## END USER LICENSE AGREEMENT

### Bose Corporation

**IMPORTANT: READ CAREFULLY:** This End User License Agreement (“EULA”) is a legal agreement between you, the End User (“End User” or “you”), and Bose Corporation (“Bose”) governing your use of the technology and software and data and data content belonging to Bose, its vendors and licensors (“Technology”) that is contained in this audio/video device (“System”). By using this System, you are agreeing to be bound by the terms of this End User License Agreement (EULA). If you do not agree to these terms do not use the associated features.

Copyright laws and international copyright treaties, as well as other intellectual property laws and treaties protect the Technology contained within this System. The Technology is being licensed, not sold. This EULA grants you the right to use the Technology only on this Bose System. You may NOT transfer, lend, distribute, prepare derivative works, reverse engineer, de-compile, or disassemble the Technology, except and only to the extent that applicable law expressly permits such activity. You agree that you will use the Technology and the System solely for your own personal non-commercial use.

The Technology contains software that allows you to obtain vendor-supplied music-related information, including name, artist, track, and title information (“Data”). You may use Data only by means of the intended End User functions of the Technology. You agree not to assign, copy, transfer or transmit such Data to any third party. **YOU AGREE NOT TO USE OR EXPLOIT DATA EXCEPT AS EXPRESSLY PERMITTED HEREIN.**

You agree that your non-exclusive license to use the Technology will terminate if you violate these restrictions. If your license terminates, you agree to cease any and all use of the Technology and/or Data. Bose, its vendors and licensors reserve all rights in the Technology, including all ownership rights. You agree that the vendors and licensors of Bose may enforce their rights under this EULA directly in their own name.

**BOSE, ITS VENDORS, AND ITS LICENSORS HEREBY DISCLAIM ALL WARRANTIES, EXPRESS, IMPLIED, AND STATUTORY, IN CONNECTION WITH THE TECHNOLOGY, INCLUDING WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT OF THIRD PARTY RIGHTS, AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL BOSE, ITS VENDORS, OR ITS LICENSORS BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING FROM THE USE OR INABILITY TO USE THE TECHNOLOGY. IN NO EVENT SHALL BOSE BE LIABLE FOR ANY DAMAGES.**

None of the Technology shall be exported or re-exported in violation of any export provisions of the United States or any other applicable jurisdiction. Any attempt to sublicense, assign or transfer any of the rights, duties or obligations hereunder shall be void. This EULA shall be governed by and interpreted under the laws of the Commonwealth of Massachusetts, without regard to its conflicts of law provisions.

**YOU ACKNOWLEDGE THAT YOU HAVE READ AND UNDERSTAND THIS EULA AND AGREE TO BE BOUND BY ITS TERMS. YOU FURTHER AGREE THAT THIS EULA IS THE COMPLETE AND EXCLUSIVE STATEMENT OF THE AGREEMENT BETWEEN YOU AND**

**BOSE AND SUPERCEDES ANY PROPOSAL OR PRIOR AGREEMENT, ORAL OR WRITTEN, AND ANY OTHER COMMUNICATIONS RELATING TO THE SUBJECT MATTER OF THIS EULA.**

# Chapter 1

# Overview

## Introduction

Keeping with the tradition of high style, performance, and excellence, Ferrari has fitted this model with a premium Audio/Navigation system by BOSE. The Media Center combines classic styling with leading edge technology to provide a total sensory experience like no other.

The Bose Media Center's attention to simplicity and functionality, combined with a long list of options and features, places it at the top of all auto media systems today.

This manual will guide the operator through all functions and settings that are available on the Bose Media Center. Refer to the following sections and chapters to personalize the system to your specific needs and wants. Bose specifically keeps you in mind during the design phase so you can tailor the system personally to maximize your enjoyment.

