Re: FCC ID: A8DAIRGEN-1

To Whom It May Concern:

The following application is submitted on behalf of our client, Clarion Corporation of America, for evaluation of their model P11-DL0000 for a new single certification under FCC Part 15.255.

The device is an in-cabin vehicular radar used for intrusion detection and living object detection such as children left behind inside vehicle cabin. Device operates under FCC waiver DA 21-811 and meets all the requirements of the waiver.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely

A handwritten signature in blue ink that reads 'Jeff Woods'.
