Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21045

Ref: JL Marine Systems, Inc.'s FCC ID: A7FEA041

To Whom It May Concern:

We would like to supersede the circuit description and label sample in the filing for the above referenced FCC Identifier. The FCC Identifier on the BT Module that is part of the composite filing was listed incorrectly by mistake and the correct circuit description and label sample are being uploaded.

Thank you and if you have any questions, please advise.