# System Overview

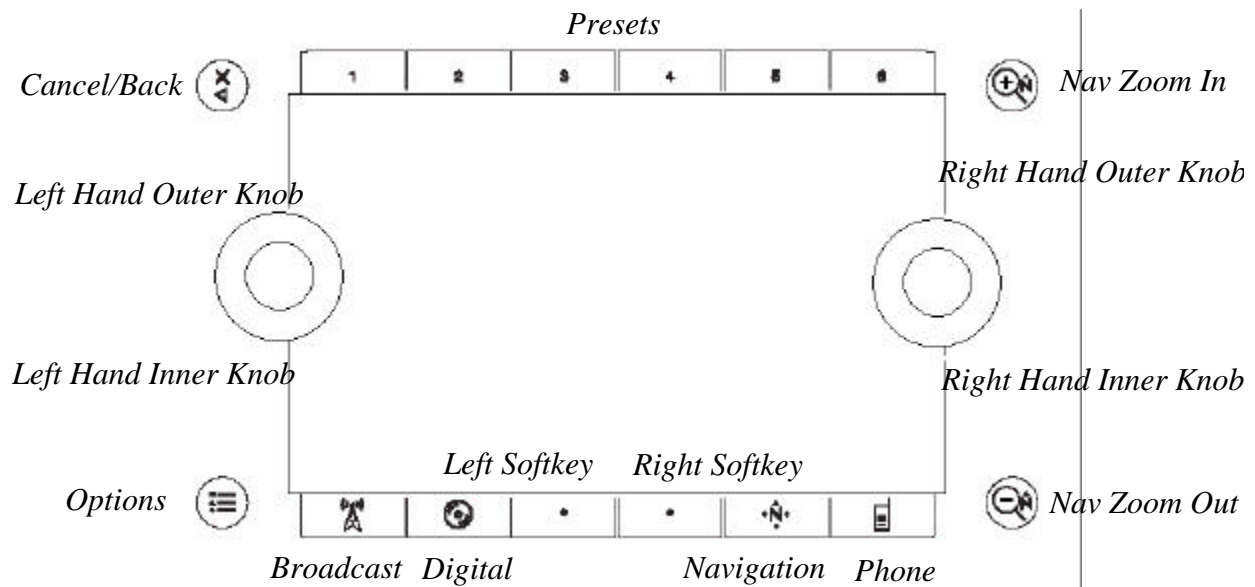

Figure 1-1 System Display

Functionality for each of the Knobs, Buttons, and Softkeys will change with each screen being accessed. [Figure 1-1 System Display](#) gives a brief overview of the names and terminology that will be used throughout this manual. Each function will be explained in detail in the following chapters.

- Left Hand Inner Knob - Mode-Dependent
- Left Hand Outer Knob - Mode-Dependent
- Right Hand Inner Knob - Mode-Dependent
- Right Hand Outer Knob - Mode-Dependent
- Preset Button 1-6 - Stores commonly used stations
- Cancel/Back - Cancels current action or moves action back to previous screen
- Options - Provides access to the option screens

-  Nav Zoom In - Zooms in on Navigation Map
-  Nav Zoom Out - Zooms out of Navigation Map
-  Broadcast - Displays choices for broadcast sources
-  Digital - Displays choices for digital sources
-  Left Softkey - Mode-Dependent
-  Right Softkey - Mode-Dependent
-  Navigation - Displays navigation functions
-  Phone - Displays phone functions

The system will display the current information via the **Source Information Display**. The display is activated by touch of the Right Hand Knob. The knob senses the operators presence, then enlarges and moves the display to the center of the screen. When the operator retracts, the display returns to its home position at the bottom of the screen. While the screen is enlarged, icons will appear at the right to allow navigation through the available categories for the active source. Use the Outer Right Hand Knob to change these categories, then use the Inner Right Hand Knob to scroll through the selections in that category; pressing the inner button will activate the selection. This process is repeated as the options progress.

The Source Information display will:

- Display the Source or Media Type currently in use.
- Display the Station selected (broadcast and XM).
- Display Artist, Album, Genre, and Song Title (dependent on Sort Mode)
- Display Alphabetical Grouping (dependent on Sort Mode)
- Display Digital Music Timer

*Figure 1-2 Source Information Display*

## General System Functions

### **Power ON/OFF**

To turn the Media Center ON, press the Right Hand Inner Knob, this will apply power to the system.

To turn the Media Center OFF, press and hold the Left Hand Inner Knob for three seconds, this will power down the system.

### **Volume Control**

#### **Primary Audio Source**

Rotate the Left Hand Inner Knob to control the overall volume for the active entertainment source.

Rotate the Left Hand Outer Knob to toggle the volume control to the following individual sets:

- Overall Bose System (default)
- Custom (user defined, see Audio Options)
- Front Speakers
- Rear Speakers

The volume can then be adjusted individually for each of the above options.

