## Test Setup

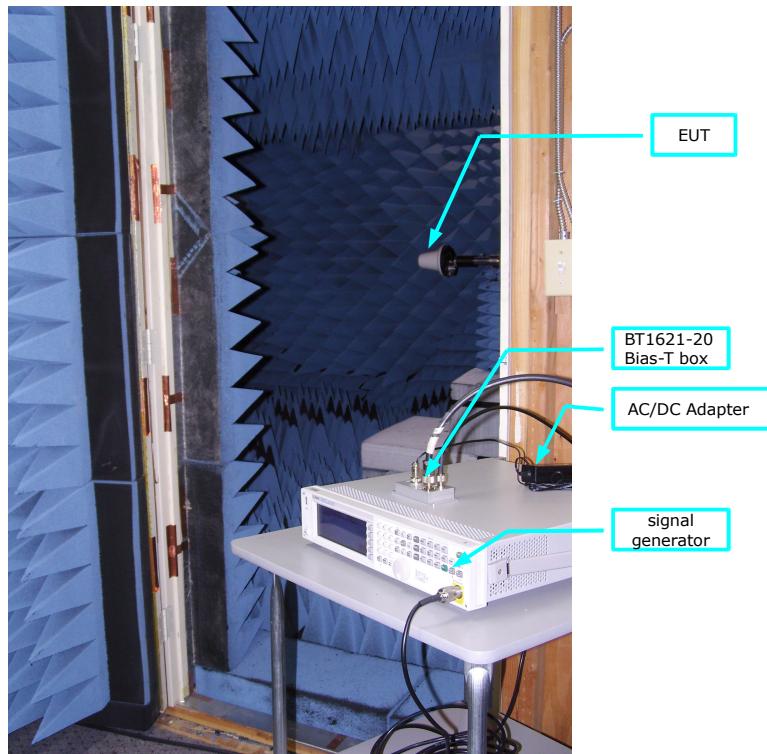

Measurements were performed in an anechoic chamber. A diagram of the test setup is shown in Figure 1. Photographs of the side door and back door are shown in Figure 2 and Figure 3, respectively.

**Figure 1. Diagram of test set up in anechoic chamber. Top view of anechoic chamber. Doors are closed for measurements.**

**Figure 2. Photograph of test setup. View is looking into open back door of anechoic chamber. For actual measurements, door is closed with RF cable passing through the door to the spectrum analyzer.**

**Figure 3. Photograph of test setup. View is looking into open side door of anechoic chamber. For actual measurements, door is closed with RF cable passing through the door to the spectrum analyzer.**
