# Features

---

Bixby responds to your voice commands and can help you understand your settings and set up your Samsung device. Bixby also integrates with SmartThings to help control your smart devices when you are at home or away. For more information, see **Bixby** on page 45.

## FPO Auto workout tracking and run coaching

Automatically track your exercises. Get real-time coaching on your run.

## FPO Heart health monitoring

Make your workouts more efficient by configuring your target heart rate zone. Monitor your heart rate continuously throughout the day.

## FPO Sleep and stress management

Achieve a better night's rest with built-in sleep tracking. A sleep algorithm detects when you fall asleep and wake up, graphing the results to help you track your sleep patterns.

FPO

## Multi-day battery

Go nonstop with a long-lasting battery lasts for days on a single charge. You can also charge your watch on a Galaxy smartphone equipped with Wireless PowerShare.

## Water and dust resistances

This device is rated 5ATM, and passed military specification (MIL-STD-810G) testing. See [Maintaining water and dust resistance](#) on page 66.

Device layout

Assemble your device

Start using your device

FPO

## Device layout

## Assemble your device

Learn more about your device hardware, assembly procedures, and how to get started using your new device.

 **NOTE** Do not disassemble, modify, or repair your device. Placing objects, such as magnetic stripe cards, including credit cards, phone cards, passbooks, and boarding passes, next to the device or charger may cause damage from the charger or device's magnetic field.

## Wireless charging

1. Connect the wireless charger to the charger and plug the charger into an electric socket.
2. Place the Galaxy Watch Active2 into the wireless charger aligning the center of your Galaxy Watch Active2 with the center of the wireless charger.
3. After fully charging, disconnect the Galaxy Watch Active2 from the wireless charger. First, disconnect the wireless charger from the charger and then unplug the charger from the electric socket.

 **WARNING** Do not disassemble, modify, or repair your device. Placing objects, such as magnetic stripe cards, including credit cards, phone cards, passbooks, and boarding passes, next to the device or charger may cause damage from the charger or device's magnetic field.

 **CAUTION** The charging head for plugging the USB cable into a wall outlet is not included. Use only Samsung charging devices rated with an output voltage of (5v] and an output current of over [150mA] (sold separately). Samsung accessories are designed for your device to maximize battery life. Using other accessories may void your warranty and may cause damage.

While charging, the device and the charger may become hot. This does not affect the device's lifespan or performance and is in the device's normal range of operation.

The charger may stop charging if the battery becomes too hot.

If the device heats up while charging the battery:

1. Disconnect the charger from the device and close any running apps.
2. Wait for the device to cool down and then begin charging the device again.

 **NOTE** Prevent the USB charger port and the small end of the charger from coming into contact with conductive materials, such as liquids, dust, metal powders, and pencil leads.

## Wear the Watch

Wear the Watch firmly around your lower arm just above your wrist as shown below. Do not fasten the Watch too tightly.

1. Open the buckle and place the strap around your wrist.
2. Fit the strap to your wrist, insert the pin into an adjustment hole, and then secure the buckle to close it.

 **WARNING** Wear the Watch or device correctly. If you feel discomfort while using the device, stop using it. If your device becomes hot, please remove it until it cools.

## Strap tips and precautions

- Some people may experience discomfort when wearing the Watch for prolonged periods.
- If you have sensitive skin or fasten the Watch too tightly, you may feel some discomfort.
- Do not expose the straps to very wet conditions. Wet straps can cause skin irritations. Dry the straps first. If you experience skin irritation when wearing the device, stop wearing the device and consult a physician.

## Replace the strap

Detach the strap from the Watch to replace it with a new one.

To remove the strap:

- Slide the strap's spring bar inwards and pull the strap away from the Watch.

To replace the strap:

- Insert one end of the spring bar into the lug, slide the spring bar inwards, and connect the new strap.

## Start using your device

Use the Side key to turn your device on or off.

- Press and hold the **Side** key.
  - To turn the device off, press and hold the **Side** key, and then tap **Power**.
  - To restart the device if it is not responsive, press and hold the **Side** key for more than 7 seconds.

## Galaxy Wearable app

To connect your Watch to a smartphone, install the Galaxy Wearable app on the smartphone. You can download the app from Galaxy Store, or the Google Play™ store.

Compatible with select devices using Android 5.0 and later, with at least 1.5 GB RAM. Supported devices may vary by carrier and device. Some features may not be available. For best results, connect with compatible Samsung Galaxy devices. Visit [samsung.com/us/support/owners/app/galaxy-wearable-watch](https://samsung.com/us/support/owners/app/galaxy-wearable-watch) for a list of compatible smartphones.

## Connect the Watch to a smartphone

Turn on the Watch.

1. From the Apps screen of the smartphone, tap  **Galaxy Wearable**.
2. If necessary, update the app to the latest version.
3. Tap **Start the Journey**, and follow the prompts to select your device.
4. When the Bluetooth® pairing request window is displayed, confirm the passkeys displayed on your Watch and smartphone match, and then tap  **OK**.
5. Follow the prompts to complete the connection.

When the devices are connected, a tutorial is displayed on the Watch's screen. Follow the prompts to learn basic controls.

## Connect the Watch to a new smartphone

When you connect the Watch to another smartphone, the Watch automatically resets and all data is removed from its memory. Make sure you back up any important data stored on your Watch.

Back up your Watch's data on your smartphone as follows:

1. From  **Galaxy Wearable**, tap the **Home** tab.
2. Tap **Account and backup** > **Back up and restore** > **Back up data**.

## Remote connection

Set the Watch to remotely connect to the smartphone when a Bluetooth connection between the devices is not available. With this connection, you can still receive notifications from your smartphone.

To enable or disable this feature:

1. From  **Galaxy Wearable**, tap the **Home** tab.
2. Tap **Account and backup** > **Remote connection**.

 **NOTE** The Watch and smartphone must be connected to the same wi-fi network in order to receive notifications and calls.

## Disconnect

1. From  **Galaxy Wearable**, tap the **Home** tab.
2. Tap  **Menu** > **Disconnect**, and confirm when prompted. The Watch disconnects from your smartphone.

## Lock or unlock your device

Use the screen lock features to secure your device. Your Watch locks when you remove it from your wrist or when the screen times out while you are wearing it.

To unlock the Watch:

- Press the **Power** button.

You can also turn on the screen using the wake-up gesture feature.

- On the mobile device, launch the Galaxy Wearable app, tap **Home** > **Advanced** > **Wake-up gesture**, and then tap  to activate it.

