

Caution

1. Do not disassemble or throw into fire or water.
2. Do not expose to extreme weather conditions.
3. Do not place close to a magnetic strip or strip card as it could cause magnetic failure.
4. Please keep charger a safe distance of at least 80cm from any implantable medical devices to avoid medical device interference.
5. This is not a toy and should be kept away from children.
6. In the case of the device overheating, please disconnect immediately.

This symbol on the product indicates that this product shall not be treated as household waste. Instead it shall be sent to the applicable collection point for the recycling of electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health. For more information about the recycling of this product, please contact your local city office.

Australian Consumer Law

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

- This product is for household use only. If the product is used in a commercial environment, the warranty period will be automatically reduced to three (3) months.
- Cygnett warrants that, with normal use or service, the product will be free from faulty parts, manufacture or workmanship.
- The warranty does not apply where damage is caused by other factors, e.g. mishandling, abuse, accident or failure to follow operating instructions.

POWERBASE II 10W WIRELESS CHARGER

USER MANUAL

- A Wireless Charging Output
- B Integrated Cable

FCC compliance statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Installation Instructions

1. Using the integrated cable provided (B), insert the USB-A end into your power adaptor (not included).
2. Place your wireless charging device on the wireless charging output (A), making sure it is positioned in the centre of the wireless charging disc.

Troubleshooting

To achieve fast charging, please ensure you are using a charger that is capable of supporting QC 3.0 charging protocol. For optimum charge speed, adjust your device so that it is aligned to the centre of the wireless charging output (A). Please ensure that the case on your phone is not affect the wireless charging by removing it and checking the performance. Some cases interfere with wireless charging if they contain metallic material or are overly thick.

Product Specifications

Name	PowerBase II Wireless Charger
Item Number	RWC39 RWC39A RWC39B
Input	5V $\overline{=}$ 3A (15W) 9V $\overline{=}$ 2A (18W)
Wireless Output	5W 7.5W 10W
Total Output	10W Max
Working Frequency Bands (Wireless Charger)	119.2kHz-203.6kHz H-field: -17.21dB μ A/m at 10m
