

MEMORANDUM FOR CONSIDERATION

TO: FCC REVIEWING ENGINEER

FROM: JIM HAYNES

SUBJECT: FREQUENCY RANGES AND CELLULAR WARNING LABEL

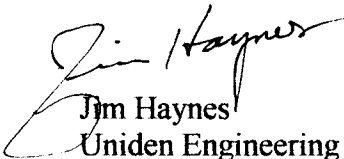

FCC ID: AAO2000524

Please note that the Frequency Range(s) entered under the Equipment Specifications are duplicates of the original application submission. However, in reviewing the Grant of Equipment Authorization (issued June 22, 1999) it appears that these frequencies were "rounded". Therefore, when comparing the Frequency Range(s) of this application against the FCC's database, they may not completely agree.

Additionally, the Cellular Modification Warning Label mandated pursuant to new Part 15.121(f)(1) is not an "ID Label" but we could not find a more suitable exhibit heading to upload this drawing. Therefore, the label is being uploaded under the Exhibit Type as an "ID Label & Location Info".

Please contact the undersigned if you need any further clarification on this matter.

Regards,

Jim Haynes