## Navigation

The touchscreen responds best to a light touch from the pad of your finger or a capacitive stylus. Using excessive force or a metallic object on the touchscreen may damage the tempered glass surface and void the warranty.

## Tap

- Lightly tap the screen to launch an app, select a menu item, or press a button.

## Swipe

- Lightly drag your finger vertically or horizontally across the screen to view panels.

## Drag

- Touch and hold an item, and then move it to a new location.

## Change the watch face

From the smartphone:

1. From  **Galaxy Wearable**, tap the **Watch faces** tab.
2. Tap a desired watch face. The watch face you selected is applied on the Watch screen.
3. Tap **Customize** to select a background and items to display on the watch face.

## Widgets

You can instantly check your health and activity information and view app information, such as weather and schedules, for some connected mobile devices.

### Add Widgets

To add more widgets on the Home screen:

1. Swipe to the end of the Widget screens, and tap **Add widget**.
2. Select a widget.

The selected widget is displayed in a new panel.

### Move Widgets

- Touch and hold a widget and then drag it to the desired location.

### Remove Widgets

- Touch and hold a widget, and then tap  **Remove**.

## Enter text

Text can be entered by speaking or by using a keyboard.

A text input screen is displayed automatically when you are able to enter text. Select an emoji or text template to enter a message. You can also use voice input or the keyboard to type texts.

## Default keyboard

Select a default keyboard type for text input.

- From  **Settings**, tap **General** > **Input** > **Default keyboard** and select your default keyboard.

## Voice input

Instead of typing your text, you can speak it.

- From the keyboard, tap  **Voice input** and speak the message you want to enter. Tap **Send** when you are finished.
  - Tap  **More options** > **Input languages** to change the language. Voice input is not supported in some languages.
- From the keyboard, tap  **Voice input** and speak the message you want to enter. Tap **Send** when you are finished.
  - Tap  **More options** > **Input languages** to change the language. Voice input is not supported in some languages.

## Emojis

You can add emojis to your message.

- From the keyboard, tap  **Emojis**, and select an emoji to include in your message.
  - To draw an image, tap **Doodle**.

## Keyboard

Use the keyboard to enter your message.

- Tap  **Keyboard**, and then use your finger to write text, or swipe right to view the keyboard mode options.

## Keyboard settings

Change the Samsung keyboard settings.

- From  **Settings**, tap **General** > **Input** > **Keyboard settings**, and tap options to customize:
  - **English (US)**: Choose the keyboard layout.
  - **Select input languages**: Select languages for text input.
  - **Check for updates**: Set the Watch to check for and download the latest version of the Samsung keyboard.
  - **Handwriting**: Enable handwriting mode.
  - **Smart typing**: Customize features like predictive text, auto capitalize, and auto punctuate.
  - **Key-tap feedback**: Set the watch to vibrate when you tap a key on the keyboard.
  - **Reset keyboard settings**: Return your keyboard to the default settings.
  - **Clear personalized data**: Remove word predictions and other personalized data.

## Status panel

To open the Status panel:

- On the Watch screen, swipe down from the top of the screen.

## Status Bar

Indicator icons display at the top of the screen in the Status bar.

### Indicator icons

	Battery full
	Bluetooth connected
	Bluetooth enabled but not connected
	Wi-Fi connected

## Quick settings

You can quickly access settings through the status panel.

- Tap a quick setting to open it.
- Touch and hold a quick setting to edit the placement, remove a setting, or add a new setting.

## Notifications

Stay up to date with events, notifications, and messages from your smartphone. When you receive a notification, information about the notification, such as its type, is displayed on the screen while the Watch is vibrating.

- From the Watch screen, swipe left and tap a notification to view details.

### **View the notifications list**

To view a list of notifications from the same app:

1. From the Watch screen, swipe left to view notifications.
2. Tap the number at the bottom of the notification.

## Clear all notifications

To clear all notifications:

1. From the Watch screen, swipe right to view notifications.
2. Swipe right to the end of the notifications screens, and then tap **Clear all**.

## Block notifications

To block notifications from an app:

1. From the Watch screen, swipe right to view notifications.
2. Tap a notification from the app that you want to block.
3. Tap the notification to view the details.
4. Tap  **More options** > **Block notifications**.

## Notification settings

Change settings for the notification feature.

1. From the Apps screen of the smartphone, tap  **Galaxy Wearable** > **Home tab** > **Notifications**.
2. Tap  to activate it, and then tap to select items:
  - **Apps to get notifications from:** Select apps on the smartphone to send notifications to the Watch.
  - **Show only while wearing:** Show notifications on your Watch only while it is being worn.
  - **Show while using phone:** Show notifications from your phone on your Watch while you are using your phone.
3. Tap **Advanced notification settings** for the following items:
  - **Auto show details:** Set the Watch to show details for notifications when they are received.
  - **Notification indicator:** Show an indicator the watch face when there are unread notifications.
  - **Turn on screen:** Set the Watch to turn on the screen when the notification is received.

- **Smart relay:** Set the smartphone to display notification information from the Watch when you pick up the smartphone.

## Water lock mode

You can use Water lock mode to exercise in the water. While in Water lock mode touchscreen, wake-up gestures, and watch always on will be disabled.

- From  **Settings**, tap **Advanced** > **Water lock mode**, and tap  to enable this feature.

 **TIP** You can also access Water lock mode from quick settings.

## Exit water lock mode

- Press and hold the **Home** button for two seconds to turn off the mode.

## Do not disturb

Use these options to determine block out time where notifications are turned off, and during which time periods you want to enter this mode.

- From  **Settings**, tap **Advanced** > **Do not disturb**, and tap  to enable an option:
  - **Turn on now:** Enable this option, and set the time period.
  - **Turn on as scheduled:** When you select this option, tap **Set schedule** to configure the start time, end time, and days that you want to enable Do not disturb.

## Theater mode

You can use Theater mode to silence your Watch during a movie. This will keep the screen off and the Watch silent.

- From  **Settings**, tap **Advanced** > **Theater mode**, and tap  to enable this feature.

 **NOTE** When enabled, the theater mode symbol will display at the top of the screen.

## Goodnight mode

Goodnight mutes all alerts, except for alarms and notifications. This keeps the screen off and the Watch silent while you sleep.

- From  **Settings**, tap **Advanced** > **Goodnight mode**, and tap  to enable this feature.

