

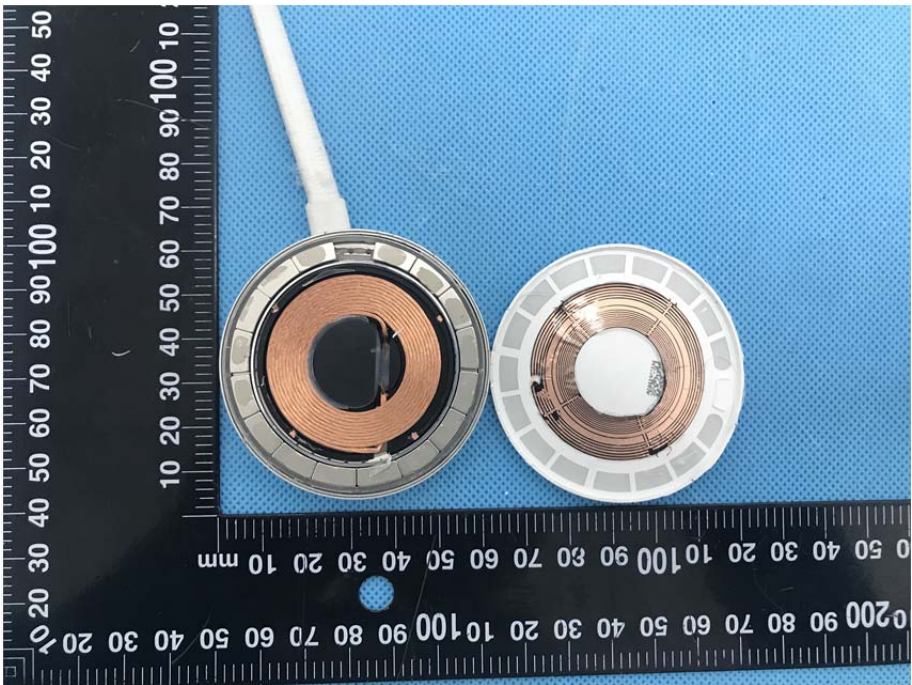

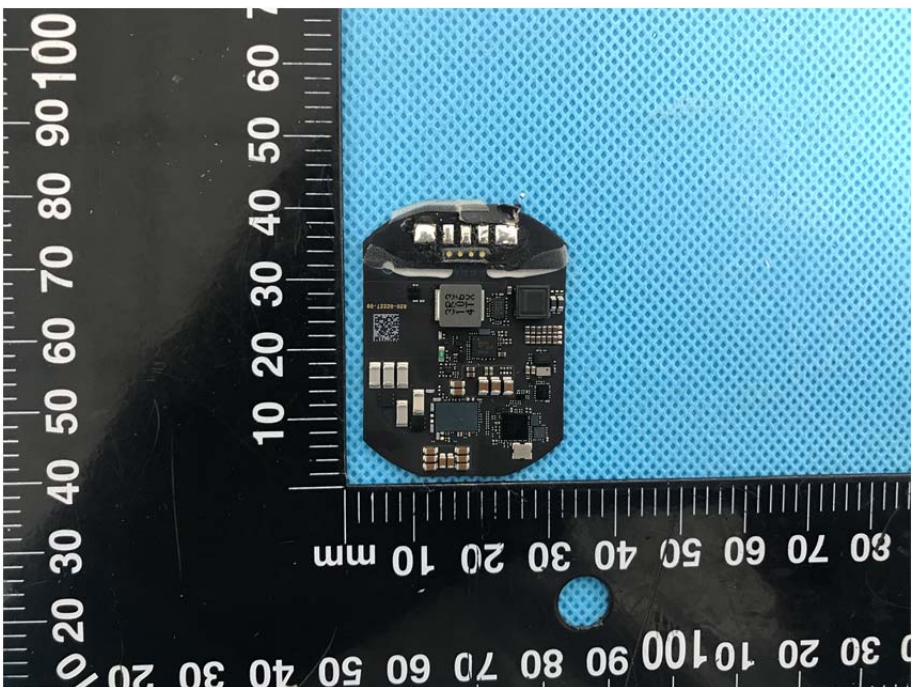

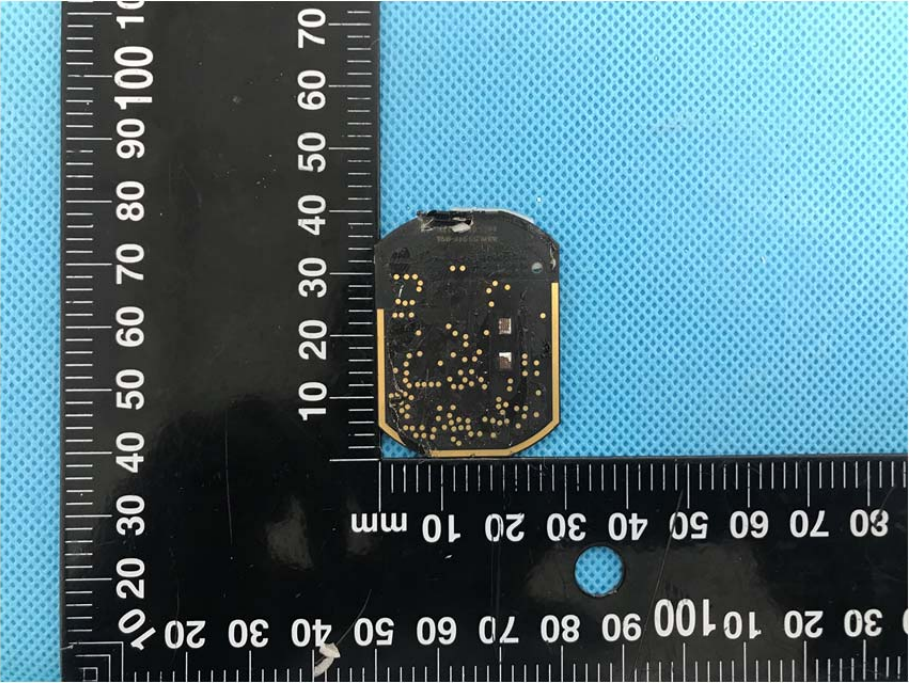

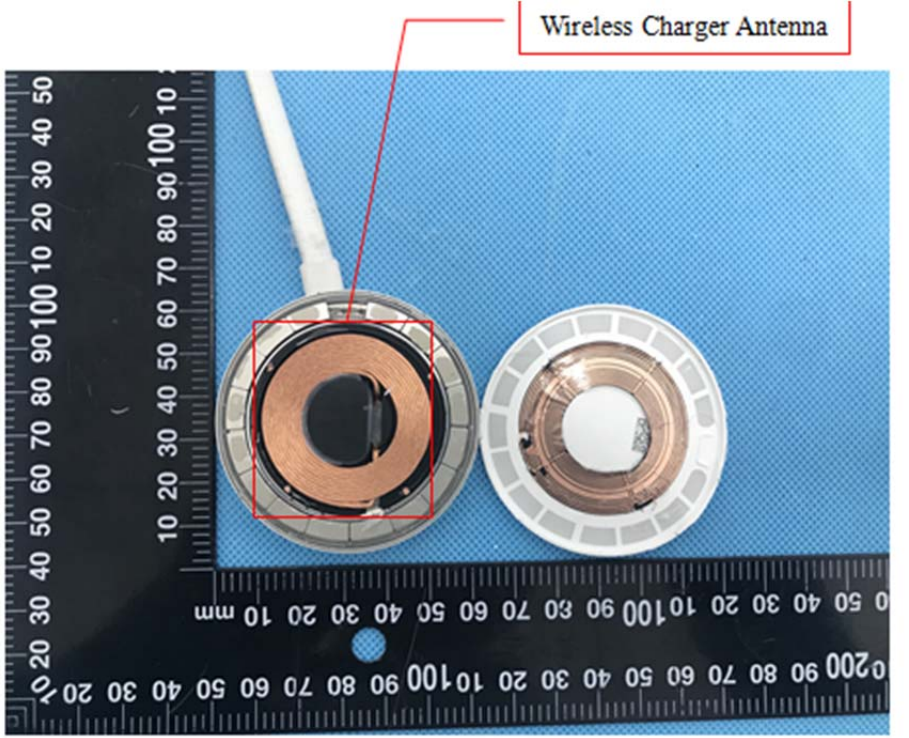

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. Two circular copper coils are visible, one on the left and one on the right, both mounted on a white substrate. A white cable is connected to the left coil. The components are placed on a blue textured surface. A black ruler with white markings is positioned below the components, showing measurements in millimeters.
Solder Board-Component View 1	 A photograph showing the solder board component. The component is a small, rectangular black PCB with various electronic components, including a large integrated circuit, resistors, and capacitors. It is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph showing a small, rectangular, black component with gold-colored solder pads, placed on a blue textured surface. A black ruler with white markings is visible in the background, indicating the component's size.
Antenna View	 A photograph showing two circular components, likely antennas, placed on a blue textured surface. A black ruler with white markings is visible in the background. A red box highlights the left antenna, and a red line points to it from the text "Wireless Charger Antenna" in a red box.
