RE: FCC ID: A3LSMJ530G

To Whom It May Concern:

Submitted herewith is a Class II Permissive Change for **FCC ID: A3LSMJ530G** for the purpose of reducing the 5 GHz WLAN output power while in the held-to-ear configuration via software.

The device has not changed from that submitted in the original filing. Therefore, no additional SAR tests were required as the device was evaluated at a higher output power during the original compliance evaluation. The SAR test report for the original grant contains a complete RF Exposure evaluation at the conservative power levels.

Should you have any questions or concerns, feel free to contact us.

Sincerely,

Sheng Shen
SAR Technical Manager