 **TIP** You can also access Goodnight mode from quick settings.

# Apps

---

Using apps

Samsung apps

FPO

# Using apps

The Apps list displays all preloaded and downloaded apps. Apps can be downloaded from Galaxy Store.

## Access apps

The Apps screen displays icons for all apps.

1. From the Watch screen, press the **Home** button to go to the Apps screen.
2. To view other panels, swipe the screen to the left or right.

## Auto open apps

Set an app to launch without tapping the app. When the indicator icon hovers over an app, the app will be launched automatically.

- From  **Settings**, tap **Apps** > **Auto open apps** to enable this feature.

## Sort apps

Choose how to arrange the apps on the Apps screen.

- From  **Settings**, tap **Apps** > **App order**, and choose an option:
  - **Most recent first:** Recently used apps to appear first.
  - **Custom:** Arrange the apps to your preference.
    - From the Apps screen, touch and hold an app, and then drag it to the desired location.

## App permissions

Configure permissions for each installed app.

1. From the Apps screen, and tap  **Settings**.
2. Tap **Apps** > **Permissions**.
3. Tap an app to view its permissions. Tap each feature to enable or disable permission to access or use the feature.

## Recent apps

- From the Apps screen, tap **Recent apps**.

## Hide apps

You can hide apps that you do not want to see on your Watch.

1. From  **Galaxy Wearable** on your phone, tap the **Home** tab > **Apps** > **Manage apps**.
2. Tap  **Hide** next to the apps you do not want to see on your Watch.
3. Tap **Save**.

## Uninstall apps

Uninstall apps you have download.

1. From Apps, touch and hold an app.
2. Tap  **Uninstall**. This option is not available for all apps.

## Samsung apps

The following apps come pre-installed or downloaded over-the-air to your device.

### Messages

View messages and reply to or call the sender using the Watch.

#### View and Send messages

You may incur additional charges for receiving messages while you are roaming.

1. Swipe the screen to the right on the Watch screen to open the notification panel and view a new message.
2. Swipe upwards or downwards on the screen and select a quick reply message. The message will be sent.

#### Edit Quick messages

Edit or add templates used for replying to messages.

1. From  Galaxy Wearable, tap the **Home** tab > **Apps**.
2. Tap  **Settings** next to Messages.
  - To edit a message, select it and edit the text.
  - To create additional templates, tap  **Add**.
  - To delete or rearrange messages, tap [icon] **Edit**.

#### Delete messages

- Swipe to the right on the Watch screen to open a message, then drag the message up to  **Delete**.

### Phone

#### Answer a call

Answer incoming calls.

- Tap  and drag it to the right when a call comes in.

DRAFT-FOR INTERNAL USE ONLY

## Reject a call

Reject incoming calls.

- Tap  and drag it to the left when a call comes in.

## Missed calls

If a call is missed, a notification is displayed on the screen.

- From the Watch screen, swipe right to view missed call notifications.

## **Contacts**

View your smartphone's contact list.

## Create a contact

You can search for a contact or scroll through the list to find one by name.

1. From the Apps screen, tap  **Contacts**.
2. Tap  **Add**, and then enter the contact information.
3. Tap **Save**.

## Find a contact

You can search for a contact or scroll through the list to find one by name.

- From  **Contacts**, tap  **Search**, and then enter characters to find contacts that match.

## Call or message a contact

You can send a message or make a phone call from Contacts.

- From  **Contacts**, tap the contact you want to connect with, and tap an option:
  -  **Call**: Begin a phone call with the contact.
  -  **Message**: Type a message to the contact.

View emails received on your smartphone and reply to them.

## Read emails

1. From the Apps screen, tap  **Email**.
2. Tap a message to view its content.
3. Tap  **More options** for additional options:
  - **Star**: Mark the email as important.
  - **Show on phone**: View the email on your smartphone.
  - **Delete**: Delete the email.

**Note:** You may not be able to reply to emails depending on the smartphone that you connect to the Watch.

## Reply to emails

1. From  **Email**, tap an email to open the email screen.
2. Tap an icon or a quick reply to compose and send your message.

## Delete emails

1. From  **Email**, scroll through the inbox to the email you want to delete.
2. Tap  **More options** > **Delete**.
3. Select the email again, and then tap **Delete**.

## Samsung Health

Samsung Health helps you manage your wellness and fitness. Set fitness goals and regularly record and check your progress.

When the Watch is synced with the Samsung Health app, you can save and manage health-related data and receive useful information about your health every day.

Only your most recent activity records are stored on your Watch. You can view previous data on the smartphone where the Samsung Health app is installed.

- From the Apps screen, tap  **Samsung Health**.

 **CAUTION** The information gathered from this device, Samsung Health, or related software is not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease.

The accuracy of the information and data provided by this device and its related software, including heart rate readings, may be affected by factors such as environmental conditions, skin condition, specific activity performed while using/wearing the device, settings of the device, user configuration/user-provided information, placement of the sensor on the body, and other end-user interactions. For more information on proper wear and use, visit [samsung.com/us/heartratesensor](https://samsung.com/us/heartratesensor).

### Before you start exercising

Although the Samsung Health application is a great companion to your exercise routine, it is always best to make sure you consult with your physician before beginning any exercise regimen. While moderate physical activity, such as brisk walking, is safe for most people, health experts suggest that you talk with your doctor before you start an exercise program, particularly if you have any of the following conditions:

- Heart disease; Asthma or lung disease; Diabetes, or liver or kidney disease; and Arthritis.

Before beginning your exercise regimen check with your doctor if you have symptoms suggestive of heart, lung, or other serious disease, such as:

- Pain or discomfort in your chest, neck, jaw, or arms during physical activity;
- Dizziness or loss of consciousness;
- Shortness of breath with mild exertion or at rest, or when lying down or going to bed;
- Ankle swelling, especially at night;
- A heart murmur or a rapid or pronounced heartbeat;
- Muscle pain when walking upstairs or up a hill that goes away when you rest.

It is recommended that before engaging in an exercise routine, you consult with your doctor or medical practitioner. If you are unsure of your health status, have several health problems, or are pregnant, you should speak with your doctor before starting a new exercise program.

## Steps

The Watch counts the number of steps you have taken and measures the distance traveled.

- From  **Samsung Health**, swipe to and tap **Steps** to view a graph of your step count records.

To set your steps target:

1. From  **Samsung Health**, swipe to Steps.
2. Swipe up, tap  **Settings**, and then tap **Step target**.
3. Swipe up or down to set the target.
4. Tap **Done**.