#### **Secondary Audio Source**

The left hand Inner Knob will also control the volume for the following audio events only when that event is active.

- Ring Tone of Incoming Call
- Traffic Announcement
- Phone Call Audio
- Navigation Prompts
- System Voice Announcements

Adjusting the volume when any of the above actions are active will increase the volume for that event only, the overall system volume for the primary audio source will not be affected.

#### **Volume Auto Adjust**

The Media center is equipped with an automatic volume adjust. This will adjust the volume levels in relation with current environmental factors such as road noise and vehicle speed.

**Note:** *There is no user interaction required to utilize this feature.*

## **Volume Control (Steering Wheel)**

All of the above functions are available via the Volume Control located on the steering wheel of the vehicle.

- Press and hold the volume up/down button to increase or decrease the volume of the system.

## **Mute**

To mute the entire Media Center, press the Left Hand Inner Knob, to turn off the mute function, press again.

***Note:** This will only mute the system, it will not pause the current media.*

## **Bass**

To adjust the Bass settings, see the Audio Options section of this manual.

## **Treble**

To adjust the Treble settings, see the Audio Options section of this manual.

## **Balance**

To adjust the Balance settings, see the Audio Options section of this manual.

## **Fade**

To adjust the Fade settings, see the Audio Options section of this manual.

## Chapter 2

# Broadcast Sources

To gain access to the Broadcast Sources of the Media Center, press  .

The sources available in this mode are:

-  AM Broadcast
-  FM Broadcast
-  XM Satellite Radio
-  TV Broadcast

## Broadcast General Functions

### **Preset Buttons**

To select a Preset Station, press the desired **Preset Button** at the top of the system. The station frequency will be shown for each preset station.

*Figure 2-1 Preset Buttons*

**Note:** *If more than 6 presets are used, **Preset Buttons 1 and 6** will become arrows allowing the operator to scroll left and right to access additional presets.*

To set a station to a preset:

1. Tune the system to the station you would like to store as a preset.
2. Hold the desired **Preset Button** in for 2 seconds.
3. This station is now stored.

### **Scan stations using the Scan Softkey**

To scan stations for the current active mode:

1. Press the **Scan Softkey**, the system will scan for stations that meet the criteria set by the sort mode.(Signal Strength, Genre, etc.).
2. Press the **Scan Softkey** again to stop scan.

### **Select Stations Using Voice Commands**

- 
-

## **AM FM** AM/FM Sources

Choose the **AM** or **FM** icon on the Broadcast Selection screen.

*Figure 2-2 Broadcast Selection Screen*

The Media Center is now in **AM** or **FM Mode**.

### **AM/FM Specific Functions**

While in **AM/FM Mode** the operator can perform the following actions.

#### ***Tuning by Frequency or by Signal Strength***

To tune the system using the Frequency or Signal Strength options:

1. Select the **All Frequencies** or **Signal Strength** icon by rotating the Outer Right Hand Knob.
2. Rotate the **Inner Right Hand Knob** to select a station.

The Media Center will then tune to the highlighted selection.

## ***Tuning By Genre***

The following genre categories selections are only available in **FM Mode**.

- Rock
- Classic Rock
- Adult Hits
- Oldies
- Country
- Rhythm and Blues
- Public

To tune the system using genre categories:

1. Rotate the Outer Right Hand Knob until the desired Genre selection is highlighted.
2. Then rotate the Inner Right Hand Knob to select a station from that set.
3. The Media Center will tune to the highlighted selection.

## ***Activating Traffic Announcements***

Press the **Traffic Softkey** to turn Traffic Announcements ON/OFF. When a Traffic announcement is picked up, the system will automatically tune to the station with the announcement.

[What happens when alert done?](#)

## XM Satellite Radio

Choose the **XM** icon on the Broadcast Selection screen.

*Figure 2-3 Broadcast Selection Screen*

The Media Center is now in **XM Satellite Radio Mode**.

### **XM Specific Functions**

While in **XM Satellite Radio Mode** the operator can perform the following actions.

#### ***Tuning by Channel***

To tune the system manually in **XM Mode**:

1. Select the **All Channels** icon by rotating the Outer Right Hand Knob.
2. Rotate the Inner Right Hand Knob to select a station.

