Request for superseding the Internal Photos
Exhibits

Lady/Gentleman,

In the documents submitted for the above project, there is one internal photograph which has some indication of the antennas separation and distances between the license transmitters and unlicensed transmitter.

This photograph contains detailed and related information about the product which NEC Corporation of America considers to be confidential proprietary, a custom design and, otherwise, not releasable to the general public. Since this design is a basis from which future technological products will evolve, NEC Corporation of America considers this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

NEC Corporation of America would like to request the removal of this photo from the Internal Photos Exhibits and also request it be withheld from public disclosure due to the fact it contains NEC proprietary information.

Sincerely,

A handwritten signature in black ink, appearing to read "Sanjay Wadhwa", with a long horizontal line extending to the right.

Sanjay Wadhwa
Director, Product Validation
Radio Communications Systems Division
