RE: Request of Long-Term Confidentiality for FCC ID: **A3LSOG2201**

To Whom It May Concern:

This is a request to hold the internal photos and user manual for FCC ID: **A3LSOG2201** under long term confidentiality. The transmitter is a Base Station where access is controlled and only available to trained personnel. Please note that the internal photos are being asked to be confidential under the FCC guidelines that this is a non-consumer device (Base Station) and is inaccessible to the general public due to the location of the device and it is only serviceable by the licensee or his designated technicians. The user manual is being requested to be confidential under the FCC guidelines that the manual is very technical and is not provided to the general public. The user manual contains proprietary information required for trained installers to commission the base station. The user manual will be used by the licensee or his designated technicians only. Having the subject information easily available to competitors would negate the advantage we have achieved by developing this product.

All sales of the non-consumer device will be under NDA to include 3rd party sales and that the final user of the device is subject to the NDA as required by the special conditions of section II)3)c) of KDB 726920 D01.

The requested Long-Term Confidential exhibits are list as follows:

<b>LONG-TERM CONFIDENTIAL LIST</b>		
	<b>Exhibit</b>	<b>Description</b>
<b>LONG-TERM CONFIDENTIAL</b>	1	Internal Photographs
	2	User's Manual

Sincerely,

Jongin Kim / Principal Engineer