## Floors

Record and track the number of floors you walk up.

1. From  **Samsung Health**, swipe to and tap **Floors**.
2. View a graph of your floor count records.

To set your floors target:

1. From  **Samsung Health**, swipe Floors.
2. Swipe up, tap  **Settings**, and then tap **Floor target**.
3. Swipe up or down to set the target.
4. Tap **Done**.

## Exercise

Record your exercise information using Samsung Health's exercise feature.

### Exercise with the Watch

1. From  **Samsung Health**, swipe to and tap **Exercise**.
2. Tap **Work out** and swipe to an activity type.
  - If available tap **...** to enter the exercise information.
3. Tap the activity to start monitoring your exercise. Your heart rate measurement begins.
  - When you swipe right or left you can view exercise information, such as calories burned and current speed.
4. Press the **Back** button to pause the workout.
  - Press the **Back** button again to resume the workout.
  - Tap **Finish** to complete your workout and view your workout summary.
5. Swipe to and tap **View log** to see your workout log.

 **NOTE** Measured distance may differ from the actual distance due to uneven strides, walking in place, and pacing around.

## Calories

View your record of calories burned during activities over the week.

1. From  **Samsung Health**, swipe to and tap on **Calories**.
2. Swipe up to view your calorie data.

## Sleep

Automatically track your sleep patterns.

1. From  **Samsung Health**, swipe to and tap **Sleep**.
2. Swipe up to view your sleep data.

## Heart rate

Measure and record your heart rate. Take heart rate measurements when you are seated and relaxed.

1. From  **Samsung Health**, swipe to and tap **Heart rate**.
2. Tap **Measure** to begin measuring your heart rate.
  - After a moment, your current heart rate is displayed on the screen.
3. Tap **Tag** to select a status tag for your measured heart rate.
  - The Watch displays information about your heart rate in relation to your selected tag.

## Track your heart rate and stress

The Watch can be configured to automatically measure and track your heart rate and stress.

1. From  **Samsung Health**, swipe to and tap **Heart rate**.
2. Swipe up, tap  **HR and stress measurement**, and select a measuring interval.
  - **Measure continuously:** The Watch measures your heart rate and stress continuously, regardless of your movement.
  - **Every 10 mins while still:** The Watch measure your heart rate every ten minutes when you are relaxed.
  - **Manual measurement only:** The Watch measures your heart rate or stress only when you check it manually.
3. Tap **Help** to view help information for using the auto HR feature.

## Stress

Keep track of your stress. Breathing exercises are also available to help reduce stress.

1. From  **Samsung Health**, swipe to and tap **Stress**.
2. Tap **Measure** to measure your current stress level

## Breathing exercise

Use the Breathe feature to help reduce stress.

1. From  **Samsung Health**, swipe to Stress.
2. After taking a stress measurement, the Breathe feature is available. Tap **Breathe** for the following options:
  - **Start**: Begin the breathing exercise.
  - **Target**: Adjust the target cycles per minute.
  - **Inhale/Exhale**: Adjust the time for inhaling and exhaling.
  - **Vibration**: Enable or disable vibration between inhale and exhale prompts.
  - **Sound**: Enable or disable sound for the breathing exercise.

## Food

Keep track of your calorie intake from food.

1. From  **Samsung Health**, swipe to and tap **Food**.
2. Tap **Add** when you eat something to enter the following information:
  - **Meal type**: Enter the type of meal you had.
  - **Cal**: Swipe up or down to select the calories consumed.

To set your daily calorie target:

1. From  **Samsung Health**, swipe to and tap **Food**.
2. Swipe down and tap  **Set target**.
3. Tap **Daily target** and set the number.
4. Tap **Done**.

## Weight management

View your progress in reaching your target weight. Weight management needs to be enabled and target weight set through the Samsung Health app on your phone.

1. From  **Samsung Health**, swipe to and tap **Weight management**.
2. Swipe up on the screen to see how your calorie intake and weight status records.
3. Tap **Info** for more detailed descriptions of status icons.

## Water

Record and track how many glasses of water you drink.

1. From  **Samsung Health**, swipe to and tap **Water**.
2. Tap  **Add** when you drink a glass of water.
  - If you accidentally added an incorrect value, tap  **Remove**.

To set your daily water target:

1. From  **Samsung Health**, swipe to and tap **Water**.
2. Swipe down and tap  **Set target**.
3. Tap  to enable water tracking.
4. Tap **Daily target** and set the number.
5. Tap **Done**.

## Caffeine

Record and track how many cups of caffeinated beverages you drink each day.

1. From  **Samsung Health**, swipe to and tap **Caffeine**.
2. Tap  **Add** when you drink a caffeinated beverage.
  - If you accidentally added an incorrect value, tap  **Remove**.

To set your daily caffeine target:

1. From  **Samsung Health**, swipe to and tap **Caffeine**.
2. Swipe down and tap  **Set target**.
3. Tap  to enable caffeine tracking.
4. Tap **Daily target**, and set the number.
5. Tap **Done**.

## Together

Compete with other Samsung Health users.

### Steps leaderboard

Add challenges through Samsung Health on your smartphone.

- From Apps, tap **Samsung Health** > **Together**. Here you can add friends and challenges.

### View challenges on your Watch

View your challenges and rank on the Steps leaderboard.

1. From  **Samsung Health**, swipe to and tap **Together**.
2. Tap a list to see your challenges.

## Settings

Customize your Samsung Health settings.

1. From  **Samsung Health**, swipe to **Settings**.
2. Tap an item to customize:
  - **Profile**: Update your personal profile.
  - **Units**: Change units for distance, temperature, and volume.
  - **Workout detection**: Set the Watch to recognize and encourage you when it detects that you are exercising.
  - **Inactive time alerts**: Set the Watch to alert you if you have been still for almost an hour.

DRAFT-FOR INTERNAL USE ONLY

- **HR and stress measurement:** Configure automatic heart rate and stress measurements.
- **Data permissions:** Configure access permissions to your health data.

3. Tap **Help** for a description of Samsung Health.

## Galaxy Store

Samsung Galaxy Store provides a quick and easy way to find and download free premium apps that are compatible with your Galaxy device.

- From Apps, tap  **Galaxy Store**.

 **TIP** A Samsung account is required to purchase and download apps.

## Find My Phone

If you misplace your smartphone, the Watch can help you find it.

