlist** -
To go to the Playlist, press the **RED(A)** button.

Using the Popup Menu

1. During playback, press the **POPUP MENU** button on the remote control.
2. Press the **▲▼◀▶** buttons or **ENTER** button to select the desired menu.
 - The Popup menu setup options may vary from disc to disc.

-  ■ Depending on the disc, the Popup Menu may not be available.

Watching a movie

REPEAT PLAY

Repeat the current chapter or title.

Repeat playback

1. During playback, press the **REPEAT** button on the remote control. Repeat screen appears.
2. Press the **▲▼** buttons to select **Chapter** or **Title**.
 - Blu-ray Disc/DVD repeats play by chapter or title.
3. To return to normal play, press the **REPEAT** button again, then press the **▲▼** buttons to select **Off**.

-  ■ Depending on the disc, the Repeat function may not be available.

Using the A-B Repeat function

1. Press the **REPEAT A-B** button on the remote control during playback.
2. Press the **REPEAT A-B** button at the point where you want repeat play to start (A).
3. Press the **REPEAT A-B** button at the point where you want repeat play to stop (B).
4. To return to normal play, press the **CANCEL** button.

-  ■ Point B cannot be set until 5 seconds of playback has elapsed from point A. Point B cannot be set until 5 seconds of playback has elapsed from point A.

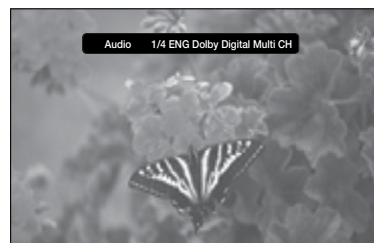

SELECTING THE AUDIO LANGUAGE

You can select a desired audio language quickly and easily with the **AUDIO** button.

Using the AUDIO button

1. Press the **AUDIO** button during playback. The Audio changes when the button is pressed repeatedly.
 - The audio languages are represented by abbreviations.
2. To remove the **Audio** bar, press the **CANCEL** or **RETURN** button.

Using the INFO button

1. During playback, press the INFO button on the remote control.
2. Press the ▲▼ buttons to select Audio language.
3. Press the ◀▶ buttons on the remote control to select the desired audio language.

- This function depends on what audio languages are encoded on the disc and may not be available.
- A Blu-ray Disc can contain up to 32 audio languages and a DVD up to 8.
- Depending on the disc type, you can use the **AUDIO** button to change the audio soundtrack as well as the audio language. Some Blu-ray Discs may allow you to select either the multi-channel LPCM or Dolby digital audio soundtrack in English.
- Information about the primary / secondary mode will be also displayed if the Blu-ray Disc has a BONUSVIEW section. Use the ◀▶ button to switch between primary and secondary audio modes.
- The ◀▶ indicator will not be displayed on the screen if the BONUSVIEW section does not contain any BONUSVIEW audio settings.

SELECTING THE SUBTITLE LANGUAGE

You can select a desired subtitle quickly and easily with the **SUBTITLE** button.

Using the SUBTITLE button

1. Press the **SUBTITLE** button. The subtitle changes when the button is pressed repeatedly. The subtitle languages are represented by abbreviations.
2. To remove the **Subtitle** bar, press the **CANCEL** or **RETURN** button.

Watching a movie

SELECTING THE SUBTITLE LANGUAGE

Using the INFO button

1. During playback, press the INFO button on the remote control.
2. Press the ▲▼ buttons to select Subtitle.
3. Press the ◀▶ buttons on the remote control to select the desired subtitle language.

- Depending on the Blu-ray Disc / DVD, you may be able to change the desired subtitle in the Disc Menu. Press the **DISC MENU** button.
- This function depends on what subtitles are encoded on the disc and may not be available on all Blu-ray Discs/DVDs.
- A Blu-ray Disc can contain up to 255 subtitle languages and a DVD up to 32.
- Information about the primary / secondary mode will be also displayed if the Blu-ray Disc has a BONUSVIEW section.
- This function changes both the primary and secondary subtitles at the same time.
- The total number of subtitles is the sum of the primary and secondary ones.

CHANGING THE CAMERA ANGLE

When a Blu-ray Disc/DVD contains multiple angles of a particular scene, you can use the ANGLE function.

Using the ANGLE function

1. During playback, press the **INFO** button on the remote control.
2. Press the ▲▼ buttons to select **Angle**.
3. Press the ◀▶ buttons or you can use the number buttons on the remote control to select the desired angle.

- If the disc has only one angle, this feature won't work. Currently, very few discs have this feature.
- Depending on the disc, these functions may not work.

BONUSVIEW SETTINGS

The Bonusview feature allows you to view additional content (such as commentaries) in a small screen window while the movie is playing.

Using the BONUSVIEW button

1. If the current Blu-ray Disc features the BONUSVIEW function, you can use the BONUSVIEW button to turn **BONUSVIEW** On or Off.
2. Each time you press the **BONUSVIEW** button, you can toggle between BONUSVIEW On and BONUSVIEW Off.

- You can change detailed settings of the BONUSVIEW feature in the INFO menu (see page 56: selection of secondary audio, video stream and subtitle etc.).
- If you switch from BONUSVIEW Video, BONUSVIEW Audio will change automatically in accordance with BONUSVIEW Video.
- If the Blu-ray Disc supports only BONUSVIEW Audio, you can just press the BONUSVIEW button to turn the secondary audio on or off.

BD-LIVE™

The Blu-ray Home Theater supports BD-LIVE which enables you to enjoy a variety of interactive service contents provided by the disc manufacturer through network connection.

Using the BD-LIVE Disc

1. Connect the network (see pages 28~29) and check the network setup (see pages 47~51).
2. Insert a Blu-ray disc that supports BD-LIVE.
3. Select the contents provided by the disc manufacturer to enjoy the BD-LIVE.

- The way you use BD-LIVE and the features may differ, depending on the disc.
- To use BD-LIVE, you must insert a minimum 1GB USB memory device into one of the USB slots.

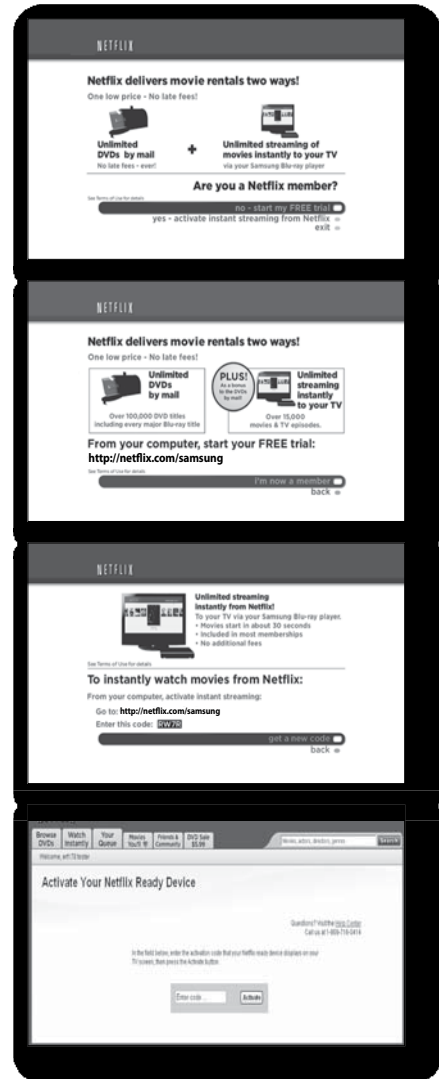

Watching a movie

USING THE INSTANT STREAMING FEATURE PROVIDED BY NETFLIX

This Blu-ray Home Theater supports the Netflix streaming service which enables you to enjoy various movies via network connection. Before enjoying this feature, you must perform the LAN connection (see page 28).

1. With the unit in Stop mode/No Disc mode, press the **MENU** button.
2. Press the **▲▼** buttons to select **Netflix**, then press the **ENTER** or **▶** button.
3. If you don't have an account, select "no-start my FREE trial" and subscribe to <http://netflix.com/samsung> from your computer. A user with existing account can select the "yes-activate instant streaming from Netflix".

4. If you have an existing account, you will see the next window if **Yes** was selected. Select "I'm now a member".

- You can also start Netflix streaming by pressing the **RED(A)** button on your remote control while the Samsung logo screen is displayed.
- Video quality of the Netflix contents (SD or HD) depends on the network speed and the original bit rate of the Netflix contents
- When you use the Netflix streaming service with this Blu-ray Home Theater, refer to the LAN connection. (See pages 28~29)
- In order to activate your Blu-ray Home Theater with Netflix with the code provided, you will need an active LAN connection to both a PC and your player. To connect the network with Blu-ray Home Theater, refer to the pages 28~29.

