

GaN Fast Charger manual

I. Summary and precautions

This product is a gallium nitride fast charger with AC-DC conversion function, and connects to the grid power supply through a direct plug to power information technology equipment.

Outlet outlets should be installed near the equipment and should be easily accessible, the equipment should not be exposed to dripping or splashing, and liquid filled objects (such as vases) should not be placed on the equipment.

Before using this product, please check that the operating voltage, output voltage polarity, power and DC plug size of the power supply comply with the above technical data.

warning:

Use indoors only, prevent rain, do not use after the shell is cracked.

This product is only suitable for people over 14 years old, not to be used as a toy.

Only suitable for use in areas below 2000 meters above sea level

Only suitable for use in non-tropical climates

Maximum indoor ambient temperature: 25°C

II. Electrical specifications

Model: Dipow-65

Input: AC 100-240V 50/60Hz 1.8A Max

Output Type-C1 :DC 5V 3A/9V 3A/12V 3A/15V 3A/20V 3.25A(65W Max)

Output Type-C2 :DC 5V 3A/9V 3A/12V 3A/15V 3A/20V 3.25A(65W Max)

Output USB-A:DC 5V 3A/9V 2A/12V 1.5A(18W Max)

Output Type-C1+Type-C2:45W+20W(65W Max)

Output Type-C1+USB-A:45W+18W(63W Max)

Output Type-C2+USB-A:15W Max

Output Type-C1+(Type-C2+USB-A):45W+15W(60W Max)

III . Manufacturer: Shenzhen Divoom Technology Co., LTD.

Address: 1st Floor, 5th Building, Xinlianhe Industrial Park, Jincheng Road, Shajing Town, Bao'an, Shenzhen, China

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
