To : Application Examiner / Reviewing Engineer  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046  
CC :  
Subject : Regarding Samsung Class 2

---

Applicant: SAMSUNG ELECTRONICS CO., LTD. FCC ID : A3LSMM-2LD0581902

Additional information : FD-LTE 10MHz Bandwidth

To Whom It May Concern,

I do REQUEST Class 2 permissive change since existing certification completed Product(A3LSMM-2LD0581902) supports additional bandwidth in FD-LTE Band.

There's no hardware-related change with it and it supports FD-LTE Band bandwidth by Firmware only.

The firmware update to add the new bandwidths can only be done by the factory.

If you have questions or need further information, please contact the undersigned.

Sincerely,

A handwritten signature in red ink, appearing to read "Ryu Hwan Chul".

Ryu Hwan Chul
