Subject :Request for Class II Permissive Change  
FCC ID : A6RPDX60A  
Original gant date: February 23, 2009  
Applicant :YAMAHA CORPORATION

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: A6RPDX60A, originally granted on February 23, 2009.

We changed the position of wireless module on the main PWB. So the Parts Layout of the main PWB is changed. Please refer to the Parts Layout and Pattern Layout of Original and Permissive Change model. There is no change for wireless module and firmware of wireless module.

According to the test result, this Permissive Change model is concluded for Class II permissive change.

The product specification is completely same, and it still complies with the FCC Part 15 Subpart C of FCC rules.

Thank you for your attention to this matter.

Sincerely yours,

---

Yasuhiko Asahi
