<p>Solder Board-Component View 10</p>	 A photograph of a green printed circuit board (PCB) component, likely a USB controller board, placed on a blue textured surface. The board is populated with various electronic components, including integrated circuits, capacitors, and resistors. Two metal rulers are used for scale: one vertical ruler on the left and one horizontal ruler at the bottom. The vertical ruler shows the board is approximately 10 cm high, and the horizontal ruler shows it is approximately 10 cm wide.
<p>Solder Board-Component View 11</p>	 A photograph of the same green PCB component from a different perspective, showing a USB Type-A connector and a USB Type-B connector. The board is placed on a blue textured surface. Two metal rulers are used for scale: one vertical ruler on the left and one horizontal ruler at the bottom. The vertical ruler shows the board is approximately 10 cm high, and the horizontal ruler shows it is approximately 10 cm wide.

<p>Solder Board-Component View 12</p>	 <p>A photograph of a small green printed circuit board (PCB) component, identified as 'Solder Board-Component View 12'. The component is rectangular and features several surface-mounted components, including a black integrated circuit (IC) and several small resistors. It is placed on a blue textured surface next to a metal ruler for scale. The ruler shows the component is approximately 1.5 cm wide and 1.0 cm high.</p>
<p>Solder Board-Component View 13</p>	 <p>A photograph of the same green PCB component, identified as 'Solder Board-Component View 13'. This view shows the component from a different angle, highlighting a USB-A port and a USB-B port. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows the component is approximately 1.5 cm wide and 1.0 cm high.</p>