The Media Center will then tune to the highlighted selection.

#### ***Tuning by Genre***

The following genre selections are only available in **XM Mode**.

- Rock
- Classic Rock
- Adult Hits
- Oldies
- Public

To sort stations by **Genre**:

1. Select the **Genre** desired by rotating the Outer Right Hand Knob.
2. Rotate the Inner Right Hand Knob to select a station.

The Media Center will then tune to the highlighted selection.

 **TV Broadcast**

Choose the TV icon on the Broadcast Selection screen.

*Figure 2-4 Broadcast Selection Screen*

The Media Center is now in **Broadcast TV Mode**.

## **Broadcast TV Specific Functions**

While in **Broadcast TV Mode** the operator can perform the following actions.

### ***Tuning TV Stations***

# Chapter 3

## Digital Sources

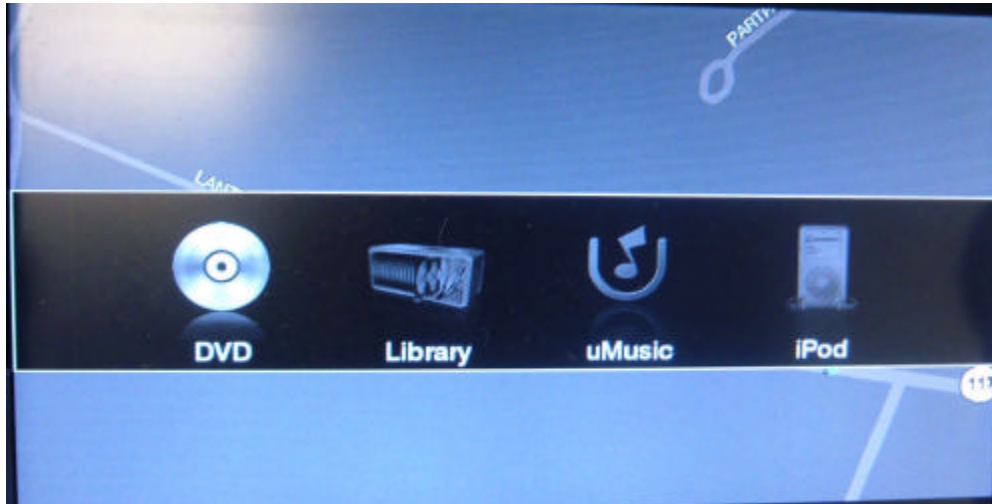

To gain access to the **Digital Sources** of the Media Center press 

The sources available in this mode are:

-  CD/DVD
-  Music Library
-  U-Music
-  Media Player

## **CD/DVD Player**

Choose the **CD/DVD** icon on the Digital Selection screen.

*Figure 3-1 Digital Selection Screen*

The Media Center is now in **CD/DVD Mode**.

### **Supported CD Types**

- CD-R
- CD-RW
- CD Mixed Mode
- DVD+/- RW (all memory sizes)

### **Supported Media Types**

- MP3
- WAV
- WMA
- MPEG2 ACC

## CD Play Options

### *To play a CD*

1. Insert a CD into the CD Player at the bottom of the unit.
2. CD will automatically begin to play.

### *To change the CD Play Mode*

1. Select the Play Mode Softkey, each time it is pressed it will cycle through the following choices:
  -  Normal Play - will play CD as it appears on the disc.
  -  Shuffle - will randomly play tracks on CD.
  -  Repeat Track - will repeat the same track on the disc.

## Navigating a CD

### *To navigate through tracks on the current CD*

1. Advance to the next track or rewind to the previous track by rotating the Inner Right Hand Knob either clockwise or counter-clockwise.

### *To manually advance or pause the current track*

1. Display the track time progression bar by pressing the Right Hand Inner Knob once.
2. Advance or rewind the track manually by rotating the Right Hand Inner Knob.
3. To pause the CD, press the inner right hand knob again. To resume play press the knob once more.
4. After ten seconds, the display will default back to the normal Operating Mode.

## Storing CD Media

The system can be set up to store digital music into the Library of the media center.

### *Storing the music on a CD to the system*

1. Press the **Store Softkey** at the bottom of the display.
2. The system will then display a screen stating that the CD is storing.
3. Press **Ok** to continue.
4. Press **Stop** to cancel the storing process.

