

Samsung Electronics Co., Ltd. 129,
Samsung-ro, Yeongtong-gu
Suwon-City, Gyeonggi-do,
16677, Korea

Date: June 16th, 2022

ELEMENT TCB/CB
Element Materials Technology Washington DC LLC.
7185 Oakland Mills Road Columbia, MD 21046 USA

To Whom it May Concern

Subject: **Samsung Electronics Co., Ltd.**
FCC ID: **A3LSMF936B**

We attest the following:

1. This device will only associate with a low power indoor AP for WIFI 6E operations. Hotspot Mode, ad-hoc and any other P2P service is disabled for WIFI 6E operations. This device will not connect directly to another client device using WIFI 6E frequencies.
2. This device will operate only under the control of an indoor access point, except for transmitting brief messages to an AP when attempting to join its network after detecting a signal that confirms that an access point is operating on a particular channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP, it will not continually repeat the request.
3. Transmissions will be lower or equal to the power advertised by the indoor low-power access point and never above the maximum output power allowed by the FCC grant.
4. This device is prohibited for control of or communications with unmanned aircraft systems, including drones.

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

Jenni Chun / General Manager
Samsung Electronics America, Inc.
