Subject : Regarding Samsung class 2

Applicant: SAMSUNG ELECTRONICS CO., LTD. FCC ID: A3LSPI-2210012502

To whom it may concern,

I do request Class 2 permissive change since existing certification completed product(A3LSPI-2210012502) supports additional bandwidth in 5MHz.

There's no hardware-related change with it and it supports 5 MHz bandwidth by firmware only.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Joon-Ho, Lee
Senior Research Engineer
Samsung Electronics Co.Ltd.
