Re: Variation of OPM15-E Radio Module
FCC ID: A3Q-OPM15E1
IC: 10131A-OPM15E1

To Whom it May Concern:

OPM15-E radio module has two variations (Part #: OPM15-E1, OPM15-E0). This letter is to certify that the difference between these two parts only resides in the temperature grade of some components in the BOM (Bill of Materials), and the internal pictures of OPM15-E1 and OPM15-E0 look exactly the same.

Further information may be obtained from OMESH Networks Inc.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Liang Song', with a small registered trademark symbol (®) at the end.

Liang Song,
CTO, OMESH Networks Inc.