5. To add a movie to the Instant Queue list of this Blu-ray Home Theater, select the "Add to Instant" button on the Netflix "Watch Instantly" web page using your PC.

6. Movies you added to the Instant Queue from the web are listed.

Press the **ENTER** button of the remote control and select a movie to display the next screen.

- To add the movie in Instant Queue list of this Blu-ray Home Theater, you can select "Add to Instant" button on "Watch Instantly" page of Netflix web site using your PC.

7. Press the **PLAY** button to start the playback, and the initial buffering of the streamed data is shown.

8. Press the **SCAN** button to select a scene of your choice.

- To stop the movie or go to the instant movie list, press the upper arrow or Stop button.

- For more information on the Netflix Instant Streaming feature visit <http://www.netflix.com/help/tv> or login to your Netflix account and click "Help" at the top of the page.

DIVX PLAYBACK

The functions discussed on this page apply to DivX disc playback only.

Skip Forward/Back

During playback, press the **◀▶** button.

- Goes to the next file whenever you press the **▶▶** button, if there are over 2 files on the disc.
- Goes to the previous file whenever you press the **◀◀** button, if there are over 2 files on the disc.

Fast Playback

During playback, press the **◀▶** button.

To play back the disc at a faster speed, press the **◀◀** or **▶▶** button during playback.

- Each time you press either button, the playback speed will change as follows:
2x → 4x → 8x → 2x.

Audio Display

Press the **AUDIO** button.

- If there are multiple audio languages on a disc, you can toggle between them.
- Each time you press the button, your selection will toggle between **AUDIO (1/N, 2/N ...)**.

Subtitle Display

Press the **SUBTITLE** button.

- Each time you press the button, your selection will toggle between **SUBTITLE (1/N, 2/N ...)** and **SUBTITLE OFF**.
- If the disc has only one subtitle file, it will be played automatically.
- See number 2 (Caption Function) below for more details concerning Subtitle usage with DivX discs.

Listening to music

BUTTONS ON THE REMOTE CONTROL USED FOR AUDIO CD (CD-DA)/ MP3 DISC PLAYBACK

1. PAUSE button : Pauses playback.
2. SKIP (▶▶) button : During playback, moves to the next page in the Music List or moves to the next track in the Playlist.
3. PLAY button : Plays the currently selected track.
4. ▲▼ buttons : Selects a track(song) in the Music List or Playlist.
5. COLOR buttons
 - RED(A) button : Selects the Play Mode(Repeat) during playback.
 - GREEN(B) button : Go to Playlist from Music List.
 - YELLOW(C) button : Playlist play.
6. ◀▶ buttons
 - ◀ : Plays the applicable track, according to the current position.
 - ▶ : Moves to the menu.
7. ENTER button : Plays the selected track (song).
8. STOP button : Stops a track(song).
9. Press the SEARCH (◀▶) buttons : Fast Play.
10. SKIP (◀◀) button : If you pressed this button after three seconds of playback, the current track will be replayed from the beginning. But, if you pressed this button within three seconds after playback starts, the previous track will be played.
Used to move to the previous page in the Music List or Playlist.

REPEAT AUDIO CD(CD-DA) & MP3

During playback, press the REPEAT or RED(A) button repeatedly to select the repeat mode you want.

When playing an Audio CD(CD-DA) : ◀▶ → ◀◀ → ▶▶ → ◀▶

When playing an MP3 disc : ◀▶ → ◀◀ → ▶▶ → ◀▶

- ◀▶ Normal (Audio CD(CD-DA)/MP3): Tracks on a disc are played in the order in which they were recorded on the disc.
- ◀◀ Repeat Track (Audio CD(CD-DA)/MP3)
- ▶▶ Repeat Folder (MP3)
- ◀▶ Random (Audio CD(CD-DA)/MP3)
 - When playing an Audio CD(CD-DA): The random option plays a disc's tracks in random order.
 - When playing an MP3 disc : The random option plays a folder's file in random order.
- ◀◀ Repeat All (Audio CD(CD-DA)): All tracks are repeated.

