Hi Helen,

Here are the replies to your questions regarding the above referenced application.

Question #1: Please resubmit external photos to show the top and bottom view of the EUT. The fourth picture in the filing is not in focus. This is for your information, it's better to show the 3D, instead of 2D of the device in future.

<CCS Answer:> Please see attached new External Photos exhibit.

Question #2: Please resubmit internal photos to show both sides of the WLAN module, with RF shielding removed.

<CCS Answer:> Please see attached internal photos.

Question #3: The EMC test report (page 26 & 35) indicates the max. antenna gain is 1.71dBi, which does not agree with antenna spec. Please explain.

<CCS Answer:> The EMC test report was incorrect. Please see attached revised report.

Kindest regards,
September

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
