Package contents

- StriimLIGHT light bulb with speaker
- Remote control (with battery) to control light on/off and music volume.
- This instruction guide

Product specifications

- Input power: 100-240V
- Input Current: 0.2A
- Light output power: 6.7 W
- Light bulb E27 socket
- Speaker: 2 inch, 8 Ohm, 10W
- Product dimensions: 111.5 mm x 95 mm
- Weight: 0.4 Kg

Getting started

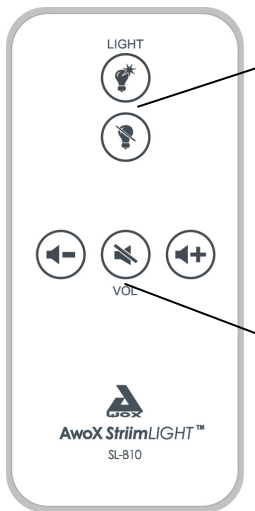

Congratulations and thank you for choosing the StriimLIGHT Bluetooth speaker light. StriimLIGHT contains both a LED light bulb and an audio speaker, giving you the convenience of being able to stream music from nearly any Bluetooth-enabled music player anyplace you can plug in a light bulb!

Note: Setting up the Bluetooth connection depends on your music player. In most cases it is a simple one-step process to connect and play as described here. Check your player's instructions for specific details.

Follow these simple steps to get started with your StriimLIGHT product right away:

1. Before installing StriimLIGHT in your lamp, turn the power off (do not use an external dimmer switch).
2. Screw StriimLIGHT into the socket and turn the light on.
3. Activate Bluetooth on your music player, scan for new Bluetooth devices, and select StriimLIGHT. Your product does not request PIN authentication at this point.
4. Connect to StriimLIGHT ("Connect to audio device" or a similar command, depending on your device).
5. Select a track or playlist and hit PLAY!
6. Sit back and enjoy your music.

Using the remote control

Light **on** and **off** buttons. Use these to play music with the light on or off.

Volume **down**, **mute** and volume **up**

Troubleshooting

If the StriimLIGHT product does not work correctly:

- Check to make sure that the Bluetooth connection is properly established with your music player.
- Do not use any kind of dimmer switch other than the provided remote control unit.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canada Statement

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.