1. Swipe downwards on the screen to open the quick panel.
2. Tap . The mobile device emits sounds and turns on the screen.
3. Tap and drag it to the left or right on your mobile device, or tap **Stop** on the Galaxy Watch Active2.

## Find your Watch

You can also locate your Watch by making it light up and make sounds from the Galaxy Wearable app.

1. From  **Galaxy Wearable**, tap the **Home** tab > **Find My Watch**.
2. Tap  **Start**.
  - The Watch vibrates and the screen turns on.
3. Drag **Stop** to the right on the Watch or tap  **Stop** on the smartphone..

## Reminder

Add reminders for events and set alarms outside of the Calendar app.

### Create a reminder

1. From the Apps screen, tap  **Reminder**.
2. Tap **Add** and choose a keyboard.
3. Follow the prompts to name and set the time for your reminder.
4. Tap **Save** when finished.

### Complete a reminder

To mark reminders complete:

1. From  **Reminder**, tap the reminder you want to complete.
2. Tap the checkbox to mark it as complete.
3. To delete the reminder, tap  **More options** >  **Delete**.

## Play music from the Watch

You can play music from the Watch through Bluetooth headphones (not included).

1. From the Apps screen, tap  **Music**.
2. Tap the output until the  **Watch** icon is displayed.
3. Tap  **More options** for the following options:
  - **Shuffle**: Enable or disable shuffle.
  - **Repeat**: Tap to repeat all songs, tap again to repeat once, and tap again to turn off repeat.
  - **Add to Favorites**: Add the track to your favorites.
  - **Listen using**: Select which audio output type to use for playback.
  - **Set as ringtone**: Set the current track as your ringtone.
  - **Delete**: Remove the current track.
4. Tap  **Play music** to play music.
5. Swipe up from the bottom of the screen to open the library screen, where you can view the current song, playlist, and queue music.

## Play music on your smartphone

When you select a smartphone to play music from, you can control playback of the music with your Watch. The music plays on your smartphone.

1. From the Apps screen, tap  **Music**.
2. Tap the output until the  **Phone** icon is displayed.
3. Tap  **Play music** to play music on your smartphone.
4. The music plays on your smartphone and the Watch displays the music controller screen.

## Import music

Import music saved in your smartphone to your Watch.

1. From the Apps screen of the smartphone, tap  **Galaxy Wearable** > **Home** tab > **Add content to your watch**.
2. Tap **Add tracks**.
3. Select files and tap **Done**.

To sync recently added music in your smartphone with your Watch:

1. From the Apps screen of the smartphone, tap  **Galaxy Wearable** > **Home** tab > **Add content to your watch**.
2. Tap **Auto sync**, and then tap **OK** to confirm. Music will be synced while the Watch battery power is at least 15 percent.

View and manage images stored on the Watch.

## View images

1. From the Apps screen, tap  **Gallery**.
2. Swipe through the image list and then tap an image to view it.

## Zoom in or out

While viewing an image:

- Double-tap the image to zoom in or out.

## Delete images

1. From  **Gallery**, touch and hold an image to delete, or tap  **More options**.
2. Tap **Delete**, and then tap  **Ok** to confirm.

## Import and export images

Images can be exchanged between your Watch and smartphone.

### Import images from your smartphone

Send images or entire albums from your smartphone to your Watch.

1. From  **Galaxy Wearable**, tap the **Home** tab.
2. Tap **Add content to your watch > Send images**.
3. Select files or albums and tap **Done**.

To automatically sync images on your smartphone with your Watch:

1. From  **Galaxy Wearable**, tap the **Home** tab.
2. Tap **Add content to your watch > Auto sync** to enable. Images will be synced while the Watch battery power is at least 15 percent.
  - **Image limit:** Set a limit to the number of images that can be synced to your Watch.
  - **Albums to sync:** Select which Gallery albums to sync to your Watch.

### Export images to your smartphone

1. From  **Gallery**, tap the image you want to send to the smartphone.
2. Tap  **More options >**  **Send to phone**.

## Take a screenshot

Capture an image of your screen. It is automatically saved to the Gallery app.

To enable the screen capture feature:

- From  **Settings**, tap **Advanced > Screen capture** to enable this feature.

To take a screenshot:

- From any screen, press and hold the **Power** key, and swipe the screen from left to right.

 **Weather**

View weather information on the Watch for locations set on the smartphone when the devices are connected.

- Swipe to the left on the Watch screen to switch to the weather widget screen.

 **Alarm**

Set an alarm to ring at a specific time.

### Create an alarm

Create an alarm event. You can set one-time or recurring alarms.

1. From Apps , tap  **Alarm**.
2. Tap **Add** and enter the time.
3. Tap **Next**, and select the days to repeat the alarm.
4. Tap **Save** when finished.

### Stop or snooze an alarm

- Drag  **Cancel** to the right to stop an alarm or drag  **Snooze** to the left to snooze.

### Delete an alarm

You can delete an alarm that you created.

- From  **Alarm**, tap and hold an alarm, and then tap **Delete**.

## World clock

The World clock lets you keep track of the current time in multiple cities around the globe.

### Add cities

1. From the Apps screen, tap  **World clock**.
2. Tap **Add** to add a city to your World clock.
3. Tap a location on the map, or tap **All cities** to search for the city you want to add.
4. Tap the city to add it to your World clock.
  - To add more cities, tap **Add**.

### Remove cities

1. From  **World clock**, tap  **More options** by the city you want to remove.
2. Tap  **Delete**, and select the city again.
3. Tap **Delete** to confirm.

## Calendar

View the events scheduled on the smartphone.

- Swipe to the left on the Watch screen to switch to the calendar widget screen.

**NOTE** You must first add the calendar widget to use it. On your mobile device, launch the Galaxy Wearable app, tap **Home** > **Widgets**, and then tap  next to the calendar widget.

## Bixby

Bixby is a voice service that helps you use your Watch more conveniently. You can talk to Bixby to launch a function or provide you with information.

1. From Apps, tap  **Bixby**.
2. Follow the prompts to set up Bixby.

DRAFT-FOR INTERNAL USE ONLY

 **NOTE** To use Bixby, your mobile device must be connected to a Wi-Fi or mobile network, and you must sign in to your Samsung account.

The following apps and functions can be managed with Bixby through your smartphone:

- Alarm and timer
- Calendar
- Contacts
- Date and time
- Messages
- Phone
- Reminder
- Samsung Health
- Settings
- SmartThings

## Enable voice launch

You can launch Bixby using your own voice wake-up command. You can only use this feature when your Watch's screen is turned on.