**Note:** *The storing process can be canceled at any time by pressing the Stop Storing Softkey at the bottom of the display.*

The system can be set up to automatically store CDs when inserted, see the **CD Options** section of this manual for instructions.

**Note:** *See the Music Library section of this manual for instructions on how to play music from the library.*

## DVD Play Options

### *To play a DVD*

1. Insert a DVD into the player at the bottom of the unit.
2. The system will automatically start the DVD and it will begin to play.

### *Navigating a DVD*

1. Rotating the Right Hand Inner Knob will advance the DVD forward or backward while it is playing in preview mode.
2. Press the **Menu Softkey** to display the menu for the DVD.
3. Change the menu selections by rotating the Right Hand Inner Knob.
4. Choose a menu selection by pressing the Right Hand Inner Knob.

### *While the DVD is playing in Movie Mode.*

1. Advance the chapters forward or backward by rotating the Right Hand Inner Knob.
2. Fast forward, rewind, or pause the DVD by pressing the Right Hand Inner Knob once, this will display the Fast Forward, Pause, Rewind options.

Rotate the Right Hand Inner Knob to the desired fast forward or rewind selection, or press the Right Hand Inner Knob once to pause the DVD. Press again to resume (or press the **Play Softkey** at the bottom of the display).

3. Press the Menu Softkey at any time to bring up the DVD Menu.

## **Music Library**

The Music Library has the capacity to store all of the tracks from hundreds of your CDs, MP3s, and WAV files in the system. The actual quantity depends on the number and length of tracks on each CD. Used as a personal music library, this feature saves you the time spent physically arranging and searching through your collection.

Music recognition technology and related data are provided by **Gracenote®**.

Select the **Music Library** icon on the Digital Music Selection screen by pressing the Digital Source button until the icon is highlighted.

*Figure 3-2 Digital Selection Screen*

The Media Center is now in **Music Library Mode**.

The system will resume playing where it left off the last time the Music Library was used.

## **Playing Music**

While in **Music Library Mode** the system will sort the music in different ways:

- Artist/Album
- Genre
- Track

For information on how to change the sort modes, see the **Music Library** section of the *Options Chapter* of this manual.

## **Selecting Music by Artist/Album**

To select music while the system is in **Artist/Album Sort Mode**:

1. Rotate the Outer Right Hand Knob to locate the artist desired

**Note:** *Artist's are sorted in alphabetical order, using the first letter in the artist's or group's name.*

2. Press the Right Hand Inner Knob to enter the song list for that album.
3. Rotate the Right Hand Inner Knob to scroll through the song list on the album.
4. Press the Inner Right Hand Knob to select a song to play.

## **Selecting Music by Genre**

The system will sort music using the preloaded Genre selections.

- Rock/Pop
- Jazz
- Country
- Blues
- Vocal Music
- Soundtrack
- Other

To select music while the system is in **Genre Sort Mode**:

1. Rotate the Outer Right Hand Knob to locate the Genre desired.
2. Press the Right Hand Inner Knob to enter that Genre.  
The songs will be listed according to artist/song.
3. Rotate the Right Hand Inner Knob to scroll through the song list for that Genre.
4. Press the Inner Right Hand Knob to select a song to play.

## **Selecting Music by Track**

To select music while the system is in **Track Sort Mode**:

1. Rotate the Outer Right Hand Knob to locate the alphabetical grouping for the track desired.  
The songs will be listed alphabetically according to the title.
2. Press the Right Hand Inner Knob to enter that alphabetical grouping.
3. Rotate the Right Hand Inner Knob to scroll through the song list.
4. Press the Right Hand Inner Knob to select a song to play.

## Adding/Removing Music to the Music Library

### ***Adding Media from a CD***

To store media from a CD to the system's hard drive, see the Storing CD Media section of the CD/DVD Chapter of this manual.

### ***Adding Media from a Memory Stick***

1. Insert Memory Stick into the port on the face of the unit.

**Note:** *Due to Safety Restrictions, media is unable to download while the vehicle is moving, all file transfer from the memory stick must be done while the vehicle is stopped.*

2. A message will be displayed stating that music has been found.

Copy music from USB device  
to Music Library?

