no:AN01T1723

Dear Mike,

Thanks for your review. Please find my explanation below:

Question #1: Page 7 of test report which indicated 15.249 test procedures and requirement. This subject device is a TV interface device under Part 15 Subpart B of FCC rule. Please make a necessary correction.

ANS.: Sorry for the omission. Attached please find the corrected page.

Question #2: There is no test data provided for antenna transfer switch measurement. Please provide it.

ANS.: Sorry for our omission, this should be the format transfer error. Please check attached page for this data.

Question #3: There is no test data provided for output signal level measurement as required by 15.115(b)(1). Please provide it.

ANS.: Please check page 17 of our test report, there is indeed the data for output signal level.

If you have any further questions, please kindly inform us.

Regards,

K. C. Chen
ETC/EMC Department II