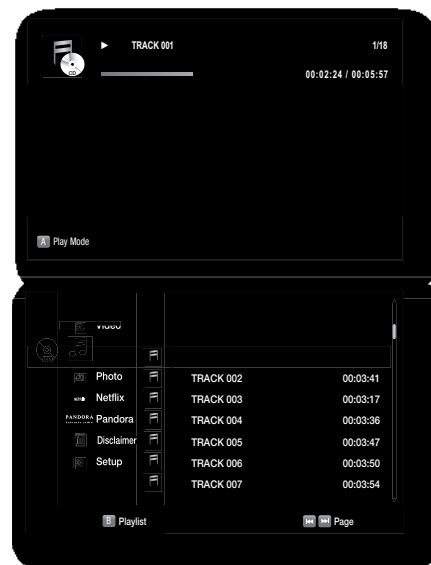

- To return to normal playback -

Press the REPEAT or RED(A) button repeatedly to return to normal playback.

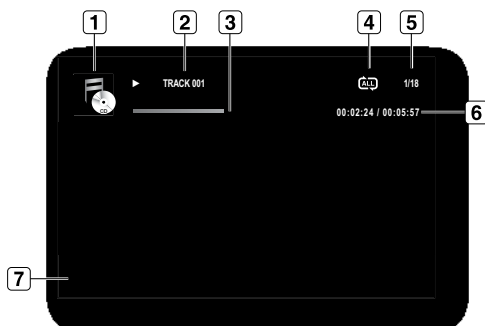

PLAYING AN AUDIO CD(CD-DA)/MP3

1. Insert an Audio CD(CD-DA) or an MP3 Disc into the disc tray.
 - For an Audio CD, the first track will be played automatically.
 - For an MP3 disc, press the ▲▼ buttons to select **Music**, then press the **ENTER** button. (You can listen to mp3 files using a USB storage device)
2. To move to the Music List, press the **STOP** or **RETURN** button. The Music List screen is displayed on your TV.
3. Press the ▲▼ buttons to select the track you want to play, then press the **ENTER** button.

❖ Audio CD(CD-DA)/MP3 Screen Elements

- | | |
|----------|--|
| 1 | Displays the media type. |
| 2 | Current track (song)
Displays the number of the track currently being played. |
| 3 | Play Status Bar. |
| 4 | Displays the repeat status. |
| 5 | Displays the current play index, total track number. |
| 6 | Current /Total Play Time. |
| 7 | Displays available COLOR buttons. |

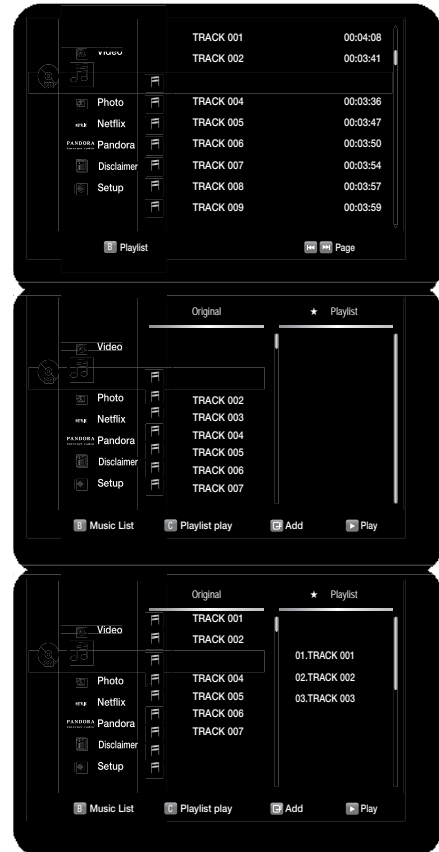

Listening to music

Playlist

You can create a playlist with up to 99 tracks.

1. Insert an Audio CD(CD-DA) or an MP3 Disc into the disc tray.
 - For an Audio CD, the first track will be played automatically.
 - For an MP3 disc, press the **▲▼** buttons to select **Music**, then press the **ENTER** button.
(You can listen to mp3 files using a USB storage device)
2. To move to the Music List, press the **GREEN(B)** or **RETURN** button.
The Music List screen is displayed.
3. Press the **GREEN(B)** button to go to the Playlist.
4. Press the **▲▼** buttons to select a track, then press the **ENTER** button to add it to the Playlist. Repeat this procedure to add additional tracks.
5. If there is an undesired track in the playlist, press the **▶▲▼** button to select that track, and then press the **ENTER** button.
 - The selected track will be deleted.
6. Press the **YELLOW(C)** button to play the selected tracks.
When the track is finished, the next track will automatically play.
7. To edit the Playlist, press the **STOP** or **RETURN** button.
8. To go to the Music List, press the **RETURN** button.

