Hi Denny,

Please address following issues.

Q#1: According to KDB 852143 Authorized Individual Policy (Form 731),

only the person who is listed as the grantee contact person on FCC website can sign the agent authorization letter. As for Samsung Electronics Co Ltd, the grantee code contact person is Steve Kim, General Manager. Please provide an authorization letter sign by him or update the grantee contact person from FCC website.

Besides, please also provide the confidentiality request letter signed by Steve Kim or by his authorized agent.

Attached is the new format of authorization for your reference. SGS can help Samsung to sign other documents, for example, confidentiality request letter once you're authorized by Mr. Steve Kim. → [Please see the attachment.](#)

Q#2: EUT dimension is large enough that per 15.19, that following statement shall be added on the product label or a separate label is acceptable. → [Please see the attached new label format.](#)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference Received, including interference that may cause undesired operation.

Q#3: Please provide an updated user manual to include 15.21, 15.105 and RF exposure statement per 2.1091. --> [Updated user manual' s attached.](#)

Q#4: Please update the block diagram to show the frequency of oscillator on it.

Q#5: Please provide the difference between two models. → [Indicated on page 3.](#)

Q#6: Please correct test report page 34, the 99% BW test plot for high channel. The one shown is for middle channel but not high channel. → [Corrected on page 34.](#)

Best Regards,

Lucy Tsai
