

John Deere WiFi Camera 100

QUICK INSTALLATION GUIDE GUIDE D'INSTALLATION RAPIDE

01

Download the free iSecurity+ mobile app from the App Store or Google Play.

Téléchargez l'appli mobile iSecurity+ dans l'App Store ou Google Play.

02

Plug the enclosed power adapter into the WiFi camera and then into a power outlet.

Branchez l'adaptateur de courant inclus dans la caméra WiFi et dans une prise de courant.

03

Flip the switch on the back of the WiFi camera to "Setup" position. In about 1-2 minutes, the top LED light will change to solid green.

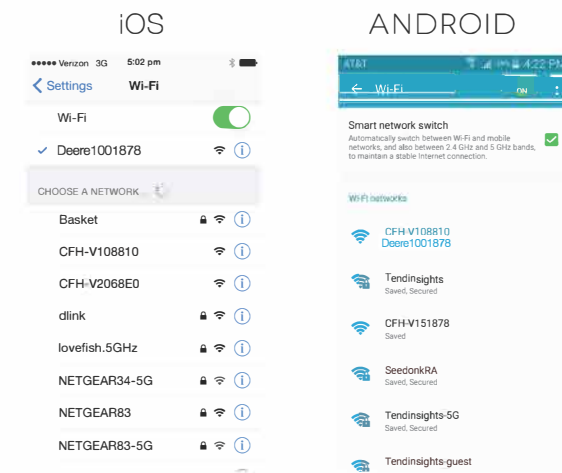

Placez le commutateur situé à l'arrière de la caméra WiFi à la position « Setup ». Après environ 1 à 2 minutes, l'indicateur lumineux à DEL du haut passera au vert constant.

04

Make sure your home WiFi network is on. Go to WiFi settings on your mobile device and connect to the network labeled "Deere100XXXX" (last 4 digits of the camera's MAC ID).

Assurez-vous que votre réseau WiFi résidentiel est actif. Allez aux réglages WiFi de votre appareil mobile et connectez-le au réseau nommé « Deere100XXXX » (quatre derniers chiffres du MAC ID de la caméra).

05

Wait up to 30 seconds, then launch the iSecurity+ app. When prompted, click "Yes" to proceed. The setup wizard will guide you through the remainder of the setup process.

TROUBLESHOOTING: If you don't see the setup prompt, please close and re-launch the app. Attendez jusqu'à 30 secondes et lancez l'appli iSecurity+. Lorsque vous voyez le message-guide, cliquez « Oui » pour continuer. L'assistant de configuration vous guidera au fil des étapes restantes du processus de configuration. DÉPANNAGE: Si vous ne voyez pas le message-guide de configuration, veuillez fermer et relancer l'appli.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement
To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body. Use only the supplied antenna.