MP3 & JPEG Simultaneous playback

You can enjoy listening to MP3 files while you simultaneously view JPEG files.

1. When you play MP3 file, press the **BLUE(D)** button.
The slide show speed screen will be displayed.
2. Select the desired slide show speed.

- To operate this function, you have to select the folder containing both music and photo files.

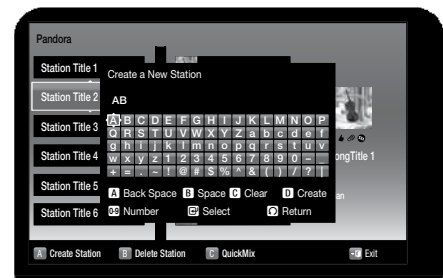

USING THE INTERNET RADIO FEATURE PROVIDED BY PANDORA

Pandora provides music personalized to your taste.

1. With the unit in Stop mode/No Disc mode, press the **MENU** button.
2. Press the **▲▼** buttons to select **Pandora**, then press the **ENTER** or **▶** button.
Pandora's initial screen appears.
3. To run Pandora, you need to input the activation code at <http://www.pandora.com/samsung> page with your PC. After inputting the activation code, you may have to create a new account if you don't have one yet. If you already have an account, you can use the existing account.
4. It automatically shows the list of stations created from the web or player, and plays music.
5. Press the **RED(A)** button while the highlight is on the station list to display the create station window.
6. Enter the keyword and press the **BLUE(D)** button to display the search result.
(The station keyword should be enter music genre, artist, music title, etc.)

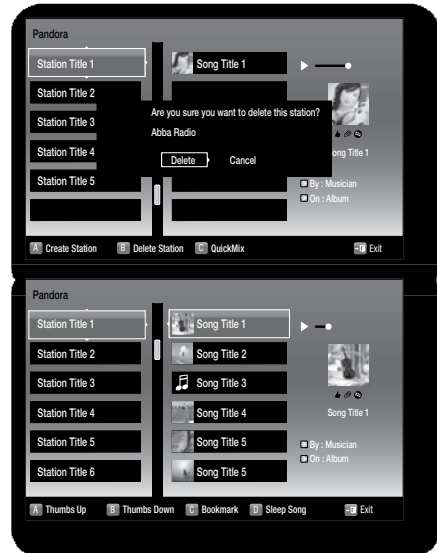

Station List

Listening to music

USING THE INTERNET RADIO FEATURE PROVIDED BY PANDORA

7. Press the **GREEN(B)** button while the highlight is on the station list to delete the selected station.

8. You can edit your song list by using color buttons of the remote control while the highlight is on the song list.

- **RED(A)** : Thumbs Up. By indicating your preference to the server, it plays more songs you love.
- **GREEN(B)** : Thumbs Down. By indicating your dislike to the server, it plays fewer songs you don't like.
- **YELLOW(C)** : Bookmark. It bookmarks the selected song.
 - Once bookmarked with this Blu-ray Home Theater, you can find those from www.pandora.com using your account and various additional services provided by Pandora web service using your PC.
- **BLUE(D)** : Sleep Song. It excludes the selected song from the station for a month.

-  The www.pandora.com server reflects the changes made on your player.
- In order to activate your Blu-ray Home Theater with Pandora music with the code provided, you will need an active LAN connection to both a PC and your player. To connect the network with Blu-ray Home Theater, refer to the pages 28~29.
 - For further information on Pandora service or to unsubscribe the Pandora service, email "samsung-support@pandora.com".

Viewing a picture

VIEWING A PICTURE

1. Insert a JPEG disc into the Disc Slot .
 - The Menu screen is displayed.

Sound mode

SOUND FIELD (DSP) MODE

DSP(Digital Signal Processor) : DSP modes have been designed to simulate different acoustic environments.

Press the **DSP** button.

- **DSP** appears on the display panel.
- Each time the button is pressed, the selection changes as follows :

HALL1 → HALL2 → JAZZ → CHURCH → ROCK → SFE OFF.

- HALL : Provides a clear vocal as if listening in a concert hall.
- JAZZ : Recommended setting for Jazz.
- ROCK : Recommended setting for Rock.
- CHURCH : Gives the feel of being in a grand church.
- SFE OFF : Select this for normal listening.