3. Press **Yes** softkey to proceed, **No** softkey to cancel.
4. If **Yes** is selected, the Copying Music message will be displayed:

Please Do not disconnect  
the USB Device  
until copying is complete.

5. When copying is complete, the Copying Complete message is displayed.  
Please remove the USB device.
6. Remove the Memory Stick, system will return to the current operating mode.

### ***Removing Music from the Music Library***

Music can be deleted from the music Library in three different ways.

- Entire Artist
- Entire Album
- Individual Songs

1. Press the  Options button on the face of the unit.
2. Rotate the Right Hand Outer Knob and highlight **Library Options**.
3. Rotate the Right Hand Inner Knob and highlight **Edit Music Library**, then press the knob to select this option.

4. Artists that are stored on the system will be displayed.
5. Locate the artist that you wish to delete by rotating the Right Hand Inner Knob until the artist is highlighted.

From here you may delete the entire Catalog for this artist from the system by pressing the **Delete Softkey** at the bottom of the display.

The system will prompt you with a confirmation message, select **Yes** or **No**.

OR

6. Press the Right Hand Inner Knob to select that artist.

If multiple albums by that artist are stored you may delete individual albums by rotating the Right Hand Inner Knob and highlighting a particular album and pressing the **Delete Softkey** at the bottom of the display.

The system will prompt you with a confirmation message, select **Yes** or **No**.

OR

7. Select an album by rotating the Right Hand Inner Knob and highlighting it Press the Right Hand Inner Knob to select that album.

Use the Right Hand Inner Knob to scroll through the songs on that album.

Scroll through the songs on that album by rotating the Right Hand Inner Knob and highlighting a particular song and pressing the **Delete Softkey** at the bottom of the display.

The system will prompt you with a confirmation message, select **Yes** or **No**.

8. Press **OK**, at the music has been deleted screen, the system will return to the active mode.

---

## **Using Playlists**

***Playing a Playlist***

***Adding Songs to a Playlist***

***Deleting Songs from a Playlist***

 **uMusic™**

The CDs you have amassed over the years are an expression of your taste in music. The ones you play on a regular basis provide a window into your style and moods. This model is equipped with a breakthrough new feature: the **uMusic™** intelligent playback system. Enabled by proprietary Bose® technology, it transforms your system into a virtual DJ, capable of playing a continuous stream of the music you most enjoy and adapting to your preferences as they change. Not only does it store your personal CD collection, but the uMusic intelligent playback system also provides a revolutionary new approach to hearing your music.

We know that the time spent sorting through CDs to locate the tracks you prefer simply delays your listening pleasure. Now, almost instantaneously, the uMusic™ system can do that job for you: finding and playing what you most want to hear.

It offers immediate access and uninterrupted play, so you can enjoy far more of your favorite music, even the tracks you've forgotten your own. And, as if it is listening along with you, the system learns to play more and more of what you prefer...for customized listening pleasure.

Select the **uMusic™** icon on the Digital Music Selection screen by pressing the Digital Source button until the icon is highlighted.

*Figure 3-3 Digital Selection Screen*

The Media Center is now in **uMusic™ Mode**.

The system will resume playing where it left off the last time **uMusic™** was accessed.

## Using uMusic™

### *Using Presets and Ratings with uMusic™*

The uMusic system provides six presets or **uStations**, these are denoted by u1 through u6. By using an exclusive preset, each listener helps this intelligent system distinguish their individual reactions to what it plays. Consider each preset a center point for that person's musical taste. Over time, the center may shift, as changes in taste and listening habits are noted by the preset.

1. Select a **uMusic™** Preset located at the top of the display.

The system will randomly start playing music from the library:

2. Let the track play to its conclusion if you don't want to take any action.
3. Use the + and – buttons to rate tracks you react to strongly. By pressing the + button you are letting the system know that you like the current selection and you would like it to play more frequently. Pressing the – button tells the system that the selection is not one of your favorites.