- From  Bixby, tap  **More options** > **Voice wake-up** to enable this feature.

## Change the language

Change the speech recognition language.

- From  Bixby, tap  **More options** > **Language**, and then choose a language.

## Use Bixby

To launch Bixby for voice commands:

- Quickly press the **Home** button twice, or say "Hi Bixby."

# Settings

Access Settings

Connections

Vibration

Display

Device maintenance

Lock screen and security

Accessibility

Other settings

FPO

## Access Settings

You can personalize your device by configuring various setting options.

- From Apps, tap  **Settings**, or swipe down from the top of the screen to open the status panel and tap  **Settings**.

## Connections

Manage connections between your device and a variety of networks and other devices.

### Bluetooth

Use Bluetooth to connect the Watch to a smartphone and a headset (not included).

1. From  **Settings**, tap **Connections** > **Bluetooth**.
2. Tap  to turn on the feature.
  - Tap **Bluetooth audio** to connect a Bluetooth audio device to the Watch.

 **NOTE** Headsets can only be used for playing music on the Watch.

### Wi-Fi

Activate the Wi-Fi feature to connect to a Wi-Fi network.

1. From  **Settings**, tap **Connections** > **Wi-Fi**.
2. Tap  to enable the feature, and then choose to set Wi-Fi to **Auto**, **Always on**, or **Always off**.

## Connect to a Wi-Fi network

This feature is available when the Watch is not connected to the smartphone through Bluetooth.

1. From  **Settings**, tap **Connections** > **Wi-Fi**.
2. Tap **Wi-Fi networks** > **Scan**, and select a network from the list.
  - Networks that require a password display a lock icon.
3. Enter the password if required, and tap **Connect**.

 **NOTE** Once the Watch connects to a Wi-Fi network, the Watch reconnects to that network each time it is available without requiring a password. To prevent the Watch connecting to the network automatically, select the network, and then tap **Forget**.

## Sync Wi-Fi profiles

Set the device to sync the list of saved Wi-Fi networks with your Watch.

1. From  **Galaxy Wearable**, tap the **Home** tab.
2. Tap **Sync phone settings** > **Sync Wi-Fi profiles**.

## NFC

The Watch lets you use the built-in technology to make payments and buy tickets for transportation or events after downloading and configuring the required apps.

1. From  **Settings**, tap **Connections** > **NFC**.
2. Tap  to enable the feature, and tap **Tap and pay** to set the default payment app for mobile payments.

## Make payments with the NFC feature

Before you can use the NFC feature to make payments, you must register for the mobile payment service. To register or get more information about the service, contact your service provider.

1. From  **Settings**, tap **Connections** > **NFC**.
2. Touch the top of the Watch's touchscreen to the card reader.

DRAFT-FOR INTERNAL USE ONLY

 **NOTE** The payment services list may not include all available payment apps.

## Connection alerts

Receive alerts when disconnected from Bluetooth.

- From  **Settings**, tap **Connections** > **Alerts** to enable or disable this option.

## Airplane mode

Airplane mode disconnects your device from all networks and turns off connectivity features, such as phone calls and Wi-Fi.

- From  **Settings**, tap **Connections** > **Airplane mode** to enable this option.

## Location

Some apps may require location services to be turned on for full functionality.

1. From  **Settings**, tap **Connections** > **Location**.
2. Tap  to enable this feature, and select a mode.
  - **GPS and wireless networks:** Use GPS and wireless networks.
  - **Wireless networks:** Use wireless networks only.
  - **GPS:** Use GPS only.

## Connect to a new phone

Connect your Watch to a new mobile device. The Watch can connect to another mobile device after performing a light reset to delete data.

- From  **Settings**, tap **Connect to a new phone** and follow the prompts.

 **NOTE** This feature is available when the Watch is connected to a smartphone. Otherwise, **Connect to phone** is displayed.

## Vibration

Configure the vibrations used to indicate notifications, screen touches, and other interactions.

### Sound mode

Switch between sound modes, while preserving the individual sound settings you have made.

1. From  **Settings**, tap **Vibration**.
2. Tap **Sound mode**, and then select a mode:
  - **Sound**: Enable sounds for notifications and alerts.
  - **Vibrate**: Use vibration only for notifications and alerts.
  - **Mute**: Set your device to make no sounds.

### Vibrate with sound

You can set your device to vibrate while making sounds.

 **TIP** Sound mode must be enabled for this option to be available.

- From  **Settings**, tap **Vibration** > **Vibrate with sound** to enable the feature.

## Volume

Set volume levels.

1. From  **Settings**, tap **Vibration** > **Volume**.
2. Swipe the screen from right to left to adjust the volume levels for different modes.

### Vibration intensity

Configure the vibration intensity.

- From  **Settings**, tap **Vibration** > **Vibration intensity**, and select your preferred intensity level. Tap **OK** to confirm.

## Long vibration

Increase the duration of the vibration for calls and notifications.

- From  **Settings**, tap **Vibration > Long vibration** to enable this feature.

## Ringtone

Choose from preset ringtones or add your own.

1. From the Apps screen, rotate the bezel and tap  **Settings**.
2. Tap **Vibration > Ringtone vibration**.
3. Tap a ringtone to hear a preview, and tap **OK** to select it.

– or –

Tap **Add from watch** to use an audio file as a ringtone.

## Ringtone vibration

Vibrate for calls.

1. From the Apps screen, rotate the bezel and tap  **Settings**.
2. Tap **Vibration > Ringtone vibration** and select a vibration pattern.
3. Tap **OK** to confirm.

## Notification sound

Choose from preset notification sounds.

1. From  **Settings**, tap **Vibration > Notification sound**.
2. Tap a notification sound to hear a preview, and tap **OK** to select it.

## Notification vibration

Choose a vibration pattern for new notifications.

- From  **Settings**, tap **Vibration > Notification vibration** and select a vibration pattern. Tap **OK** to confirm.

## Touch sounds

Enable sounds when the watch screen is tapped.

- From  **Settings**, tap **Vibration** > **Touch sounds** to enable this feature.

## Do not disturb

Do not disturb allows you to block sounds and notifications while this mode is turned on. You can also specify exceptions for people, apps, and alarms.

- From  **Settings**, tap **Vibration** > **Do not disturb** and configure the following:
  - **Turn on now:** Put your device in Do not disturb mode.
  - **Turn on as scheduled:** Configure **Days** and **Set schedule** to set up a regular schedule.

