

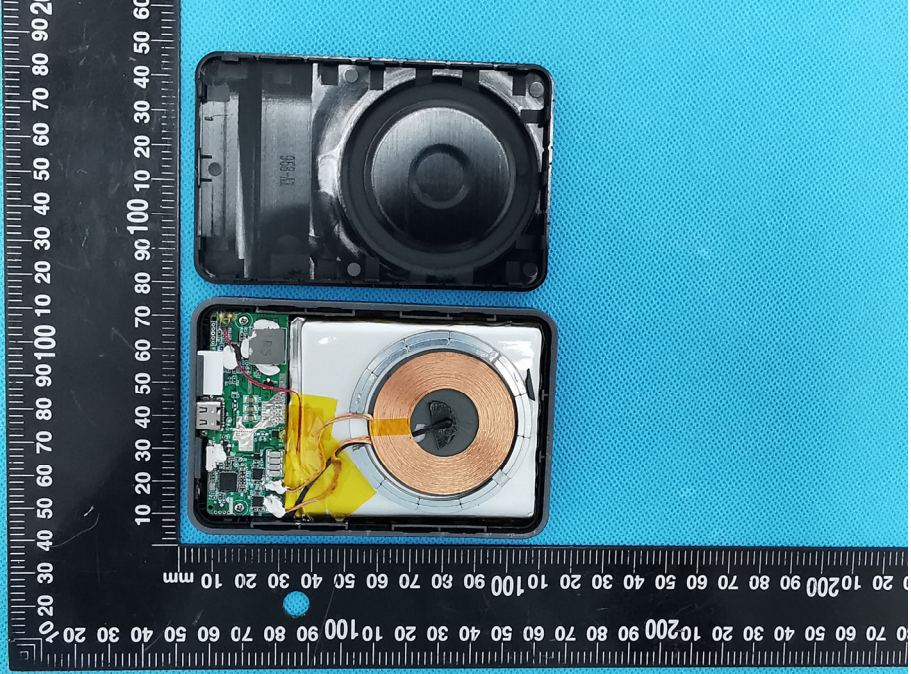

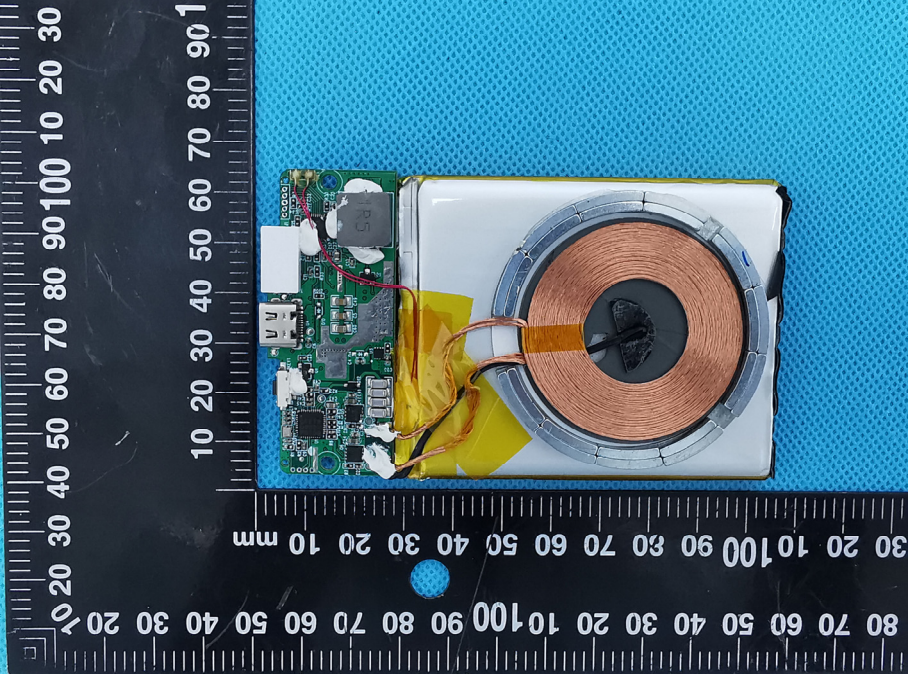

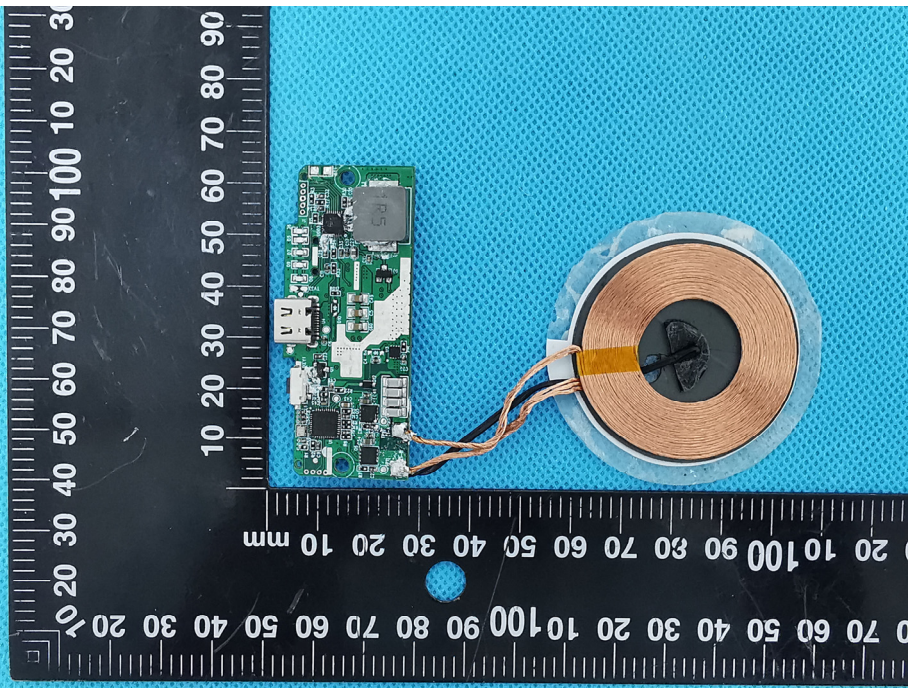

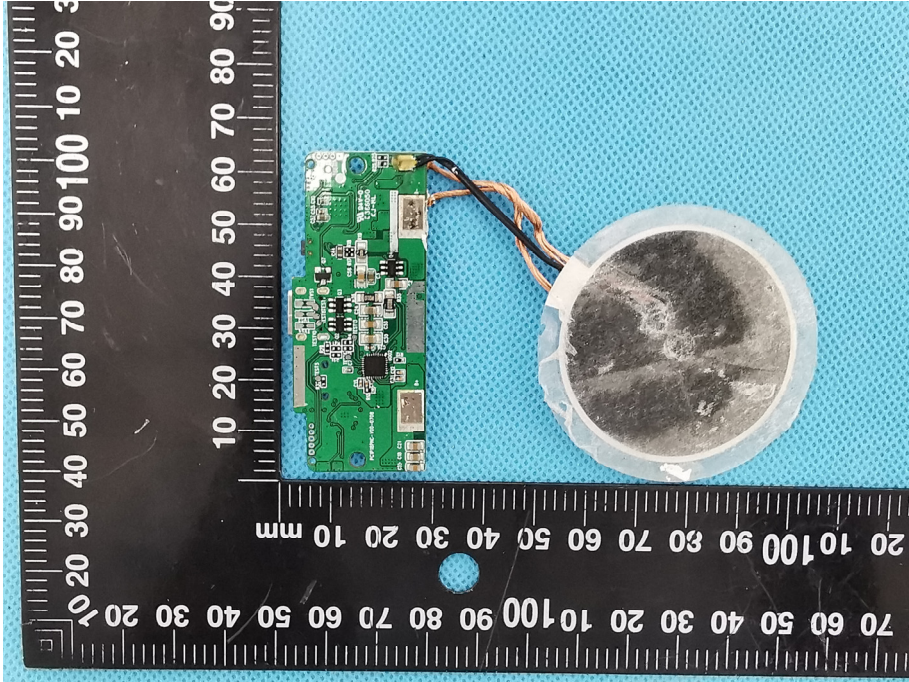

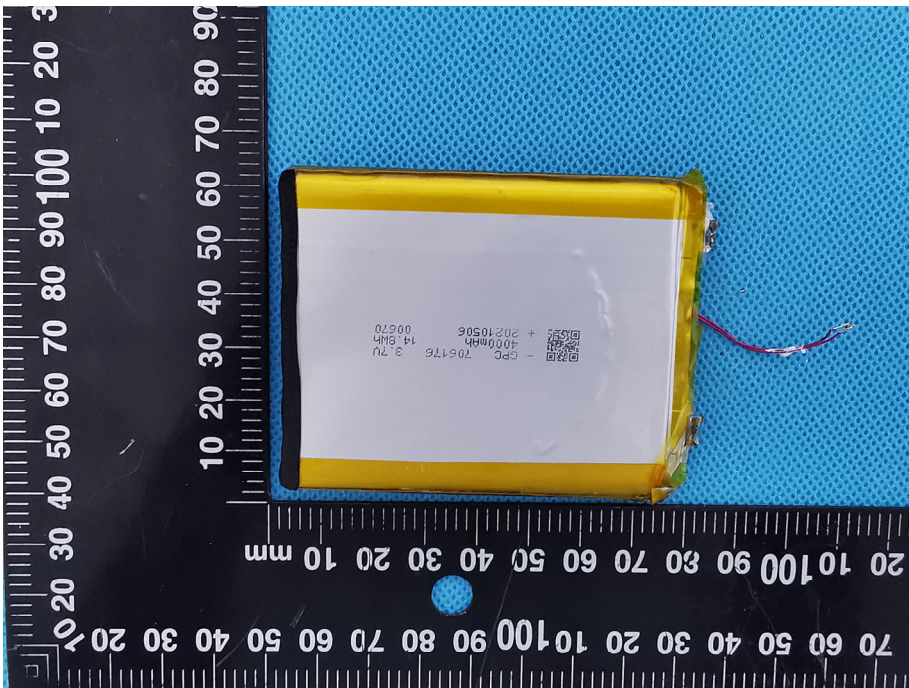

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the internal components of the EUT housing and board assembly. On the left is the black plastic housing, and on the right is the green printed circuit board (PCB) with various electronic components. A large, circular, copper-colored coil is visible on the board. The assembly is placed on a blue textured surface next to a black ruler with white markings for scale.</p>
<p>Solder Board-Component View 1</p>	 <p>This photograph provides a close-up view of the solder board-component assembly. It shows the green PCB with various components, including a large copper coil and a yellow component. The assembly is placed on a blue textured surface next to a black ruler with white markings for scale.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph showing a green printed circuit board (PCB) with various electronic components, including a yellow battery, mounted on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters. The battery label includes the following text: - GPC 706176 3.7V, 4000mAh, 14.5Wh, + 20210506 00270.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph showing a green printed circuit board (PCB) with various electronic components, including a circular copper coil, mounted on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters.</p>

<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph showing a green printed circuit board (PCB) with various electronic components, including a microcontroller and several capacitors. The board is connected to a circular, dark-colored component, possibly a battery or a sensor, which is encased in a clear plastic protective bag. The assembly is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, providing a scale in millimeters.</p>
<p style="text-align: center;">Solder Board-Component View 5</p>	 <p>A photograph showing a rectangular yellow battery pack with a white label. The label contains technical specifications: "3.7V", "400mAh", "14.5mm", "00870", "CPC 706176", and "20210506". A red and white wire is attached to the battery. The battery is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, providing a scale in millimeters.</p>
