Subject : A3LSCHN101

Gentlemen;

**Samsung Electronics Co., Ltd. will not use any necklace accessory on SCH-N101
And the necklace accessory will not be marketed in the U.S. for it either.
Should you have any questions or comments concerning the above, please feel
free to contact me at Tel) 408-544-5124 or Fax) 408-544-5191**

Sincerely yours,

**Wallace Oh (e-mail:wsoh@sea.samsung.com)
Engineering Manager
Samsung Electronics America**

FCC RF EXPOSURE INFORMATION

In August 1996 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards.

Use only the supplied or an approved antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations.

Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

Body-worn Operation

This device was tested for typical body-worn operations using a spacing of 1.7 cm between the phone and the body. To comply with FCC RF exposure requirements, a minimum separation distance of 1.7 cm must be maintained between the user's body and the phone, including the antenna, whether extended or retracted. The use of third-party belt-clips/ holsters with no metallic components that provide the minimum separation distance of 1.7 cm can be used to satisfy FCC RF exposure requirements. The use of non-tested accessories or other body-worn operations may not comply with FCC RF exposure requirements and should be avoided. Contact your local dealer for optional accessory items.

For more information about RF exposure, please visit the FCC web site at www.fcc.gov
