Kanagawa-ken, Japan.

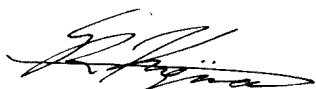

July 17, 2002

Hello.
Mr. Johnson.

I have answer for your comments.

1. Wloud you please check the Attached file.
And, it seems by your mail that FCC ID is "A7RM2BOB".But, I applied with
"A7RM2B0B".Won't you modify it? (0=Zero)
2. Wloud you please check the Attached file.
3. Wloud you please check the Attached file.
4. Front design varies in that 4 model according to each.
5. I am sorry. The indication of the report was wrong. A modification page is sent.
And, Noise Figure Indicator and Noise Source are calibration period is two years. There is
no problem in these.
6. A margin beyond 20dB can be taken as the top from 2GHz.
7. The matching pad value is containe d in "C.FACTOR".

Ryo Kojima

A handwritten signature in black ink, appearing to read 'Ryo Kojima', written over a series of diagonal lines.
