

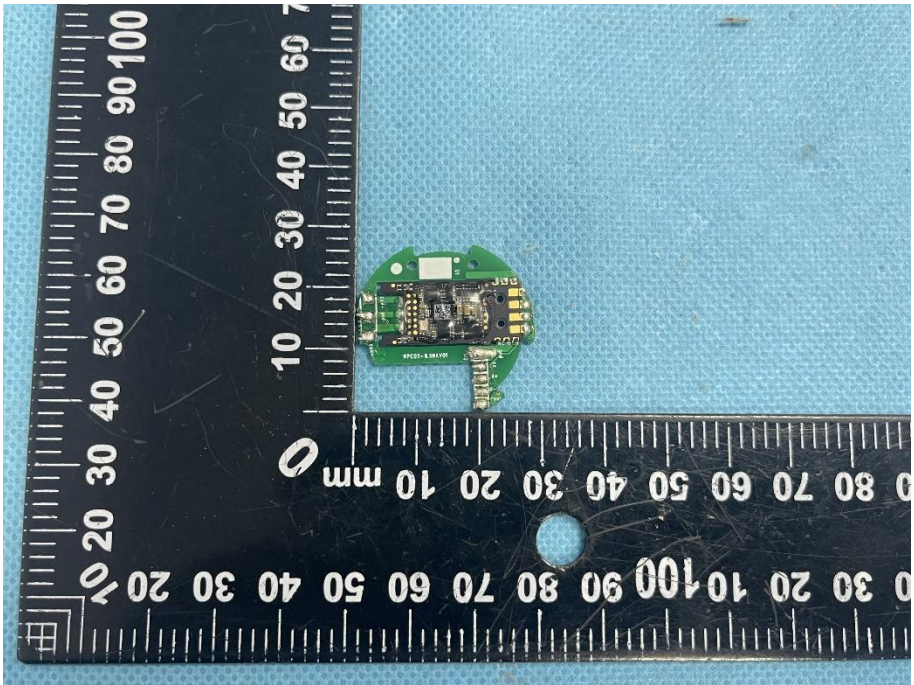

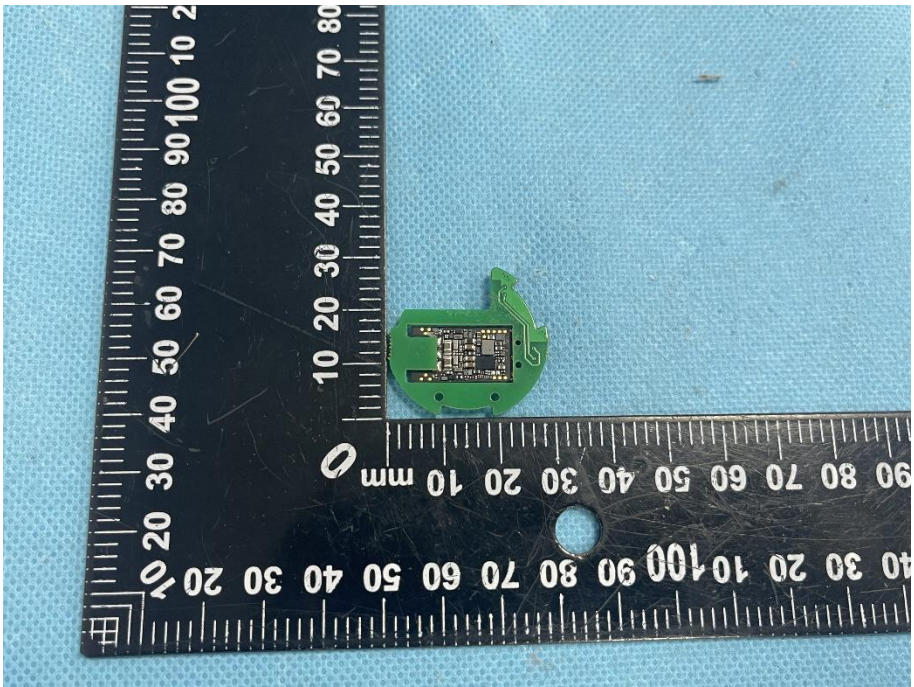

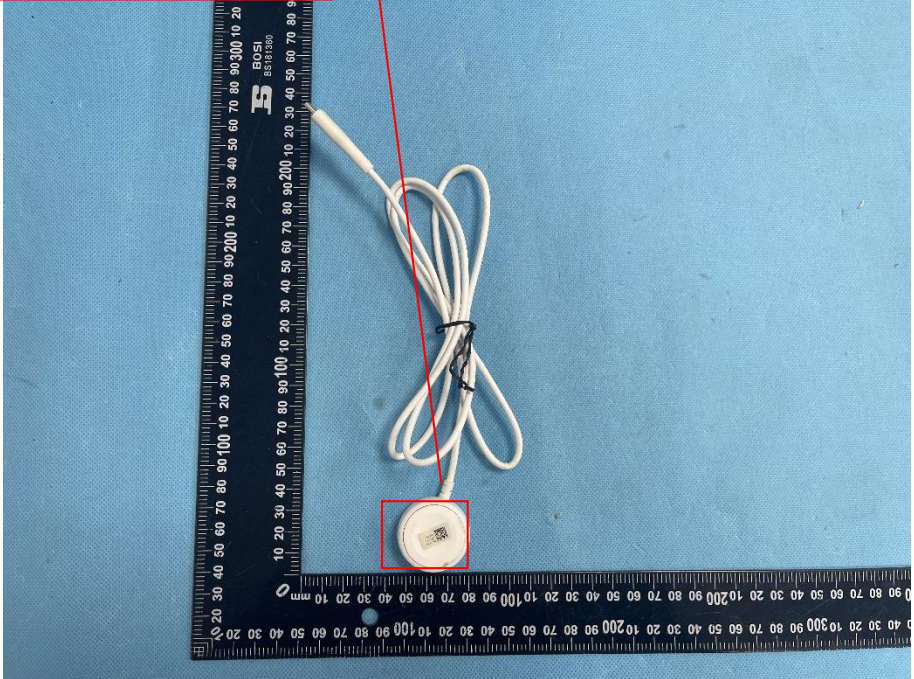

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the EUT housing and board. A white cable is connected to a small green PCB. The PCB is placed next to a white circular housing cap. A black ruler with white markings is visible in the background for scale.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the soldered board component. The green PCB is shown with various components and solder joints. A black ruler with white markings is visible in the background for scale.</p>

<p>Solder Board-Component View 2</p>	 A photograph of a small green printed circuit board (PCB) component, likely a solder board component, placed on a blue textured surface. A black ruler with white markings is positioned vertically and horizontally next to the component for scale. The ruler shows measurements in millimeters, with the vertical scale ranging from 0 to 100 mm and the horizontal scale from 0 to 100 mm. The component is roughly rectangular and has some electronic components and traces visible on its surface.
<p>Antenna View</p>	<p>Wireless Charging Antenna</p>  A photograph of a white wireless charging antenna cable. The cable is coiled and has a white connector at one end. A red box highlights the connector, and a red line points from the text "Wireless Charging Antenna" to it. A black ruler with white markings is placed vertically and horizontally next to the cable for scale. The ruler shows measurements in millimeters, with the vertical scale ranging from 0 to 100 mm and the horizontal scale from 0 to 100 mm. The antenna is roughly circular and has some markings on its surface.
