

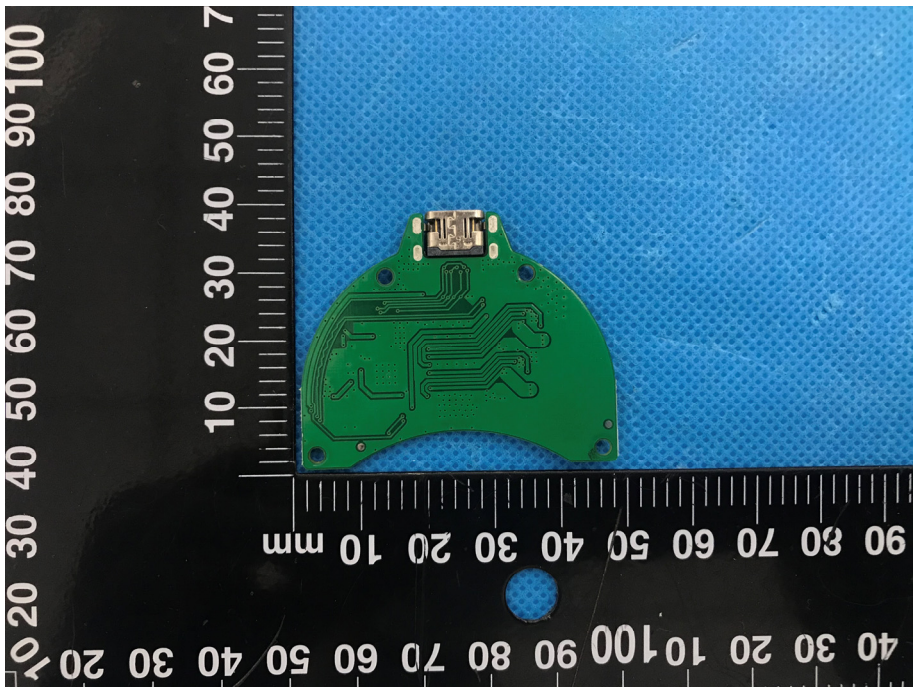

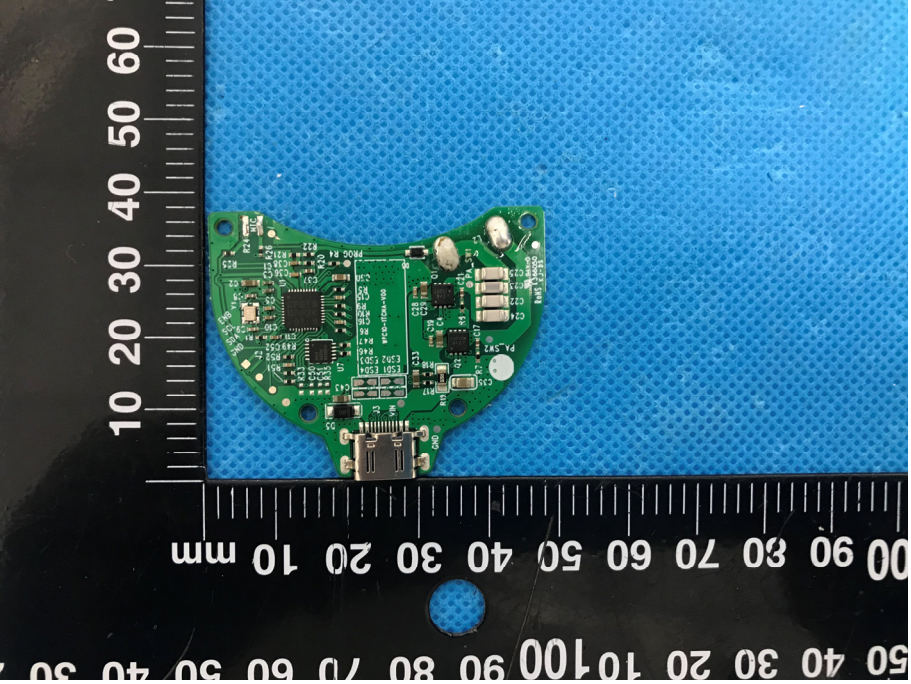

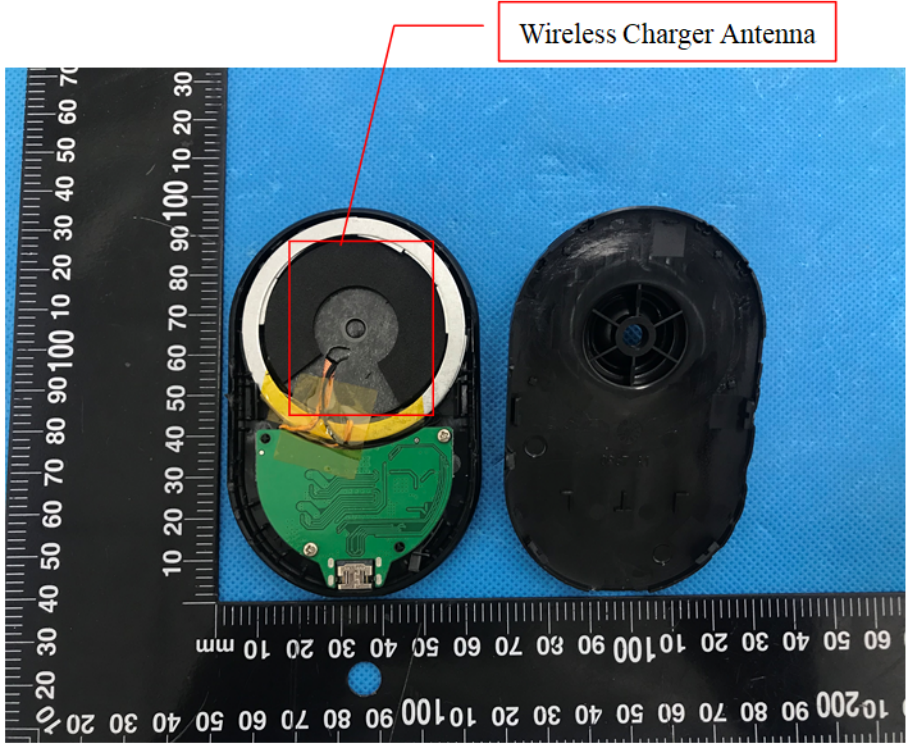

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the internal components of an EUT. On the left, the black plastic housing is open, revealing a green printed circuit board (PCB) with various electronic components and a yellow battery. On the right is the closed black plastic housing. A black ruler with white markings is placed vertically and horizontally to provide scale. The vertical ruler on the left shows markings from 0 to 100 mm. The horizontal ruler at the bottom shows markings from 0 to 100 mm. The background is a blue textured surface.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the green PCB component. The board features a USB connector at the top and various traces and components. A black ruler with white markings is placed vertically and horizontally for scale. The vertical ruler on the left shows markings from 0 to 100 mm. The horizontal ruler at the bottom shows markings from 0 to 100 mm. The background is a blue textured surface.</p>

<p>Solder Board-Component View 2</p>	 <p>A photograph of a green printed circuit board (PCB) component, likely a wireless charging antenna, resting on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 60 mm. The component is irregularly shaped and populated with various electronic components, including a large central chip, several smaller surface-mount components, and a USB connector at the bottom. The PCB has numerous labels and markings.</p>
<p>Antenna View</p>	 <p>A photograph showing the internal components of a device, likely a mouse, with the green PCB from the previous view visible. A black plastic housing is partially disassembled, revealing the internal structure. A red box highlights a circular component on the PCB, which is labeled "Wireless Charger Antenna" with a red line pointing to it. A black ruler with white markings is positioned vertically to the left of the device, showing measurements from 0 to 100 mm. The background is a blue textured surface.</p>
