

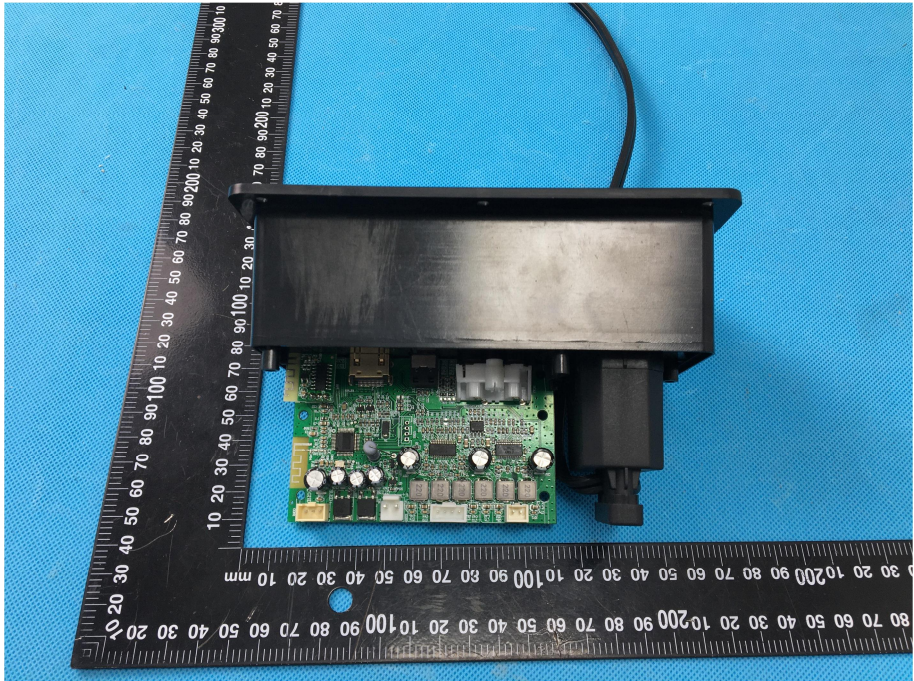

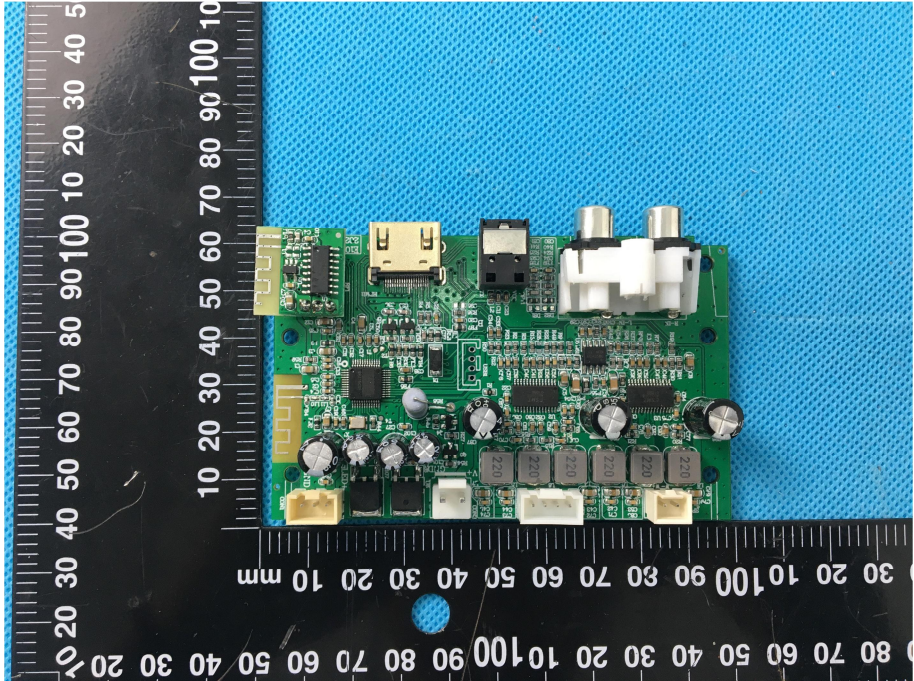

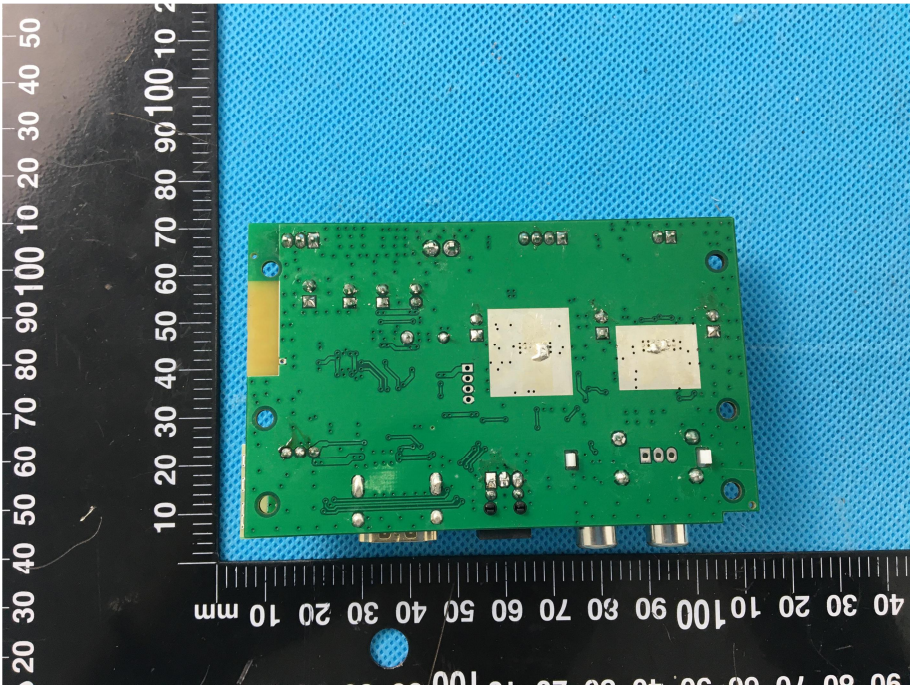

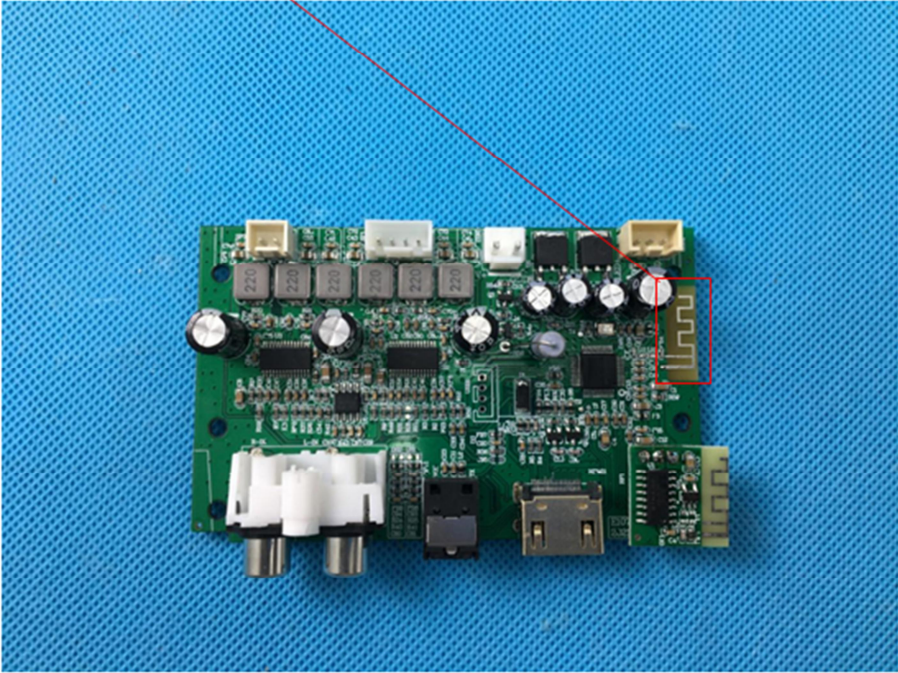

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the external view of the EUT housing and board assembly. The assembly consists of a black plastic housing mounted on a green printed circuit board (PCB). The PCB is populated with various electronic components, including integrated circuits, capacitors, and connectors. A black cable is connected to the assembly. A black ruler is placed horizontally below the assembly for scale, showing measurements in millimeters. The background is a blue textured surface.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the soldered components on the PCB. The image shows various electronic components, including integrated circuits, capacitors, and connectors, mounted on the green PCB. A black ruler is placed vertically to the left of the assembly for scale, showing measurements in millimeters. The background is a blue textured surface.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a green printed circuit board (PCB) component, likely a Bluetooth module, placed on a blue textured surface. A black ruler is positioned vertically on the left side of the board, showing measurements in millimeters from 0 to 100. The board features various electronic components, including a large white rectangular component in the center, several smaller components, and a yellow rectangular component on the left edge. The board is oriented horizontally.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph of the same green PCB component, viewed from the side. The board is populated with numerous components, including several large silver electrolytic capacitors, various integrated circuits, and connectors. A red box highlights a specific component on the right side of the board, which is identified as the Bluetooth antenna. A red arrow points from the text label "Bluetooth Antenna" to this component. The board is oriented vertically.</p>
