

FCC ID:	A3LSGHZX10
Applicant:	Samsung Electronics Co Ltd
Correspondence Reference Number:	24365 + 24406
731 Confirmation Number:	TC572789
Date of Original Email:	11/04/2005 + 11/07/2005

1) For WCDMA band edge test please turn off trace averaging and repeat the scan e.g. page 40 of 41.

The WCDMA Band edge was re-tested, and the plots are attached.

2) Test report states use of test codes but summary sheet shows use of base station simulator. Please clarify.

A base station simulator was used for all SAR testing.

3) Please document how the WCDMA information provided by the FCC was accounted for in this filing. Please fully address all aspects of the information document provided. Please answer in a separate document.

Response was submitted in a separate correspondence.

4) Please provide conducted power measurements for all operational modes and rates of the device.

Please find attached conducted power measurements.

5) Please repeat HAC with WCDMA modes. Please address WCDMA modes in a similar fashion as appropriate for SAR.

Both HAC and SAR measurements were taken with the EUT transmitting at maximum power in all cases.
