

<p style="text-align: center;">Solder Board-Component View 1</p>	 <p>A photograph showing the top view of a green printed circuit board (PCB) with two circular silver-colored components. The components are connected to the board with yellow and white solder. A black ruler with white markings is placed below the board for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The board is placed on a blue textured background.</p>
<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph showing the bottom view of the same green PCB. Two circular silver-colored components are visible, which appear to be the reverse side of the components shown in View 1. The board is connected to a connector at the bottom. A black ruler with white markings is placed below the board for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The board is placed on a blue textured background.</p>
