

Date November 01, 2023

Federal Communications Commission  
 Equipment Authorization Branch  
 7435 Oakland Mills Road  
 Columbia, MD 21046

**Modular Approval Request**

**FCC ID:** A3LWCD730M

**The following attestation addresses the requirements to support modular approval:**

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Refer to the external photo	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	All input to the modules are buffered through microprocessor inputs.	
(c) The module must contain power supply regulation on the module	Internal power regulators Refer to the Block-diagram	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Refer to the internal photo	
(e) The module must demonstrate compliance in a stand-alone configuration	The EUT was tested in a standalone configuration via a SD extension cable Refer to the test setup photo	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Refer to the external photo	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	Refer to the user manual	

<b>Modular approval requirement</b>	<b>Yes (provide brief statement)</b>	<b>No *</b>
(h) The module must comply with RF exposure requirements	Refer to the RF exposure statement for more details.	

\* Please provide a detailed explanation if the answer is "No."

Sincerely,

Signed:
