Product Introduction

Lenovo W20 Wireless Transmitter is a device that wirelessly projects the images on computers and mobile phones to other screens. The images can be displayed in copying or expanding mode or on the screen of the receiving devices only. Users can use it without installing any drivers and software. If you touch the projected image, you can control the computer. It supports Type-C (including display signal) and HDMI interface. It can be connected through multi-lanes and allows for free switching.

Appearance of the projector

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

To comply with FCC RF exposure compliance requirements, this grant is applicable to only mobile configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

For Remote control

Caution:

- (i) The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

Instructions for product use

Pairing with the big screen

When using the projector to project the image on a big screen, users should pair the projector with the big screen (electronic whiteboard) by taking the following steps:

1. Open the big screen.
2. Plug the adapter on the projector into the USB-C adapter.
3. Plug the USB-A adapter into the USB port on the side of the large screen.
4. Wait for the big screen to automatically pair.
5. If the pairing is successful, "Plug & Share device pairing is successful" will be displayed on the big screen.

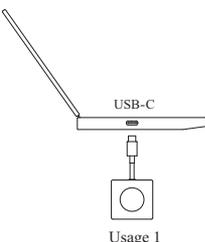

Note: Pairing only needs to be done once. If you change the hotspot setting of the large screen, you need to pair again.

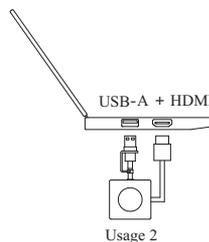

Screen projection

Screen projection can be done through two ports, and the steps are as follows:

1. Plug the USB-C or USB-A+HDMI plug of the projector into the corresponding port of the laptop.
2. With the successful connection between the projector and the large screen, the indicator light on the projector will turn white and flash on and off.
3. Press the button in the middle of the projector to project the screen of the laptop onto the big screen, and the indicator light will turn white and be always on.
4. Press the middle button of the projector again to terminate screen projection.

Product specification

product name	Lenovo W20 Wireless Transmitter
product model	Lenovo W20
Interface	USB-C, HDMI
Supporting systems	Any system
Transmission resolution	1080P
Transmission frame rate	30fps
Touch to return control	Supportnterstützt
WIFI type	2.4G/5G
Wireless Transmission Protocol	IEEE 802.11a/b/g/n/ac
Encryption	AES
Authentication protocol	WPA2-PSK

Attached table

To abide by the laws, regulations and other requirements related to the restriction of harmful substances in electronic and electrical products in China, Lenovo Company classifies the harmful substances in this product according to components and makes the following statement.

Name and content of toxic and harmful substances or elements in this product:

Component name	Schadstoffe					
	Lead (pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr(VI))	Polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)
printed circuit	X	○	○	○	○	○
Case and accessories	X	○	○	○	○	○

This table is made according to SJ/T 11364.

O: indicating that the harmful substance in all homogeneous materials of the component is within the limit of the content specified in GB/T 26572.

X: indicating that the harmful substance in at least one homogeneous material of the component exceeds the limit of the content specified in GB/T 26572. Components marked with "X" in the table cannot be replaced by harmless substances due to the limited global technology.

Printed circuit board components *: including printed circuit boards and components, and electronic components.

Note: Not all models of products contain all the above components.

Electronic products sold within the boundaries of the People's Republic of China must be marked with this mark. The numbers in the mark represent the environmental service life of the product under normal use conditions.
