RE: Part 15 Subpart E U-NII 6GHz Attestation Letter

To whom it may concern:

We, SAMSUNG Electronics, attest that this device under FCC ID: A3LSMF956JPN complies with the device protocol requirements and operational restrictions : for Dual Client 6CD

**1. Device Protocol Attestation Statement:**

- a. This device will only associate and connect with a low-power indoor Access Point, subordinate device, or standard access point and never directly link to any other client devices.
- b. This device will always initiate transmission under the control of a low power indoor AP or subordinate or standard client except access point for brief communications before joining a network. These quick messages will only occur if the client has detected an indoor AP, subordinate, or standard access point operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
- c. This device, when associated and connected with a low-power indoor access point, subordinate or standard access point device, will operate at a power lower as advertised by the indoor access point, subordinate, or standard access point:
  - i. lower than or equal to the power advertised by the low-power indoor access point or subordinate and never above the maximum output power allowed by the FCC grant for clients associated with indoor clients or subordinates.
  - ii. At least 6 dB below the power advertised by the standard access point.

**2. Understanding of Statement acknowledging device restrictions:**

- a. Prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely,

Jenni Chun / General Manager