## Theater mode

You can use Theater mode to silence your Watch during a movie. This will keep the screen off and the Watch silent.

- From  **Settings**, tap **Advanced** > **Theater mode**, and tap  to enable this feature.

 **NOTE** When enabled, the theater mode symbol will display at the top of the screen.

## Hourly chime

Hear a sound and feel a vibration at the start of each hour.

- From  **Settings**, tap **Vibration** > **Hourly chime** to enable this feature.

## Display

You can configure the screen brightness, timeout delay, font size, and many other display settings.

### Watch faces

Change the style settings.

- From  **Settings**, tap **Watch faces**. The following options are available:
  - **Watch faces**: Select a watch type.
  - **Watch always on**: Set the Watch to display a watch when the screen is turned off.
  - **Watch face order**: Set a sort order.
  - **Notification indicator**: Enable or disable the notification indicator.
  - **Status indicator**: Indicators are icons that show the current status of your Watch on the watch face.

### Adjust screen brightness

Manually adjust the brightness of the display.

- From  **Settings**, tap **Display** and select an option:
  - **Brightness**: Manually adjust the brightness of the display.
  - **Auto low brightness**: Set the Watch to automatically adjust the brightness depending on ambient light conditions.

### Set the screen timeout

Set the length of time the Watch waits before turning off the display's backlight.

- From  **Settings**, tap **Display > Screen timeout**, and select a timeout value.

### Show last app

Set the length of time the Watch wakes up to the last app used.

- From  **Settings**, tap **Display > Show last app**, and select a timeout value.

## Background style

Select a background for the watch screens. This will be applied to every screen except your main watch screen.

- From  **Settings**, tap **Display > Background style** and select a background.

## Font style

Customize the font used on your Watch.

1. From  **Settings**, tap **Display > Font**.
2. Tap **Font style**, and select a font.

## Font size

Customize the font size used on your Watch.

1. From  **Settings**, tap **Display > Font**.
2. Tap **Font size**, and select from small, medium, and large.

## Device maintenance

View the status of your device's battery, storage, and memory. You can also automatically optimize your device's system resources.

## Date and time

You can set the date and time manually.

- From  **Settings**, tap **General > Date and time**.
  - **Set date:** Set the date manually.
  - **Set time:** Set the time manually.
  - **Select time zone:** Select the time zone manually.

 **NOTE** The Date and time options are only available when your Watch is not connected to your mobile device.

## Power saving mode

Activate Power saving mode to save battery power by limiting the Watch's functions, such as:

- Uses a grayscale Home screen
- Turns off all functions except calls, messages, and notifications
- Turns off Wi-Fi and mobile networks (if applicable)
- Limits performance

1. From  **Settings**, tap **Battery**.
2. Tap **Power saving**, and then tap  **OK**.

To disable Power saving mode:

- From the Home screen, tap **Turn off**, and then tap  **OK**.

## Watch only mode

Activate Watch only mode to save battery power by limiting the Watch's functions to only showing the time.

1. From  **Settings**, tap **Battery**.
2. Tap **Watch only**, and then tap  **OK**.

To disable Watch only mode:

- Touch and hold the **Power** button for three seconds.

## Reset the Watch

Reset settings to their factory default values and delete all data.

1. From  **Settings**, tap **General** > **Reset**.
2. Tap  **OK**.

## Watch status

Access information about the Watch.

1. From  **Galaxy Wearable**, tap the **Home** tab > **About watch**.
2. Tap an option below:
  - **Update watch software:** Update the Watch to the latest software.
  - **Legal information:** View the legal information for the Watch.
  - **Install unknown apps:** Set the Watch to allow the installation of apps from unknown sources.
  - **Device name:** Change the Watch's name.
  - **Device information:** View identification codes for your Watch.

## Lock screen and security

You can secure your device and protect your data by setting a screen lock.

### Set a screen lock

It is recommended that you secure your device using a Screen lock.

1. From  **Settings**, tap **Security** > **Lock**.
2. Tap **Type** to select a screen lock type:
  - **Pattern:** Create a pattern that you draw on the screen to unlock your device. This option provides medium security.
  - **PIN:** Set a PIN to use for unlocking the device when it removed from your wrist and the screen is turned off.
  - **None:** Do not lock the screen.
3. Tap **Help** to view help information for using the screen lock feature.

# Accessibility

Accessibility services are special features that make using the device easier for those with certain physical disabilities.

For more information about Accessibility for Samsung products, please contact us at [accessibility@sea.samsung.com](mailto:accessibility@sea.samsung.com).

## Screen Reader

Use special controls and settings that let you navigate without needing to see the screen.

- From  **Settings**, tap > **Screen reader** for the following options:
  - **Voice assistant:** Receive spoken feedback when using your device, such as what you touch, select, or activate.
  - **Tutorial:** Learn how to use Voice assistant.
  - **Settings:** Configure Voice assistant to better assist you.

## Visibility enhancements

You can configure Accessibility features to assist with visual aspects of your device.

- From  **Settings**, tap **Accessibility** > **Visibility enhancements** for the following options:
  - **Zoom:** Use gestures to zoom in or out.
  - **Grayscale:** Remove all colors from the display, and use shades of gray.
  - **Negative colors:** Reverse the display of colors from white text on a black background to black text on a white background.
  - **Vibration watch:** The watch will use vibrations to communicate the time.

## Hearing enhancements

You can configure Accessibility features to assist with audial aspects of the device.

- From  **Settings**, tap **Accessibility** > **Hearing enhancements** and tap an option:
  - **Mute all sounds:** Turn off all notifications and audio for privacy.
  - **Mono audio:** Switch audio from stereo to mono when using one earphone.

DRAFT-FOR INTERNAL USE ONLY

## Advanced settings

You can configure Accessibility features.

- From  **Settings**, tap **Accessibility** > **Advanced settings** for the following options:
  - **Notification reminder**: Enable and customize notification reminders.
  - **Two finger triple tap**: Use two fingers when using the gesture triple tap.

## Text to speech

To set accessibility settings related to Text to speech:

- From  **Settings**, tap **General** > **Text-to-speech** and select a mode:
  - **Language**: Choose the language for spoken text.
  - **Speech rate**: Set the speed at which the text is spoken.
  - **Read notifications aloud**: Set the Watch to read out notifications received on your Watch.
  - **Check for updates**: Search for any updates to the Text-to-speech feature.

## Other settings

Configure features on your device that make it easier to use.