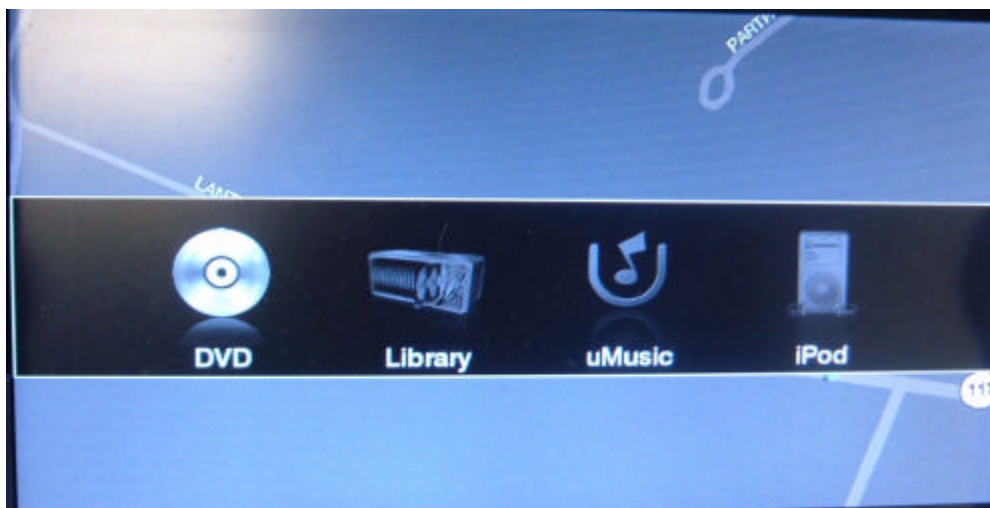

No matter which of the above actions you take while listening, the system continues to select from the entire contents of your stored music. Your preset keeps track of these responses, so the system learns to play certain music more or less often. Yet, for tracks you rate negatively, a small chance remains that you will hear that music in the future. Only by deleting a track from the system can you ensure it will never play again.

### *Navigating with uMusic™*

- Rotate the Right Hand Inner Knob to move on to the next track.
- Press the Right Hand Inner Knob to display the time bar.
- Press the Right Hand Inner Knob to pause the current selection, press again to resume play.

 **iPOD**

Choose the **iPOD** icon on the Digital Selection screen.

*Figure 3-4 Digital Selection Screen*

The Media Center is now in iPod Mode.

If no iPod is connected to the system, the icon will not appear.

## Connecting an iPod

1. Connect the iPod to the connector located in the glove box.
2. The system will automatically recognize the iPod and go into iPod Mode.
3. The system will automatically resume playing the iPod at the point where it was last stopped.

## Playing Music

While in **iPOD Mode** the system will sort the music in different ways:

- Artist/Album
- Genre
- Track

For information on how to change the sort modes, see the **Music Library** section of the *Options Chapter* of this manual.

## **Selecting Music by Artist/Album**

To select music while the system is in **Artist/Album Sort Mode**:

1. Rotate the Outer Right Hand Knob to locate the artist desired

**Note:** *Artist are sorted in alphabetical order using the first letter in the artist's or group's name.*

2. Press the Right Hand Inner Knob to enter the song list for that album.
3. Rotate the Right Hand Inner Knob to scroll through the song list on the album.
4. Press the Inner Right Hand Knob to select a song to play.

## **Selecting Music by Genre**

The system will sort music using the preloaded Genre selections.

- Rock/Pop
- Jazz
- Country
- Blues
- Vocal Music
- Soundtrack
- Other

To select music while the system is in **Genre Sort Mode**:

1. Rotate the Outer Right Hand Knob to locate the Genre desired.
2. Press the Right Hand Inner Knob to enter that Genre.

The songs will be listed according to Artist/Song.

3. Rotate the Right Hand Inner Knob to scroll through the song list for that Genre.
4. Press the Inner Right Hand Knob to select a song to play.

## **Selecting Music by Track**

To select music while the system is in **Track Sort Mode**:

1. Rotate the Outer Right Hand Knob to locate the alphabetical grouping for the track desired. The songs will be listed alphabetically according to the title.
2. Press the Right Hand Inner Knob to enter that alphabetical grouping.
3. Rotate the Right Hand Inner Knob to scroll through the song list.
4. Press the Right Hand Inner Knob to select a song to play.

## **Manually advancing or pausing the current track**

1. Display the track time progression bar by pressing the Right Hand Inner Knob once.
2. Advance or rewind the track manually by rotating the Right Hand Inner Knob.
3. To pause the CD, press the Right Hand Inner Knob again, to resume play press the knob once more.
4. After ten seconds the display will default back to the normal Operating Mode.
