

FCC ID **A3LSGH-N625**

Statement

The Samsung SGH-625 is a dual band GSM phone for the 900/1900 MHz frequency range. This application is only related to the GSM 1900 band since the GSM band is not available in the US. However the phone fulfills the requirements for the GSM 900 band too.

The tested devices were prototype, which are identical to the production units.