## Custom shortcut

You can set up a custom shortcut when the Home key is double pressed.

- From  **Settings**, tap **Advanced** > **Double press Home key**, and select an action to perform.

## Wake-up gesture

Change the Watch's button and motion settings.

- From  **Settings**, tap **Advanced** and select an option to customize:
  - **Wake-up gesture:** Set the Watch to turn on the screen when you raise your wrist.
  - **Touch wake-up:** Wake up your watch by touching the screen.

## Touch sensitivity

Set the Watch to allow use of the touch screen with gloves on.

1. From  **Settings**, tap **Advanced** > **Touch sensitivity**.
2. Tap  to enable this feature.

 **TIP** You can also enable touch sensitivity by holding the **Home** button, and tapping **Touch sensitivity**.

## Watch info

View the Watch's information.

- From  **Settings**, tap **About watch** to view the following information about your Watch:
  - **Watch phone number:** View the phone number assigned to your watch.
  - **Model number:** Check your Watch's model number.
  - **Serial number:** View your Watch's serial number.
  - **Storage:** Check the available storage space.
  - **Device:** Access device information about the Watch.
  - **Software:** Check your Watch's software version and security status.
  - **Battery:** Check the Watch's battery voltage and capacity.
  - **Open source licenses:** View the guide for checking the Watch's open source license.
  - **Report diagnostic and usage info:** Give consent to provide diagnostic and usage data to Samsung to help improve the quality and performance of its products and services.

DRAFT—FOR INTERNAL USE ONLY

- **Debugging:** Activate or deactivate USB debugging mode when developing apps for the Watch.
- **Reset:** Erase all personal data and reset the watch to its factory defaults.

# Legal information

---

READ THIS INFORMATION BEFORE USING YOUR MOBILE DEVICE.

**Arbitration Agreement** - This Product is subject to a binding arbitration agreement between you and SAMSUNG ELECTRONICS AMERICA, INC. ("Samsung"). You can opt out of the agreement within 30 calendar days of the first consumer purchase by emailing [optout@sea.samsung.com](mailto:optout@sea.samsung.com) or calling 1-800-SAMSUNG (726-7864) and providing the applicable information. For complete terms and conditions that bind you and Samsung, refer to the "Arbitration Agreement" section of the Terms & Conditions, included with the Product.

## Find Legal Information Online

The full Arbitration Agreement, Standard Limited Warranty, and Health & Safety Information for your device are available online:

<https://www.samsung.com/us/Legal/Gear-HSGuide/>

The full End User License Agreement (EULA) for your device can be found in the Galaxy Wearable application, which is required for operation of your device, and online:

- Online: [www.samsung.com/us/Legal/SamsungLegal-EULA-GEAR](http://www.samsung.com/us/Legal/SamsungLegal-EULA-GEAR)

## Intellectual property

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG mobile device, including but not limited to, accessories, parts, or software relating thereto (the "mobile device"), is proprietary to Samsung and protected under federal laws, state laws, and international treaty provisions. Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship.

DRAFT-FOR INTERNAL USE ONLY

You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.

## Open source software

Some software components of this product, including but not limited to 'PowerTOP' and 'e2fsprogs', incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. To obtain the source code covered under the open source licenses, please visit: [opensource.samsung.com](https://opensource.samsung.com)

## Disclaimer of warranties; exclusion of liability

The information below explains that a user accepts this Product as sold, including the hardware and software components as created and packaged for sale. If the user changes these parameters through a unique modification, Samsung will not be held responsible for damages or issues that result from these end-user changes.

Except as set forth in the Standard Limited Warranty that accompanies the Product, the purchaser takes the product "as is", and Samsung makes no express or implied warranty of any kind whatsoever with respect to the Product, including but not limited to the:

- merchantability of the Product or its fitness for any particular purpose or use;
- design, condition or quality of the Product;
- performance of the Product;
- workmanship of the Product or the components contained therein; or
- compliance of the Product with the requirements of any law, rule, specification or contract pertaining thereto.

DRAFT-FOR INTERNAL USE ONLY

Nothing contained in the User Manual or any other document shall be construed to create an express or implied warranty of any kind whatsoever with respect to the Product. Neither Samsung nor the wireless carrier are responsible for, and the Standard Limited Warranty does not apply to, any damage or injury arising from disassembly or repairs by persons not authorized or approved by Samsung to service this Product. In addition, Samsung shall not be liable for any damages of any kind resulting from the purchase or use of the Product or arising from the breach of the express warranty, including incidental, special or consequential damages, or loss of anticipated profits or benefits.

## Modification of software

Samsung is not liable for performance issues or incompatibilities caused by your editing of registry settings, or your modification of Operating System (OS) software.

Using custom OS software may cause your device and applications to work improperly. Your carrier may not permit users to download certain software, such as custom OS.

## Samsung Knox

Samsung Knox is Samsung's security platform and is a mark for a Samsung device tested for security with enterprise use in mind. Additional licensing fee may be required. For more information about Knox, please refer to: [samsung.com/us/knox](https://samsung.com/us/knox).

## Maintaining water and dust resistance

 **CAUTION** To avoid electric shock and damage to your device, do not charge device while it is wet or in an area where it could get wet. Do not handle device, charger or cords with wet hands while charging.

This device is rated 5ATM. Your device is water resistant up to 50 meters per ISO standard 22810:2010. Not intended for scuba diving. Avoid excessive, sudden temperature changes, and high velocity activities. Falls and shocks may breach integrity. After use in sea water, rinse in fresh water and dry device. Despite this classification, your device is not impervious to water damage in any situation. It is important that all compartments are closed tightly.

 **NOTE** If any liquid is found to have entered your device components or an internally sealed system, this condition will void your device warranty.

Follow these tips carefully to prevent damage to the device.

- Whenever your device gets wet, dry it thoroughly with a clean, soft cloth. Failure to rinse the device in fresh water and dry it as instructed may cause the device to suffer from operability or cosmetic issues.
- Do not expose the device to water at high pressure.
- If the device is dropped or receives an impact, the water and dust resistant features of the device may be damaged.

 **NOTE** This device passed military specification (MIL-STD-810G) testing against specific conditions, including drops from 4.9 feet, extreme temperatures, dust, shock/vibration, and low pressure/high altitude. Device may not perform as described in all extreme conditions.

## Restricting children's access to your mobile device

Your device is not a toy. Do not allow children to play with it because they could hurt themselves and others, or damage the device. Keep the device and all its parts and accessories out of the reach of small children.
