

Declaration of Model Conformity

February 28, 2012

Federal Communications Commission

Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

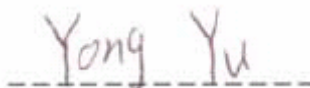

Attn: Equipment Authorization Branch
Ref: Class II Permissive Change for FCC ID A5MWD770

The purpose of this letter is to request a Class II Permissive Change for FCC ID: A5MWD770 .
The products are the same except the 3 items below:

1. Change IC IA2EH to IC IA2S6, keep previous RF, slightly modify appearance and rename the model.
2. Remove IC SA02, due to low receiver's sensitivity enhancement effect.
3. Replace audio effect treatment IC WM8988 with IC ES8388, which has nothing to do with RF.

Respectfully

Lenovo (Beijing) Limited
